WHY A NOTCH HAT?

The key feature that makes our caps uniquely functional is the notches on the brim.

Our patented notches make wearing a ball cap and eyewear together more comfortable by eliminating the interference between the two; no more push and shove match between your cap and glasses! The notches also lock your eyewear in place giving you the most secure fit possible. Whether you're on a run or out on the water, your glasses will remain securely in place.

AVAILABLE IN TWO NOTCH LOCATIONS
