

# Digital Roller Grills

model #: 8230-SLT, 8230SX-SLT, 8250-SLT, 8250SX-SLT

Nemco's Digital Roller Grill is ideal for high-volume, self-serve establishments, where employees have little time to monitor the unit. Digital controls allow operators to place the food on the rollers, hit a button and walk away. The preprogramming then automatically sequences through the preheat, cook and hold settings to achieve a perfectly grilled product completely without supervision.

Its time-tested, low-maintenance design will serve you for years and forever satisfy your customers with the tastiest, juiciest hot dogs. 360° roller rotation prevents residue buildup, while individual roller heating elements ensure heating consistency. *GripsIt*, Nemco's optimized non-slip technology, allows for turning of a variety of items, including breaded and sugary-coated products, all while keeping clean-up easy.

## STANDARD FEATURES

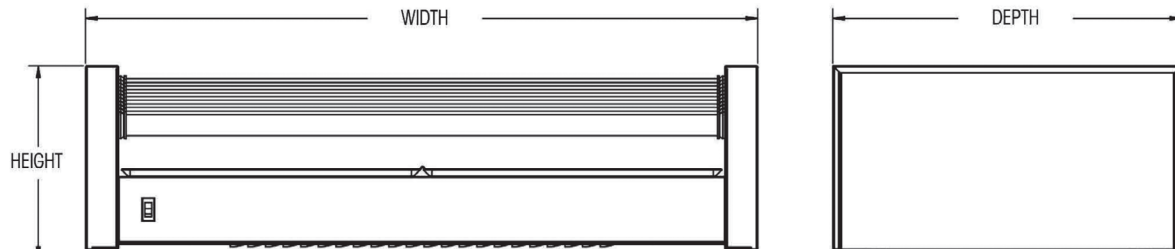

- Rugged stainless steel construction
- Simplest installation - plugs into any outlet with corresponding voltage
- Rollers available in either standard chrome or *GripsIt*, which cleans easily with just a damp sponge
- Easy to see color coded grease seals to indentify front and rear rollers
- Removable grease drip pan makes for easy cleaning
- Requires no ventilation system
- Lighted preset program button per temperature zone
- Four indicator lights per zone to indicate phase of program
- Independent program presets for each of front and rear zones
- Digital readout that displays the approximate temperature of the product
- One year parts and labor warranty
- NSF and cETLus listed

## ACCESSORIES

- Divider kits - includes dividers, convenient self-serve tongs, tong holder and control cover
- Food Safety Guards available for all roller grills; offers sanitary protection
- Stainless Steel Bun Boxes are great for merchandising
- 4" adjustable legs
