COGNICOLIN

FOOD FOR SPECIAL
MEDICAL PURPOSES

Cognicolin capsules are formulated on the basis of citicoline, a cranial nutrient which contributes to the preservation and improvement of the cognitive functions, especially executive functions which drop the most as aging progresses. It has a multi-targeting effect and is safe for continued use. It doesn't lead to addiction or sedation.

Cognicolin capsules are recommended for:

- Students, in order to improve memory, concentration and studying
- Adults who would like to improve their cognitive abilities and increase focus, attention, memory, the ability to form conclusions and make decisions
- Elderly persons with reduced cognitive functions
- Recoverants of ischemic stroke
- Conditions involving impaired cognitive functions which result in behavioral changes
- Glaucoma

Supplemental Facts:

Active Ingredient	2 capsules	RDI*
Citicoline	500 mg	/

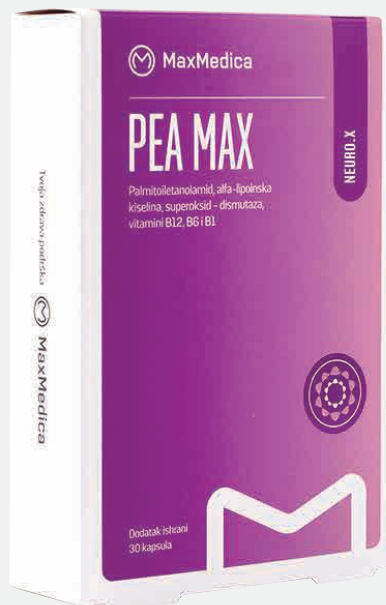

*RDI - Reference Daily Intake

*RDI not established

Suggested Use:
1 capsule, twice a day.
One Pack: 20 capsules

PEA MAX

DIETARY SUPPLEMENT

Pea Max is formulated on the basis of palmitoylethanolamide (PEA), alpha-lipoic acid in gastro-resistant form, superoxide dismutase, vitamins B12, B6 and B1. Palmitoylethanolamide (PEA) has anti-inflammatory and analgesic effects: Inhibits the release of proinflammatory molecules and indirectly activates the endocannabinoid system. Superoxide dismutase (SOD) and alpha-lipoic acid have antioxidant activity.

Supplemental Facts:

Active Ingredient	1 capsule	RDI*	2 capsules	RDI*
Palmitoylethanolamide (PEA)	400 mg	/	800 mg	/
Alpha-lipoic acid	300 mg	/	600 mg	/
Superoxide dismutase (SOD)	70 IU (3, 5 mg)	/	140 IU (7 mg)	/
Vitamin B12	300 µg	12000%	600 µg	24000%
Vitamin B6	3 mg	214%	6 mg	428%
Vitamin B1	3 mg	273%	6 mg	545%

*RDI - Reference Daily Intake

Indications:

- Chronic pain caused by chronic inflammation and painful condition
- Central and peripheral neuropathic pain as a consequence of:
 - Neurodegenerative diseases (Parkinson's disease, Alzheimer's disease, Multiple sclerosis, Amyotrophic Lateral Sclerosis (ALS))
 - Stroke and CNS trauma
 - Neuralgia
 - Viral infections of the nervous system (Herpes Zoster, HIV)
- Chronic tumor pain
- Phantom pain

Suggested Use:
1-2 capsules daily.
One Pack: 30 capsules

OZON MAX GEL

MEDICAL DEVICE

Active Ingredients:

Ozolipoile (ozone stabilized in oleic acid with alpha-lipoic acid and vitamin E acetate), Glutamine, Arginine, Isoleucine, Leucine, Valine, Panthenol, Glycerin.

Ozolipoile

a patented complex of ozone stabilized in oleic acid with alpha-lipoic acid and vitamin E, has antioxidant effects (reduces the possibility of ROS, stimulates the synthesis of endogenous antioxidants, protects the structure and function of nerve cells and improves nerve conduction) and as a stable source of oxygen helps in states of hypoxia.

Glutamine

participates in protein synthesis and is a precursor of endogenous antioxidants.

Arginine

participates in protein synthesis and has a vasodilating effect.

Isoleucine, leucine, valine

participate in protein synthesis (needed to build and repair muscles, organs and other body structures).

Panthenol and glycerin

hydrate the skin, enable better absorption of active principles and help epithelialization.

