RUGGEDCOM Selector

The RUGGEDCOM Multi-Service Platforms are specifically designed to operate reliably in industrially harsh environments. These products meet and exceed recognized industry standards (e.g. IEC 61850-3, IEEE 1613) for ruggedness and communications performance. They are ideally suited for mission critical real-time control applications requiring high levels of reliability and availability.

With the RUGGEDCOM Selector you can transfer the order number to the Siemens Industry Mall and order your products.

To use the RUGGEDCOM Selector for the selection and configuration of RUGGEDCOM products, visit: [siemens.com/ruggedcom-selector](https://www.siemens.com/ruggedcom-selector)

For information on wireless approvals, visit: [siemens.com/wireless-approvals](https://www.siemens.com/wireless-approvals)

Example	Order code
RUGGEDCOM RX5000 with two high voltage (88-300 VDC / 85-264 VAC) power supplies with screw terminal block, 19" rack mounting, front mount with interfaces and diagnostic LEDs on the front, conformal coating, switch module supporting Layer 2 with 8 Gbit/s throughput and 2x 1000BASE-LX SFP interfaces, control module, Layer 3 standard edition (only with Layer 2 hardware), 16x 10/100BASE-TX with RJ45 interfaces, 8x 100BASE-FX multi-mode, 1310 nm, LC 2 km, 8x RS232/RS422/RS485 with DB9 interfaces and three blank modules.	6GK6050-0AM23-3DM1-Z A07+B00+C02+D01+E04+F31+G00+H00+J00

Z Options for switch module (SM)	
Layer 2 with 8 Gbit/s throughput and 2x 10/100/1000BASE-TX RJ45 interfaces	A01
Layer 2 with 8 Gbit/s throughput and 2x 1000BASE-LX SFP blank (no transceivers)	A07
Layer 3 with 8 Gbit/s throughput 2x 10/100/1000BASE-TX RJ45 interfaces	A09
Layer 3 with 8 Gbit/s throughput and 2x 1000BASE-SX with multi-mode, 850 nm, LC, 500 m	A10
Layer 3 with 8 Gbit/s throughput and 2x 1000BASE-LX SFP blank (no transceivers)	A15
Layer 3 with 88 Gbit/s throughput and no uplink ports	A16
Layer 3 with 88 Gbit/s throughput, 2x 10G SFP+ slots blank (no transceivers)	A17

Z Options for control module (CM) – mandatory	
Control module	B00

Z Options for software	
Layer 2 standard edition	C00
Layer 3 standard edition (only with Layer 3 hardware)	C01
Layer 3 standard edition (only with Layer 2 hardware)	C02
Layer 3 security edition (only with Layer 3 hardware)	C03
Layer 3 security edition (only with Layer 2 hardware)	C04

Z options line modules	Slot 1	Slot 2	Slot 3	Slot 4	Slot 5	Slot 6
Blank module	D00	E00	F00	G00	H00	J00
16 x 10/100BASE-TX with RJ45 interfaces	D01	E01	F01	G01	H01	J01

4 x 10/100/1000BASE-TX RJ45. Requires 88 Gbit/s switch module, options A16 / A17.	6GK6050-0AL20-0FC0	6GK6050-0AL20-0FC1
4 x 1000BASE-LX SFP, blank (no optical transceiver). Requires 88 Gbit/s switch module, options A16 / A17.	6GK6050-0AL20-0JB0	6GK6050-0AL20-0JB1
8 x RS232/RS422/RS485 with DB9 interfaces	6GK6050-0AL20-0KB0	6GK6050-0AL20-0KB1
8 x 100BASE-FX, SFP, blank (no optical transceiver)	6GK6050-0AL20-0CU0	6GK6050-0AL20-0CU1
1 x Pair (A/B) Gigabit PRP SFP Blank (no transceivers). Requires 88Gbps Switch module	6GK6050-0AL20-0PRO	6GK6050-0AL20-0PR1

