

LOTUS BUD • \$950.00

Our newest tent has the same great design as the Lotus Belle, but is a pop-up version! It weighs in at just 57lbs, and with its pop-up roof and no centre pole, it has 100% usable space inside. It can be put up by one person in around 10 - 15 minutes, and folds away in just a few moments just by pulling on a toggle.

- 2.7m diameter tent
- 8.5 x 8.5 x 7.5ft (height)
- Sewn in groundsheet
- Optional porch awning
- Tent with porch: 4.8 x 8.5 x 7.5ft (height)

Lotus Belle tents have been developed by British designer Harriet Seddon and passionate Kiwi environmentalist Jessica Walsh. The original Lotus Belle, Lotus Pearl and the portable pop-up Lotus Bud form a family of high quality, sustainable tents that are built to last.

TENTS FOR LIFE

“

One of the things that everyone notices about our Lotus Belle, is how beautiful the canvas is. It has a luxurious feel, soft and dense. The other thing everyone remarks on (other than the shape) is how roomy it is and how great to be able to stand upright immediately. After using it for two years now, we like the fact that it holds up in intense winds, has heaps of room, and is always the most unique tent in the campground.
