

# BRUNSWICK BATHS

**Facility:** Brunswick Baths (Moreland City Council)

**Value:** \$440,000.00

**Reference Name:** Paul McPerson

**Brands:** Precor

Brunswick City Baths is a historically listed building which is a year-round facility with a 50-metre heated outdoor pool and kids splash-pad, a 20-metre heated indoor pool and water-play pool, gym, cardio room, personal training studio and group fitness classes.

When the facility was looking to change their floor plan and upgrade their fitness equipment, they turned to NovoFit and Precor for their solution. The gym space was relocated to allow for 24/7 access via the buildings rear entrance and the gym was designed to create flow and easy movement around the space.

The gym features Precor Experience™ Series Cardio with the Preva® networked solution to deliver a next-level fitness experience for their 4,000+ members. The consoles have intuitive design, dynamic entertainment, interactive workouts, goal setting and incentives. This space also houses strength equipment from the Precor Vitality™ Series and Icarian® Series.

Take a 360° tour of the Brunswick Bath by clicking 'watch more'.

City Council

“From the very beginning of the gym refresh project NovoFit and Precor were very involved in helping us get the best gym layout for our centre and the local community. The ongoing support from both a service and maintenance level, as well as general support from our account manager has been fantastic”
