"Art is one step from the visibly known towards the unknown. For an artist the experience of capturing a feeling through a perfect set of interconnected curved forms and planes is absolutely gratifying," said Neha Dani. *"Time and again I have been inspired by works of different artists of different medium like the great works of Vincent Van Gogh, Monet, Emile Gallé in creating my own pieces of art form with a stir in them making them feel like almost alive."*

Neha Dani's sculptural wonders are inspired by the natural world. Designing, creating and imagining come naturally to Dani. She conceptualizes 3-dimensional objects, and works patiently as she modifies and reworks the model until she feels it is perfect. She hand selects diamonds and colored gemstones and works with stone setters using both old-world techniques and modern technology to create truly unique pieces of art.

Neha Dani, Parisa Earrings. Featuring 9.6 carats of round full cut diamonds, 1.5 carats of rose cut diamonds, 11.37 carats of blue sapphires, 6.7 carats of tsavorite and a pair of 4.63 taw emerald cabochons in 18-karat gold with custom blue and green rhodium.

Highlights on view include:

- Bonita, a strong, undulating cuff in 18K white gold in blue rhodium and sprinkled with diamonds and blue sapphires with the glistening effects of the ripples of gentle waves circling.

Neha Dani, Brionne Earrings. Titanium and Opal Rainbow Branch Earrings with Diamonds.

Each of Neha Dani's designs exhibit an intricacy with many forms, curves, and colors that are as exceptional as the woman who will wear each masterpiece. *"The process of creativity is very meditative and one has to connect to oneself in total calmness to be able to create. It is a profound inward journey and it helps me connect to my inner being to bring out my best to share with the world,"* says Neha Dani from her Mumbai studio.
