

'Hex' marks the spot!

Play this fun pirate game!
Find out how on page 27.

A large hexagonal board game board is the central focus. It has a dark grey background with a lighter grey hexagonal center. The board is divided into several sections, each with a different instruction and illustration. The instructions include: "Build a numberblock that's 3 less than ten!", "Snake pit! Go back 2 spaces.", "Build a numberblock that makes a cube!", "River! Go back 2 spaces.", "Swamp! Go back 2 spaces.", "Build a numberblock that's 4 more than five!", and "Closing dungeon door! Go back 1 space.". The central hexagon contains a smaller hexagon with a grey bar across it and the text "Pop your middle piece here." with an arrow pointing to the bar. There are also illustrations of flames, a snake, a river, and a crown.
