

## SKYE LAMP

*The Skye lamp is a collaboration between John and Skye Witherspoon. Designed as an impactful floor lamp that stands out, the Skye lamp has a cantilever arm, inspired by the lines and angles of the Humphrey chair -- sharing the same bolts and wood.*

*The lamp's arm is adjustable allowing for the shade to move up and down 30 degrees in either direction.*

Humphreys

## SKYE LAMP

*Shade made of natural, undyed American canvas.*

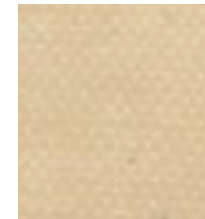

*All of the hardware is constructed of naval brass, steel and concrete.*

*The lamp's cantilever line allows for the shade to be tilted for optimal lighting needs.*

*Built in Texas, USA*

*PRICE: \$2,450*

## MATERIALS

*Base and Arm: American Pecan Wood*

*Shade: Natural American Canvas*

*Base: Cast Concrete*

When the spirit of West Texas is always home.
