

I am very interested in your company and have some experience with commercial and residential projects. I am currently connected to a large project in the area.

As a result of my experience with various systems I am confident in my ability to ensure the project is completed on time and within budget. CDM regulations have been second nature to me and I have been involved in all details enclosed in the attached documents.

- Create and maintain a project plan
- Coordinate with the client and other stakeholders to ensure the project is completed on time and within budget
- Assess the project risks and develop a risk management plan
- Coordinate with the client and other stakeholders to ensure the project is completed on time and within budget
- Develop a project budget and manage the project costs
- Coordinate with the client and other stakeholders to ensure the project is completed on time and within budget
- Develop a project budget and manage the project costs

I am a very experienced project manager and have a direct/indirect experience in the construction industry. I regularly work with clients and other stakeholders to ensure the project is completed on time and within budget.

I very much appreciate your time and consideration.

Kind Regards
