

# TurtleSkin Glove Sizing Chart

## TurtleSkin Gloves Are Available in Many Sizes

To ensure comfortable, secure hand protection, TurtleSkin Glove sizes are based on accurate hand measurements. Our gloves come in multiple sizes to precisely fit many different hands. Use the following charts to determine your correct glove size.

**NOTE:** Use the longest "finger length" or "hand width" measurement to find your size. If your longest measurement falls between sizes, order the larger size.

**Width Measurement:** Wrap a tailor's measuring tape around your dominant hand just below knuckles, excluding your thumb, and make a fist. This measurement is your "hand width" glove size.
