## MAXMEDICA - YOUR HEALTHY SUPPORT

MaxMedica is a pharmaceutical company based in Belgrade, which has been producing dietary and cosmetic products for 12 years.

In MaxMedica portfolio, there are more than 60 products that represent a combination of carefully selected high-quality raw materials and modern production technology.

The professional team of pharmacists and technologists is continuously working on improving products and developing new formulations, all in accordance with the wishes and needs of users.

MaxMedica follows global trends, participates in international fairs and imports the highest quality raw materials, in order to offer users effective and, above all, safe products.

**THE MAXMEDICA PRODUCT PORTFOLIO CONSISTS OF 9 PRODUCT LINES,  
CREATED IN ACCORDANCE WITH THE INDICATION AREA OF THE PRODUCTS AND THEIR PURPOSE.**

# ZINC-ZN

## DIETARY SUPPLEMENT

Important for immune system, cognitive functions, bones, skin, hair, nails, eyesight and fertility.

Zinc-Zn tablets contain zinc, an essential micro-element, which contributes to the biological systems that carry out specific functions necessary for everyday living.

It's recommended to use Zinc-Zn tablet to help maintain:

- The proper functioning of the immune system
- Cognitive functions (memory, concentration, etc.)
- Normal protein synthesis
- Bone, skin, hair and nail health
- Good eyesight
- Fertility and reproduction

### Supplemental Facts:

Active Ingredient	1 tablet	RDI*
Zinc	15 mg	150%

\*RDI - Reference Daily Intake

Suggested Use:  
One tablet a day, with meal.  
One Pack: 50 tablets

# ZINC+C+D3

DIETARY SUPPLEMENT

ZINC+C+D3 tablets contain optimal daily doses of zinc, vitamin C and vitamin D3, the nutrients that help preserve the immunity and the overall health of the organism.

ZINC+C+D3 use is recommended for:

- Normal functioning of the immune system
- Protecting cells from oxidative stress
- Normal muscle functioning
- Reducing exhaustion and fatigue
- Normal psychological functions and maintaining cognitive functions
- Producing collagen
- Maintaining healthy bones, skin, gums and teeth

Supplemental Facts:

Active Ingredient	1 tablet	RDI*
<b>Zinc</b> (zinc-oxide)	15 mg	150%
<b>Vitamin C</b> (L-ascorbic acid)	80 mg	100%
<b>Vitamin D3</b> (cholecalciferol)	10 µg	200%

\*RDI - Reference Daily Intake

Suggested Use:  
Recommended daily dosage  
is 1 tablet per day, with meals.  
One Pack: 50 tablets

# SELEN-SE

## DIETARY SUPPLEMENT

Selen-Se is a dietary supplement formulated on the basis of optimal daily doses of selenium and vitamins A, C, D and E.

Selen-Se tablets are recommended for:

- Protecting the organism from oxidative stress
- Strengthening immunity
- Proper functioning of the thyroid gland
- Exhaustion and fatigue
- Inflammation processes
- To maintain healthy skin, mucous membrane, hair, nails and vision.
- For situations of high stress, toxicity and other harmful agents exposure (heavy metals, UV and ionizing radiation, smog, tobacco, high alcohol intake)

### Supplemental Facts:

Active Ingredient	1 tablet	RDI*
<b>Selenium</b> (L-selenomethionine)	100 µg	182%
<b>Vitamin C</b> (L-ascorbic acid)	80 mg	100%
<b>Vitamin E</b> (DL-α-tocopheryl acetate)	8,04 mg αTE****	67%
<b>Vitamin A</b> (retinyl palmitate)	800 µg RE****	100%
<b>Vitamin D3</b> (cholecalciferol)	10 µg	200%

Suggested Use:  
Recommended daily dose  
is 1 tablet per day.  
One Pack: 50 tablets

\*RDI - Reference Daily Intake

# DEVITAL 2000

FOOD FOR SPECIAL  
MEDICAL PURPOSES

Devital 2000 contains 2000 IU of vitamin D3 in one tablet. It is intended as a nutritional supplement when the immune system is compromised and in the cases of osteoporosis, myelopathy, muscle hypotonia, autoimmune diseases of the thyroid gland, as well as for persons who are not sufficiently exposed to sunlight.