Indications:

- Symptomatic therapy of neuropathies of inflammatory, dysmetabolic and infectious origin (relieves, tingling, itching and pain in the extremities).

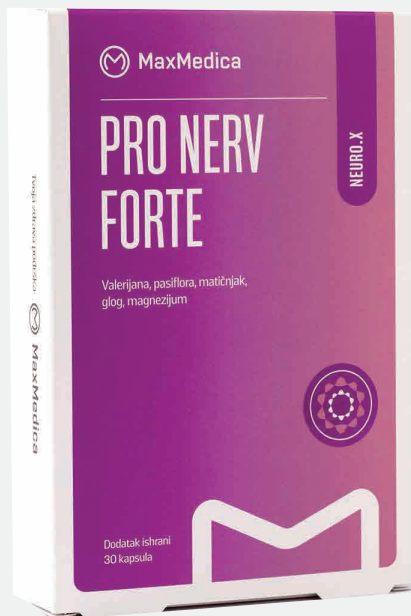

Suggested Use:

Apply the gel in a thin layer 2-3 times a day on the desired place and gently massage until the skin absorbs it. It can be combined with electrophoresis (when this method is indicated) or ultrasound therapy.

One Pack: 100 g

PRO NERV FORTE

DIETARY SUPPLEMENT

Pro Nerv Forte contains standardized extracts of passionflower herb, valerian root, lemon balmleaf and hawthorn fruit, with the addition of magnesium. Valerian contributes to relaxation, maintaining mental balance in case of tension and stress, maintaining calm and reducing irritability. Passionflower contributes to normal nervous system function and normal psychological function. Lemongrass contributes to normal psychological function and maintaining mental and physical balance. Hawthorn contributes to normal function of the heart and cardiovascular system, and normal function of the digestive tract. Magnesium contributes to the normal function of the nervous system and reduces fatigue and exhaustion.

Indications:

- Tension, agitation, irritability
- Nervousness, restlessness, fear, anxiety
- Stressful situations and inability to relax and rest mentally
- Help with weaning from frequent use of anxiolytics

Supplemental Facts:

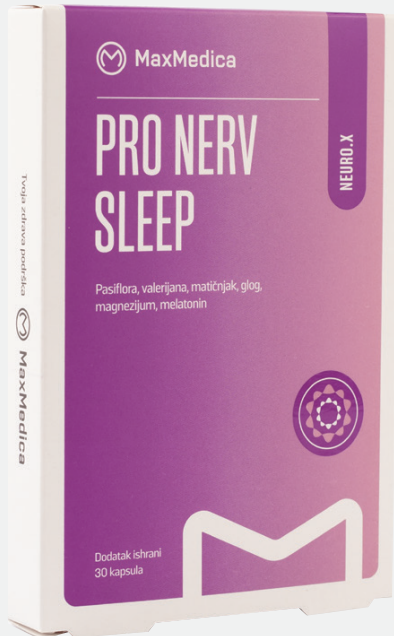

Active Ingredient	1 capsule	RDI*
Valerian root extract (Valeriana officinalis) standardized to 0.8% valeric acid	125 mg	/
<i>valeric acid</i>	1 mg	
Extract of herb Passionflower (Passiflora incarnata) standardized to 3% flavonoids	180 mg	/
<i>flavonoids</i>	5,4 mg	
Lemongrass extract (Melissa officinalis) standardized to 5% flavonoids	25 mg	/
<i>flavonoids</i>	1,25 mg	
Hawthorn fruit extract (Crataegus pinnatifida) standardized to 3% flavonoids	25 mg	/
<i>flavonoids</i>	0,75 mg	
Magnesium	60 mg	16%

*RDI - Reference Daily Intake

Suggested Use:
1 capsule daily (as needed).
One Pack: 30 capsules

PRO NERV SLEEP

DIETARY SUPPLEMENT

Pro Nerv Sleep contains standardized extracts of passionflower herb, valerian root, lemon balm leaf and hawthorn fruit, magnesium and melatonin. Pro Nerv Sleep contributes to normal psychological function and contributes to shortening the time required for a person to fall asleep, helps a person to rest and has a peaceful sleep.