Accessories

RX1400	Description	Article number
	19" rack mount kit for RX1400	6GK6000-8MT00-0AA0
ANT795-4MA	3/5 dBi direct mount omni-directional antenna for 2.4 GHz/5GHz WLAN with R-SMA connector with radial swiveling joint.	6GK5795-4MA00-0AA3
ANT792-6MN	6 dBi omni-directional antenna for 2.4 GHz WLAN with N-Connect female connector. Suitable for wall or mast mounting.	6GK5792-6MN00-0AA6
ANT795-6MN	6/8 dBi omni-directional antenna for 2.4/5 GHz WLAN with N-Connect female connector. Suitable for roof or mast mounting.	6GK5795-6MN10-0AA6
ANT795-6DC	9/9 dBi sector antenna for 2.4/5 GHz WLAN with N-Connect female connector. Suitable for wall or mast mounting.	6GK5795-6DC00-0AA0
ANT793-6DG	9 dBi dual-slant sector antenna for 5 GHz WLAN with 2 x N-Connect female connectors. Suitable for wall or mast mounting.	6GK5793-6DG00-0AA0
ANT792-8DN	14 dBi directional antenna for 2.4 GHz WLAN with N-Connect female connector. Suitable for wall or mast mounting.	6GK5792-8DN00-0AA6
ANT793-8DJ	18 dBi dual-slant directional antenna for 5 GHz WLAN with 2 x N-Connect female connectors. Suitable for wall or mast mounting.	6GK5793-8DJ00-0AA0
ANT793-8DK	23 dBi dual-slant directional antenna for 5 GHz WLAN with 2 x N-Connect female connectors. Suitable for wall or mast mounting.	6GK5793-8DK00-0AA0
ANT793-8DP	13.5 dBi directional antenna for 5 GHz WLAN with N-Connect female connector. Suitable for wall or mast mounting.	6GK5793-8DP00-0AA0
	Antenna cable N-Connect male/R-SMA male 1 m.	6XV1875-5TH10
	Antenna cable N-Connect male/R-SMA male 2 m.	6XV1875-5TH20
	Antenna cable N-Connect male/R-SMA male 5 m.	6XV1875-5TH50
TI975-1R	Termination impedance (R-SMA), 3 pieces	6GK5795-1TR10-0AA6
LP798-2N	Lightning protector	6GK5798-2LP10-2AA6

With the RUGGEDCOM Selector you can transfer the order number to the Siemens Industry Mall and order your products.

To use the RUGGEDCOM Selector for the selection and configuration of RUGGEDCOM products, visit: [siemens.com/ruggedcom-selector](https://www.siemens.com/ruggedcom-selector)

For more information on wireless approvals, visit: [siemens.com/wireless-approvals](https://www.siemens.com/wireless-approvals)

FastConnect Cabling System

Stringent demands are placed on the installation of cables in an industrial environment. Siemens offers FastConnect, a system that fulfills all these requirements: on-site assembly – quick, easy and error-free. For more information, visit: [siemens.com/fastconnect](https://www.siemens.com/fastconnect)

Security information

Siemens provides products and solutions with industrial security functions that support the secure operation of plants, systems, machines and networks.

In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial security concept. Siemens' products and solutions only form one element of such a concept.

Customer is responsible to prevent unauthorized access to its plants, systems, machines and networks. Systems, machines and components should only be connected to the enterprise network or the internet if and to the extent necessary and with appropriate security measures (e.g. use of firewalls and network segmentation) in place.

Additionally, Siemens' guidance on appropriate security measures should be taken into account. For more information about industrial security, please visit:
[siemens.com/industrialsecurity](https://www.siemens.com/industrialsecurity)

Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends to apply product updates as soon as available and to always use the latest product versions. Use of product versions that are no longer supported, and failure to apply latest updates may increase customer's exposure to cyber threats.

To stay informed about product updates, subscribe to the Siemens Industrial Security RSS Feed under:
[siemens.com/industrialsecurity](https://www.siemens.com/industrialsecurity)

The information provided in this brochure contains descriptions or characteristics of performance which in case of actual use do not always apply as described or which may change as a result of further development of the products. An obligation to provide the respective characteristics shall only exist if expressly agreed in the terms of contract. Availability and technical specifications are subject to change without notice. All product designations may be trademarks or product names of Siemens AG or supplier companies whose use by third parties for their own purposes could violate the rights of the owners.
