

After weeks of testing, we here at UKMums.TV are proud to name our favourite Kitchen Gadget of 2015 as:

Name: The Garlic Twist

The Garlic Twist is an innovative kitchen garlic tool that is designed to replace the common but problem prone garlic press! The twist makes light work of mincing not only garlic, but also chilli, ginger and nuts.

Our testers said: “Hands down the best garlic crusher I’ve ever used.” and “This garlic twist is fantastic! Chops it all up perfectly with no fuss or mess!”
