Adults and children older than 12 years:
4 applications per day, directly on the mucous membrane of the oral cavity.

One pack: 30 ml

MAXOMUCIL 600

DIETARY SUPPLEMENT

Dilutes secretion and enables easier expectoration

MaxoMucil 600 is formulated on the basis of N-acetylcysteine (NAC), propolis, echinacea and vitamin C. N-acetylcysteine is a strong mucolytic, which dilutes the thick, viscous secretion and allows it to escape more easily, thus establishing normal air flow through the airways and facilitating breathing. N-acetylcysteine has antioxidant activity. Propolis contributes to the normal function of the immune system and acts as a natural antifungal that protects the mucous membranes of the pathways from the development of bacterial, viral and fungal infections. Echinacea and vitamin C contribute to the normal function of the immune system.

Supplemental Facts:

Active Ingredient	1 sachet	RDI*
N-acetylcysteine	600 mg	/
Dry propolis extract standardized to a minimum of 10% flavonoids	30 mg	/
Vitamin C (in the form of L-ascorbic acid)	120 mg	150%
Dry echinacea root extract (Echinacea purpurea) 6:1	80 mg	/

*RDI - Reference Daily Intake

Suggested Use:
 Children from 6 to 12 years: 1-2 times a day, dissolve the contents of 1 sachet in half a glass of water, stir with a spoon and drink immediately.
 Adults and children older than 12 years: 2-3 times a day, dissolve the contents of 1 bag in half a glass of water, stir with a spoon and drink immediately.
 One Pack: 20 sachets
