

how to Clickit on your dog

Place Sleepypod logo in the center of your dog's chest. Buckle with enough room under both straps for 3 fingers.

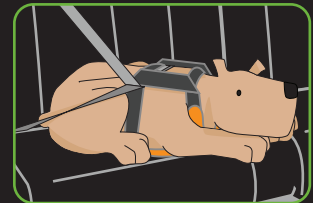

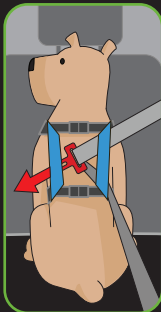

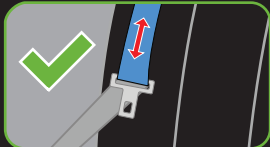

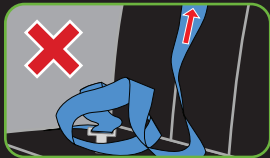

To use as a walking harness, clip both metal rings (at the neck) onto your dog's leash.

Attach velcro to the strap.

how to Clickit in the rear seat

Your dog should be able to sit up and lay down comfortably in the Clickit Sport.

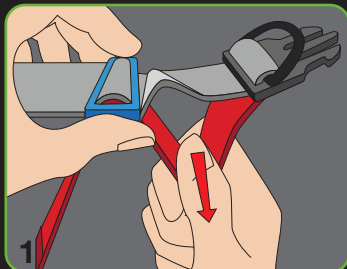

To connect Clickit Sport to your vehicle, insert seat belt through both loops located on the back of the harness and then buckle into the car's seat belt buckle. Avoid locking the seat belt.
