# Easy Flowering Onion™ Cutter

Take all the labor out of this high-dollar customer favorite for a profit of 700% or more!

Buy once. Buy the original.  
**Always look for this mark of quality**

# a 'Colossal' Moneymaking Opportunity

Cash in big time on the immensely popular flowering-onion appetizer with this easy-to-use manual tool that reduces all the painstaking labor down to one pull of a handle.

## Super-Fast ROI

When you can make 'em as fast as they eat 'em, just imagine. . . This machine pays for itself after only one 50 lb. bag of colossal onions!

- Load a peeled onion and pull the lever. It's that simple and fast. All the labor comes out of the process, but not the presentation—or the price.
- The ergonomic handle and lever action take all the strain off the user, further maximizing productivity.
- Easily disassembles for cleaning too!

## Relentless Performance

For a menu item this popular, you can't afford a breakdown.

- All cast-aluminum and stainless-steel construction for durability.
- High-strength bearings stand up to nonstop, heavy-duty activity.
- Wide base and suction-cup feet provide reliable balance and stability—yet, it remains extremely portable.
- Compact design makes it easy to fit on the countertop or store away.

Handle design uses leverage to make a quick and easy cut

All-metal construction stands up to commercial-kitchen abuse

Thumbscrews make disassembly easy for thorough cleaning

Stainless-steel blades hold a clean, sharp edge

Suction-cup feet firmly grip to the counter surface for stability, but easily release to make the unit portable

## Core Cutter

**The Easy Flowering Onion Cutter's sidekick**  
The Core Cutter easily removes the onion core, creating a space to add a ramekin filled with delicious dipping sauce. Unit comes with two different core cutter sizes—2 3/4" and 1 3/4"—and an adapter that works for smaller onions.

## Suggested Uses

Create the perfect signature-item appetizer using colossal or regular-sized onions. Or dip the ends of a flowered raw onion in food coloring to produce a magnificent onion garnish.

## General Specifications

Model	Description