Devital 2000 tablets are recommended for:

- Compromised immune systems
- Osteoporosis
- Myelopathy
- Muscle hypotonia
- Autoimmune diseases
- People with insufficient sunlight exposure

Supplemental Facts:

Active Ingredient	1 tablet	RDI*
Vitamin D (cholecalciferol)	50 µg	1000%

\*RDI - Reference Daily Intake

Suggested Use:  
Recommended daily dosage is  
1 tablet per day, with meals.  
One Pack: 50 tablets

# MAGBET

DIETARY SUPPLEMENT

Improves function of muscles, heart, nervous and immune system

Magbet capsules contain magnesium and B complex vitamins, which combined have a wide range of biological functions and are involved in numerous metabolic reactions.

Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Magnesium	375 mg	100%
Vitamin B3 (nikotinamid)	18 mg	112,5%
Vitamin B5 (pantothenic acid)	5 mg	83%
Vitamin B2 (riboflavin)	3,4 mg	243%
Vitamin B1 (thiamin-hydrochloride)	3 mg	273%
Vitamin B6 (pyridoxin-hydrochloride)	2 mg	123%
Vitamin B9 (folic acid)	400 µg	200%
Vitamin B7 (biotin)	300 µg	600%
Vitamin B12 (cyanocobalamin)	10 µg	400%

\*RDI - Reference Daily Intake

It's recommended to use Magbet capsules to contribute:

- To normal function of the muscles and heart
- The proper function of the nervous system
- Preserving psychological functions and mental performance
- Reducing fatigue and exhaustion
- The proper function of the immune system and the protection of cells from oxidative stress
- Normal iron metabolism
- Maintaining energy metabolism and electrolyte balance
- The synthesis of cysteine and the metabolism of homocysteine, proteins and glycogen
- Regulation of hormonal activity, normal synthesis and metabolism of steroid hormones, vitamin D and certain neurotransmitters

Suggested Use:  
1 capsule a day.  
One Pack: 40 capsules

# MULTI B COMPLEX

DIETARY SUPPLEMENT

Support to the nervous system, metabolism, skin, hair and nails

**Multi B Complex** tablets contain an optimal ratio of B complex vitamins (B1, B2, B3, B5, B6, B7, B9 and B12). These hydro-soluble vitamins participate in the protein, fats and carbohydrates metabolisms and energy production, which is necessary for the normal function of each cell in the body. It's recommended to use Multi B Complex tablets as an additional source of B complex vitamins.

## Supplemental Facts:

Active Ingredient	1 tablet	RDI*
<b>Vitamin B3</b> (nikotinamid)	25 mg	156%
<b>Vitamin B5</b> (calcium-D-pantothenate)	5 mg	83%
<b>Vitamin B2</b> (riboflavin)	3,4 mg	243%
<b>Vitamin B1</b> (thiamin-hydrochloride)	3 mg	273%
<b>Vitamin B6</b> (pyridoxin-hydrochloride)	2 mg	143%
<b>Vitamin B9</b> (pteroyl-monoglutamic acid)	400 µg	200%
<b>Vitamin B7</b> (D-biotin)	300 µg	600%
<b>Vitamin B12</b> (cyanocobalamin)	10 µg	400%

\*RDI - Reference Daily Intake

## B complex vitamins are needed:

- For proper growth and development
- For better metabolism
- In anemia caused by lack of vitamins B12 and/or B9
- For older people
- For the proper function of the nervous system
- In stress, psycho-physical effort or chronic fatigue
- For vegetarians
- To improve appetite
- Smokers and people who consume alcohol
- For the health of the skin, hair and nails
- For immunity strengthening

## Suggested Use:

1 tablet a day in the morning.  
One Pack: 50 tablets

# VIT C

DIETARY SUPPLEMENT

Improves health of the immune system

Vit C is recommended for:

- Proper immune system functioning and protecting the organism from oxidative stress
- Faster recovery during and after illness (infection)
- People who don't have a balanced diet, who consume a lot of fast food or thermally processed foods
- Smokers (in order to neutralize harmful effects of the free radicals that are produced when consuming cigarettes)
- People who are exposed to psychological or physical exertion and stress
- Anemia (vitamin C helps with iron absorption and its integration into hemoglobin)
- Athletes and recreationists (in order to alleviate tiredness and exhaustion during and/or after training)
- People experiencing bone and joint pains (vitamin C contributes to the natural synthesis of collagen)
- Scurvy
- Illness, irritations or gum bleeding

Supplemental Facts:

Active Ingredient	1 tablet	RDI*
Vitamin C	500 mg	625%

Suggested Use:  
1 - 2 tablets a day after meal.  
One Pack: 10/70 tablets.

