Product Features

Our Body Adaptive Technology goes beyond regular chair adjustments, to adapt to your body and posture in finer details for optimal support.

1 VerteSync™ Backrest

Enables supported fidgeting to improve focus.

- Naturally prevents slouching just by leaning back against ergonomic vertebral design to relieve pressure on all 5 spinal cord regions.
- Lets you recline even further while keeping your lumbar adjustment in place.
- Adjusts up to 20cm higher and lower compared to other chairs to fit extra tall and petite users.

2 SmartFlex™ Lumbar Support

Now comes with height adjustments for fine-tuned lumbar support to eliminate lower back pain.

- The curvature is intentionally designed to fit our spine's natural curve which has the least spinal pressure.
- Extra height adjustments independent of backrest to fit even more body types.
- It is auto-adjusting, allowing for intelligent posture correction.
- Tuning knob allows users to adjust the stiffness of the lumbar support, for progressive spinal support.

3 TriTune™ 3D Headrest Enhanced

Ease neck pains in 2 modes: Work and Relax

- Use as Headrest for Productivity Mode and Neck Rest for Resting Mode.
- Adjustable 3 ways – height, depth and angle – to fit each user's unique contours.
- The curvature is intentionally designed for full contact on the nape of the neck and the trapezius - for comprehensive support.

4 GyroBrace™ 360 Armrests

Seamlessly transition across deep focus, casual work, and game time mode to support your arms and prevent stiff shoulders.

- First ergonomic armrest that pivots 360° - point inwards when you're reading or using your phone, and point forwards when you're working at your desk.
- Height, depth, and width adjustable for users of varying heights.

5 DuraWeave™ Fabric Mesh

Maximum breathability and durability.

- High quality – Scratch proof, sink proof, easy to wash, gentle on sensitive skin.
- 6 unique colours
 - Dew Green
 - Sand Beige
 - Granite Gray
 - Coral Red
 - Aqua Blue
 - Charcoal Black

6 Footpad

Lets you stretch out your legs when lying down in Resting Mode for maximum comfort.

- Comes as a singular piece for more surface area to rest your legs however you want – cross legged, lie down etc.
- Improves blood circulation, reduce leg swelling, leg pain, and varicose veins
- Available only as an Add-on

7 Seat Mechanism Controls

Easier access to tabs that control chair adjustments - just reach to the side of the seatpan to adjust to your body's comfort.

3 (+2) Year Warranty

Gives peace of mind and longevity guarantee for smart homeowners investing in their well-being and productivity.

Specification Data

Recommended Size

User Height Range	145 cm and above
User Weight Range	32 - 130 kg
Maximum Load	130 kg

Construction & Material

Frame Construction	PA Black Frame
Upholstery	DuraWeave Mesh
Armrest	Polyethylene (PE)
Wheelbase	350mm Nylon base
Casters	60mm Black PU casters

Gas Lift Options

	Small	Medium	Large
Min. Seat Height	470mm	490mm	510mm
Max Seat Height	540mm	580mm	600mm
User Height Range	<159cm	160-179cm	>180cm

Adjustability

Headrest	Tri-Tune
Backrest	Height Adjustable
Recline	Full multi-functional wire control mechanism with tilt-lock in 4 positions
Lumbar	Height Adjustable
Armrest	5D
Seat Pan	Forward - Backward
Gas Lift	3 options
Casters	Interchangeable

General Information

Assembly	L Wrench
Packaging Size	770 x 700 x 540 mm
Weight	28.9 kg
Warranty	3 Years (excluding wear and tear)

Adjustment Ranges

Refer to diagram above for points of measurement.

Headrest Height	610 - 680 mm	Seat Depth	390 - 440 mm
Headrest Depth	120 - 150 mm	Armrest Height	190 - 270 mm
Backrest Height	550 - 620 mm	Armrest Depth	110 - 170 mm
Lumbar Height	140 - 150 mm	Armrest Width Apart	355 - 490 mm
Lumbar Depth	390 - 400 mm	Footrest Extended Length	0 - 240 mm
Seat Height	470 - 600 mm
