THE GARLIC TWIST

The Garlic Twist is an innovative kitchen tool that is designed to replace the common but problem-prone garlic press. It's compact, attractive and easy to use, and makes light work of garlic, chilli, ginger, nuts and much more. At the heart of each Garlic Twist is a matching set of cross-cutting mincing teeth, able to mince from coarse to fine. They are pleased to be the winner of The Mum's Choice Awards - Best Kitchen Gadget 2015.