Indications:

- Insomnia
- Jet lag
- Stressful situations and inability to relax and rest mentally
- In people who work at night or in shifts

Suggested Use:

Insomnia and intermittent / restless sleep: 2 capsules 15-30 min before bedtime.
 Jet lag syndrome: 2 capsules just before bedtime on the first day of travel and the next few days upon arrival at the destination.
 One Pack: 30 capsules

Supplemental Facts:

Active Ingredient	2 capsules	RDI*
Valerian root extract (Valeriana officinalis) standardized to 0.8% valeric acid	125 mg	/
<i>valeric acid</i>	1 mg	
Extract of herb Passionflower (Passiflora incarnata) standardized to 3% flavonoids	200 mg	/
<i>flavonoids</i>	6 mg	
Lemongrass extract (Melissa officinalis) standardized to 5% flavonoids	40 mg	/
<i>flavonoids</i>	2 mg	
Hawthorn fruit extract (Crataegus pinnatifida) standardized to 3% flavonoids	40 mg	/
<i>flavonoids</i>	1,2 mg	
Magnesium	300 mg	80%
Melatonin	1 mg	/

*RDI - Reference Daily Intake

MIGRALIN

FOOD FOR SPECIAL
MEDICAL PURPOSES

Migralin is formulated on the basis of standardized extracts of plant feverfew (*Tanacetum parthenium*-Feverfew) and black pepper (*Piper nigrum*), magnesium, coenzyme Q10 and vitamin B2. Feverfew - thanks to the content of parthenolide has an anti-inflammatory effect and affects the metabolism of serotonin. Magnesium contributes to the normal function of the nervous system and reduces fatigue and exhaustion. Vitamin B2 contributes to the protection of cells from oxidative stress, normal function of the nervous system, reduction of fatigue and malaise. Coenzyme Q10 helps to maintain normal cognitive function and maintain normal blood pressure. Piperine as an active principle of black pepper has anti-inflammatory action.

Supplemental Facts:

Active Ingredient	2 capsules	RDI*
Magnesium	350 mg	93%
Feverfew leaf extract (<i>Tanacetum parthenium</i>) standardized to 0.5% parthenolide	52mg	/
<i>parthenolide</i>	0,26 mg	/
Vitamin B2	100 mg	7143%
Coenzyme Q10	100 mg	/
Black pepper extract (<i>Piper nigrum</i>) standardized to 95% piperine 10 mg	10 mg	/
<i>piperina</i>	9,5 mg	/

*RDI - Reference Daily Intake

Indications:

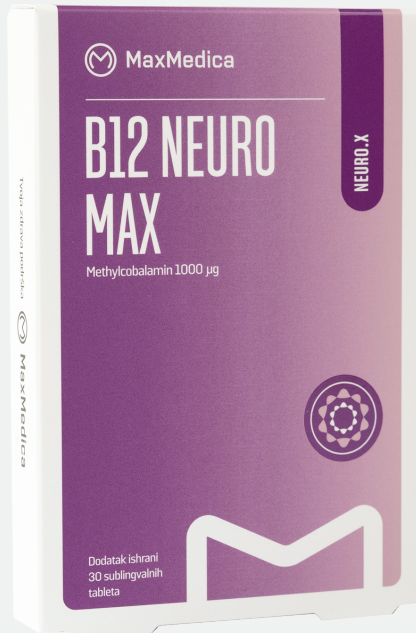

- Prophylactic treatment of migraine headaches
- Alleviation of migraine symptoms
- Help with headaches of other etiologies

Suggested Use:

2 capsules daily for 3 months.
After a break of a month,
the cycle can be repeated.
One Pack: 60 capsules

B12 NEURO MAX

DIETARY SUPPLEMENT

Support to the nervous system
1000 mg of vitamin B12 (methylcobalamin)

B12 Neuro Max sublingual tablets contain vitamin B12, folic acid and biotin. The synergetic effect of these active ingredients improves peripheral and cerebral circulation, while vitamin B12 helps to create red blood cells participating in the transmission of the nerve impulse.

It's recommended to use B12 Neuro Max sublingual tablets:

- For normal function of the nervous system
- In megaloblastic (macrocytic) anemia
- For the synthesis of genetic material (DNA and RNA) and amino acids
- For healthy growth and development
- For energy production (in case of chronic fatigue and exhaustion)

Supplemental Facts:

Active Ingredient	1 tablet	RDI*
Vitamin B12	1000 µg	40000 %
Folic Acid	170 µg	85%
Biotin	100 µg	200%

*RDI - Reference Daily Intake

Suggested Use:
1 sublingual tablet in the morning.

One Pack: 30 sublingual tablets
