

PROFESSIONAL EYEBROW TINT BROW PREP AND AFTERCARE

Proper brow prep and aftercare play a crucial role in the overall outcome of the service. The correct aftercare practices will help you achieve optimal, long-lasting results.

Brow Care Tips For Pre & Post Brow Code Treatments:

1. Avoid the temptation to over-touch or rub the brow area after treatment.
2. Avoid tweezing in-between appointments to maintain a natural shape.
3. Avoid using makeup and facial cleansers around the brow area 24 hours post-treatment.
4. Avoid prolonged exposure to direct sunlight, the use of sunbeds, saunas, steam rooms, and swimming pools for 24 hours post-treatment.
5. Avoid using Retin-A and AHA around the brow area for at least three days on either side of the treatment.
6. Avoid using any self-tanning products on the face for around two to three days on either side of the treatment.
