

Talk the Talk

HERE'S THE LOWDOWN ON WHAT ALL THE FACES/PLAYERS/TUNERS REALLY THINK ABOUT THE VW SCENE, IF YOU HAVE ANY SUGGESTIONS EMAIL US ON PVW@UNITY-MEDIA.COM

3. Worst Modified VW you've seen?

There are so many styles people have chosen to embrace to the fullest of their capabilities; that is what makes tuning Volkswagens so great. So to answer your question, I've come across cars that are not my style, but I can still share in the enthusiasm and appreciation the owner has demonstrated for the marque.

4. Favourite car you've been involved with? I've been very fortunate to have immersed myself and my team in the Volkswagen scene and in doing so have had involvement in many spectacular cars. The R-GT project cars, (Jetta in particular) have shaped the potential for all future project builds we will undertake. It is my favourite.

5. What are your views on the current UK scene?
The UK scene embodies an originality that reaches across the globe when it comes to VW styling and performance.

6. What country leads the way in the current VW scene?
One of the truly impressive things about the VW scene is how global it has become and that has meant whether in the US, UK, Australia or Canada each country is bringing its own blend of spice to every conceivable area of the vehicle. As an enthusiast it means having the opportunity to pick and choose the best performance and styling from a global palette.

7. How long have you been into/involved with the VW scene in general? Since the ripe age of 14 when I acquired my first VW, a 1976 four-door Mk1

and began restoring.

8. If you didn't drive a VAG car, what would you be driving?

"I HAVE SEEN CARS THAT ARE NOT MY STYLE, BUT I CAN STILL SHARE IN THE ENTHUSIASM AND APPRECIATION FOR THE MARQUE"

9. Favourite VAG car of all time?

The 1979 Mk1 GTI! Light and fast! That said, the latest offerings from VAG with their stout V6s and unparalleled DSGs are quickly becoming the ultimate embodiment of what VAG has to offer.

10. What trends do you think we'll see in the VW scene in the next couple

The VW scene continues to grow and with the amazing platforms coming from the factory the aftermarket has been left in the proverbial "candy store". Volkswagen owners are a special group of people and I think we will continue to see a growth in reliable, useable, performance. It is the people's car – but these people are in a hurry.

11. Favourite show/meeting?

Worthersee (Austria). 200,000 of the craziest Volkswagen fans I have

12. Favourite alcoholic tipple?
