

TECHNICAL DATA SHEET

GAS CONDITIONER

TRIPAK[®]
Super Lubricants

Product Description

The 3 in 1 Gas Conditioner is a complete fuel system treatment that restores your engine to like-new operating conditions. Its effective cleaning properties and moisture removing capabilities improves and maintains efficiency.

Benefits

Improves Fuel Mileage. 3 in 1 Gas Conditioner saves fuel with a unique blend of additives that increases octane and prevents pinging.

Cleans Fuel System. Adding 3 in 1 Gas Conditioner to your fuel tank breaks down and eliminates carbon build-up and other contaminants, restoring engine performance and reducing harmful emissions.

Removes Moisture From Fuel. 3 in 1 Gas Conditioner is an effective emulsifier that absorbs moisture from condensation or poor fuel. It suspends the moisture particles and safely burns it through the fuel system, protecting the engine and preventing freeze-up.

Directions

1 oz treats 12 gallons. Add directly in to fuel tank. Use every fill-up for best results. Effective in leaded and non-leaded fuel. Will not over-treat.

Specifications

Specific Gravity: Range 0.789 - 0.797 @ 75°F/23.9°C

% H₂O: Not to exceed 0.25% (2500 PPM)

Colour: Gold

Odour: Sweet

Solubility in water: Soluble

Composition:

Contains methanol and petroleum distillates.

Contains chlorinated solvents.

(Specifications may vary ± 3%)

Applications

- Cars
- Trucks
- SUVs
- Sports Cars
- 2 Stroke and 4 Stroke Engines
- Motorcycles
- ATVs
- Snowmobiles
- Boats
- Generators
- Chainsaws
- Lawn Mowers
- Gas-powered Welders
- Fork-lifts