\*RDI - Reference Daily Intake

# MAGBET DIRECT

## DIETARY SUPPLEMENT

Magbet Direct contains the ideal dose of magnesium and vitamin B complex (B1, B2, B3, B5, B6, B7, B9 and B12) inside a single packet. Direct, simple use, pleasant lemon flavor. Contains no sugar, artificial sweeteners or coloring.

### Supplemental Facts:

Active Ingredient	1 sachet	RDI*
Magnesium (magnesium-oxide)	350 mg	93,33%
Vitamin B3 (nikotinamid)	18 mg <sup>NE**</sup>	113%
Vitamin B5 (calcium-D-pantothenate)	5 mg	83%
Vitamin B2 (riboflavin)	3,4 mg	243%
Vitamin B1 (thiamine-hydrochloride)	3 mg	273%
Vitamin B6 (pyridoxin-hydrochloride)	2 mg	143%
Vitamin B9 (folic acid)	400 µg	200%
Vitamin B7 (D-biotin)	300 µg	600%
Vitamin B12 (cyanocobalamin)	10 µg	400%

Magbet Direct is recommended for:

- Maintaining the normal function of the nervous system, heart, muscles and immune system.
- Stress, tension, anxiety, nervousness and insomnia
- Athletes and recreationalists (in order to maintain normal muscle function and normal energy metabolism, preventing muscle cramps, reducing exhaustion and weariness)
- Pregnant women (in order to prevent muscle cramps and reduce the possibility of premature contractions)
- Persons exposed to psychological and physical exertion
- Headaches

### Suggested Use:

Recommended daily dose is 1 sachet per day.

The content of the sachet should be directly dissolved in the mouth. Package: 20 sachets

\*RDI - Reference Daily Intake

\*\*NE - Niacin Equivalents

# MULTI B COMPLEX DIRECT

DIETARY SUPPLEMENT

Multi B complex Direct is an added source of vitamin B complex (B1, B2, B3, B5, B6, B7, B9 and B12) in nutrition. B complex vitamins are necessary for the proper functioning of the entire organism. Direct, simple application, pleasant orange flavor. Does not contain sugar, artificial sweeteners and coloring.

## Supplemental Facts:

Active Ingredient	1 sachet	RDI*
Vitamin B3 (nikotinamid)	18 mg NE**	113%
Vitamin B5 (calcium-D-pantothenate)	5 mg	83%
Vitamin B2 (riboflavin)	3,4 mg	243%
Vitamin B1 (thiamine-hydrochloride)	3 mg	273%
Vitamin B6 (pyridoxin-hydrochloride)	2 mg	143%
Vitamin B9 (folic acid)	400 µg	200%
Vitamin B7 (D-biotin)	300 µg	600%
Vitamin B12 (cyanocobalamin)	10 µg	400%

\*RDI - Reference Daily Intake

\*\*NE - Niacin Equivalents

Multi B complex Direct is recommended for:

- The purpose of preserving the normal functioning of the nervous system, the immune system and psychological functions
- Elderly persons (due to reduced vitamin B absorption from nutrients)
- School aged children (for proper development during intensive growth periods)
- Vegans and vegetarians
- Persons who are exposed to psychological or physical exertion (to reduce stress, tension, help with fatigue and exhaustion)
- Anemia which is caused by a deficiency in vitamins B9 and/or B12
- Skin, hair and nails care

## Suggested Use:

Recommended daily dose is 1 sachet per day. The content of the sachet should be directly dissolved in the mouth. Package: 20 sachets

# ZINC+C+D3 DIRECT

DIETARY SUPPLEMENT

Zink+C+D3 Direct contains the optimal daily dose of the 3 nutrients that are the most important for immunity in one package (zinc, vitamin C, vitamin D). Synergistically these three active principles contribute to strengthening your immunity and your organism's defensive abilities. Direct, simple use, pleasant orange flavor. Contains no sugar, artificial sweeteners or food coloring.

