

HA-Supreme Serum

Indications:

- To replenish essential moisturizers and develop a greater level of moisture retention
- To protect against free radical damage from UV radiation
- To revitalize the skin by adding nutrients lost during aggressive anti-aging skincare treatments (Microderm-abrasion, laser surgery, enzyme peels and aggressive chemical peels).
- To minimize the formation of wrinkles by adding the most critical lipid that protects collagen and fibril tissue.

Key Features:

- Formulated for all skin types.
- Aids in the healing of damaged, traumatized and most specifically for moderate to severely dry skin. .
- Delivers key essential nutrients into the dermis where they can do the most good.
- Super potent concentration of 7% HA within the solution to create serious levels of hydration in the skin
- Delivers significant hydration retention for 24 hours.
- Improves the skin to a more youthful, radiant complexion.
- Ideal for use following any aggressive or overly aggressive anti-aging skin care treatment that leaves your skin, dry, chafed, flaking, and irritated. In many of these procedures, you are removing the Stratum Corneum and don't even know it.
- Designed specifically for the face and delicate eye and neck areas.
- Light. Grease-less and elegant.
- Dries quickly.

Directions:

- Cleanse the skin.
- Apply a drop (size of a green pea) to each side of the face and one to the neck. If damage to the décolleté area, use as needed. Allow to dry. If this is not dry within 1 minute you have used too much. Dab off excess with a tissue.
- You should now apply your exfoliation treatment, i.e. Glycolic Acid, Retinol, Rx Vitamin A, or Polypeptides for sensitive skin. Allow to dry.
- Daytime: Apply sunscreen at least 30 minutes before going outside.
- Bedtime: You may apply an antioxidant, i.e. Grape Seed Serum or Vitamin C. Do this after cleansing and before HA Serum and your exfoliation treatment.
- Use once daily. If you are having difficulties due to severe dry heat or extreme wind and cold apply 2 times daily.

Warnings:

- External use only.
- Keep away from children.
- If irritation develops, discontinue use for 3 days and try again, using only 1 time daily for a week. Then go back to 2 times daily. If irritation persists, discontinue use and consult a dermatologist to determine the cause.