Zink+C+D3 Direct is recommended for the purposes of:

- Normalizing the immune system function
- Speedier recovery during and after illness
- Prevention and health maintaining in people who are prone to frequent infections
- Protecting cells from oxidative stress
- Normalizing muscle function
- Reducing exhaustion and weariness
- Normal psychological functions and maintaining cognitive functions

Supplemental Facts:

Active Ingredient	1 sachet	RDI*
<b>Zinc</b> (zinc-gluconate)	15 mg	150%
<b>Vitamin C</b> (L-ascorbic acid and sodium-ascorbate)	500 mg	625%
<b>Vitamin D</b> (cholecalciferol)	10 µg/400IU	200%

Suggested Use:

Recommended daily dosage is 1 sachet per day.

The content of the sachet should be directly dissolved in the mouth.

One Pack: 20 sachets

# VITAMIN C DIRECT

DIETARY SUPPLEMENT

Vitamin C Direct is formulated to contain 500 mg of vitamin C (sodium-ascorbate and L-ascorbic acid) with the addition of black elderberry fruit extract. Black elderberry as a natural source of flavonoids and vitamin C, contributes to the normal function of the immune system and enhances your organism's defensive capabilities. It helps with viral infections (preventively reduces the possibility of developing and spreading viral infection, and therapeutically strengthens the immune system for the purpose of faster recovery or after the infection). Direct, simple use, pleasant cherry flavor. Contains no sugar, artificial sweeteners or coloring.

## Supplemental Facts:

Active Ingredient	1 sachet	RDI*
Vitamin C (L-ascorbic acid and sodium-ascorbate)	500 mg	625%
Dried extract of black elderberry fruit (Sambucus nigra) 4:1	200 mg	/

\*RDI - Reference Daily Intake

### Suggested Use:

Recommended daily dose is 1 sachet per day. The content of the sachet should be directly dissolved in the mouth. One pack: 20 sachets

Vitamin C Direct is recommended for:

- Proper immune system functioning and protecting the organism from oxidative stress
- Faster recovery during and after illness (infection)
- Smokers (in order to neutralize harmful effects of the free radicals that are produced when consuming cigarettes)
- People who are exposed to psychological or physical exertion and stress
- Anemia (vitamin C helps with iron absorption and its integration into hemoglobin)
- Scurvy
- Illness, irritations or gum bleeding

# DEVITAL 2000 DIRECT

FOOD FOR SPECIAL  
MEDICAL PURPOSES

Devital Direct 2000 is formulated based on vitamin D3, quercetin, selenium and acerola fruit extract as a natural source of vitamin C. Vitamin D is a liposoluble vitamin that contributes to the normal absorption (usage) of calcium and phosphorus and normal calcium levels in the blood. It is necessary for the proper mineralization of the bones and teeth and proper functioning of the immune system and muscles. Quercetin is a bioflavonoid which can exhibit anti-oxidative, anti-inflammatory, immunomodulator, antiviral and anti-allergenic effects. Selenium is an essential microelement that contributes to the proper functioning of the immune system, and participates in protecting the cells from oxidative damage as well as regulating thyroid hormone metabolism (thyroid gland hormones). Acerola is one of the richest sources of Vitamin C in nature.

## Supplemental Facts:

Active Ingredient	1 sachet	RDI*
Vitamin D3 (cholecalciferol)	50 µg/2000 IU	1000%
Quercetin	70 mg	/
Selenium (Na-selenite)	100 µg	182%
Dried acerola fruit extract ( <i>Malpighia glabra</i> ) standardized to 25% vitamin C	320 mg	100%
of which vitamin C amounts to	80 mg	

\*RDI - Reference Daily Intake

Devital Direct 2000 is  
recommended for:

- People with compromised immune systems
- Osteoporosis
- Myelopathy
- Thyroid gland autoimmune diseases
- Allergies
- People with insufficient exposure to sunlight

## Suggested Use:

Recommended daily dose is  
1-2 sachets per day.  
Dissolve the contents of the  
packet directly in the mouth.  
One Pack: 30 sachets

# FERROFOL

DIETARY SUPPLEMENT

**Ferrofol** contains chelated iron (iron bisglycinate) which enables maximum absorption with excellent gastrointestinal tolerance. Intended for women of reproductive age, women who are planning a pregnancy, pregnant women, athletes, blood donors, people who do not get enough iron in their diet.

#### Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Dry acerola fruit extract Vitamin C	200 mg 50 mg	62,5%
Iron (II)-bisglycinate	20 mg	143%
Vitamin B6 (on form of pyridoxine hydrochloride)	2,8 mg	200%
Folic acid (as pteroylmonoglutamic acid)	400 µg	200%
Vitamin B12 (cyanocobalamin)	5 µg	200%

#### Suggested Use:

Adults, pregnant women, nursing mothers and children older than 12 years: 1 capsule daily, regardless of meals. Treatment lasts 3-5 months until normalization of hemoglobin is achieved.

One Pack: 30 capsules

\*RDI - Reference Daily Intake

# COENZYME Q10

DIETARY SUPPLEMENT

For overall body vitality.

Coenzyme Q10 is a substance naturally found in cells and tissues of the human body and it's necessary for their proper functioning. It affects the metabolic processes and has an antioxidant role.

Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Coenzyme Q10	30 mg	/

\*RDI - Reference Daily Intake

\*RDI not established

Suggested Use:

One capsule per day with a meal.

One Pack: 30 soft gelatin capsules

# OMEGA MAX KIDS

DIETARY SUPPLEMENT

Liquid diet supplement based on fish oil, rich with omega-3 fatty acids

Omega Max Kids contains DHA which helps maintain the normal function of the brain and healthy vision. These beneficial effects are achieved with the daily dose intake of 250 mg of DHA.

EPA and DHA contribute to normal heart functioning. The beneficial effects are observed with the daily dose intake of 250 mg of EPA and DHA.

Supplemental Facts:

Active Ingredient	1 ml	1,5 ml	2,5 ml	5 ml	RDI*
Eicosapentaenoic acid (EPA)	147 mg	221 mg	368 mg	736 mg	/
Docosahexaenoic acid (DHA)	97 mg	145 mg	241 mg	483 mg	/

\*RDI - Reference Daily Intake

\*RDI not established

Suggested Use:

**Infants aged 6mo - 1yo** - 1ml of oil per day (infants younger than 6 mo only per doctor's recommendation)  
**Ages 1-3** - 1,5 ml of oil per day  
**Ages 4-18** - 2,5 ml of oil per day  
**Ages 18 and up** - 5 ml of oil per day  
 One Pack: 100 ml

# OMEGA VITE

## DIETARY SUPPLEMENT

Contributes to the maintenance of the functions of the cardiovascular, nervous and immune system

**Omega Vite** contain omega-3 fatty acids (EPA and DHA), zinc and vitamin E. EPA and DHA contribute to normal heart function. The beneficial effect is achieved by ingesting 250 mg of EPA and DHA. They lower the level of bad cholesterol (LDL), triglycerides, while increasing the level of good cholesterol (HDL). They have a beneficial effect on maintaining the health of the cardiovascular system. They have a cardioprotective effect on healthy people, as well as on people who are at high risk or already have cardiovascular diseases. Omega-3 fatty acids are necessary for the structure of cell membranes and the development of the nervous system (especially DHA, which is the main fatty acid in the gray matter of the brain.)

### Supplemental Facts:

Active Ingredient	1 capsule	2 capsules	RDI*
Fish oil standardized to 30% omega-3 fatty acids	1000 mg	2000 mg	/
-Eicosapentaenoic acid (EPA)	180 mg	360 mg	
-Docosahexaenoic acid (DHA)	120 mg	240 mg	
Vitamin E	5,4 mg	10,8 mg	90
Zinc	5 mg	10 mg	100

**Suggested Use:**  
It is recommended to take 1-2 capsules daily with a meal.  
One Pack: 60 soft gelatin capsules

\*RDI - Reference Daily Intake

# CILANTRO-X

DIETARY SUPPLEMENT

For full body detox

Cilantro-x tablets contain coriander herb extract. This plant, apart from being used for a long time, is also used in traditional medicine in the treatment of digestive and urinary system diseases, as a natural anthelmintic (for intestinal infections caused by parasites), in insomnia and as an aphrodisiac. It's believed that the coriander eliminates heavy metals from the body.

It's recommended to use Cilantro-x tablets:

- For detoxification
- As a help with urinary infections
- For a better digestive function
- As a help for intestinal infections
- As aphrodisiac
- For insomnia

Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Dry extract of herb coriander (Herba Coriandri Sativi) 10:1	50 mg	/

\*RDI - Reference Daily Intake

\*RDI not established

Suggested Use:  
1 tablet a day.  
One Pack: 50 tablets

# ASTAMAX

DIETARY SUPPLEMENT

AstaMax soft gelatin capsules contain natural antioxidant - astaxanthin, which exhibits cardioprotective, neuroprotective, antidiabetic, anticancer, antiasthmatic, oculo-protective, nephroprotective, gastro-pressive and immunoprotective action, and thus contributes to the health preservation of the entire organism.

AstaMax soft gelatin capsules contribute to the normal maintenance of numerous tissues and organs.

It's recommended for:

- Maintenance of normal blood pressure and blood cholesterol levels
- Preserving mental performance
- Better functions of the joints
- The proper functioning of the immune system
- Care and protection of the skin
- Eyesight protection
- Increased endurance
- Positive action in the treatment of male sterility

Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Soybean oil (Glycine max)	296 mg	/
Astaxanthin (Astaxanthin oil, 5% astaxanthin)	4 mg	/

Suggested Use:

One soft gelatin capsule with a fat-filling meal. It's recommended to take it continuously for 4 to 6 weeks to allow maximum bioavailability of astaxanthin.  
One Pack: 30/60 soft gelatin capsules

\*RDI - Reference Daily Intake

\*RDI not established

# IMUNO COMPLEX MAX

DIETARY SUPPLEMENT

Imuno Complex Max is based on zinc, selenium, copper, vitamin C and beta-glucan. vitamin C, copper and selenium contribute to the normal functioning of the immune system and protect cells from oxidative stress.

## Supplemental Facts:

Active Ingredient	1 sachet	RDI*
Dried extract of acerola fruit ( <i>Malpighia glabra</i> ) standardized to 25% of vitamin C -of which Vitamin C amounts to	1200 mg	375%
	300 mg	
Dried extract of oyster mushrooms ( <i>Pleurotus ostreatus</i> ) standardized to 35% beta-glucan	300 mg	/
-of which beta-glucan amounts to	105 mg	
Zinc (as zinc-gluconate)	10 mg	100%
Copper (as copper (II)-gluconate)	1 mg	100%
Selenium (as L-selenomethionine)	55 µg	100%

\*RDI - Reference Daily Intake

Suggested Use:  
1 sachet per day.

One Pack: 20 sachets

Imuno Complex Max sachets are recommended for:

- Long-term exposure to environmental pollutants
- Long-term exposure to work environment pollutants
- Acute respiratory infections
- Long-term stay indoors with multiple people during acute respiratory infection seasons
- Acute infections of other body localizations
- Chronic infections
- Chronic fatigue
- Diets based on highly processed foods (lacking in vitamin C, zinc, copper, selenium and diet fibers)

# ANGINAL MAX JUNIOR

DIETARY SUPPLEMENT

Spray for maintaining the health of the oral mucosa and throat

**Anginal Max Junior** is a spray formulated on the basis of standardized propolis extract, essential oils of clary sage and thyme, and concentrated acerola juice as a natural source of vitamin C, intended to preserve the health of the oral mucosa and throat.

It is recommended to use Anginal Max Junior spray to help with:

- Dry and irritating cough
- Hoarseness and scratching in the throat
- Inflamed oral mucosa and throat
- Irritated and damaged gums
- Aphthae

## Supplemental Facts:

Active Ingredient	1 dose (2 sprays, 0,28 g)	RDI*
Propolis extract (standardized to 12% of total polyphenols expressed as galangin content)	0,017 g	/
Essential oil of clary sage ( <i>Salvia sclarea</i> )	0,0002 g	/
Thyme essential oil ( <i>Thymus vulgaris</i> )	0,0002 g	/
Concentrated juice of acerola ( <i>Malpighia glabra</i> )	0,056 g	/

\*RDI - Reference Daily Intake

\*RDI not established

## Suggested Use:

Children aged 3 to 12: 4 times a day.  
The product can also be used by adults who don't use throat sprays that contain alcohol. They are recommended to use the spray 6-8 times a day.

One Pack: 20 ml

# ANGINAL MAX SENIOR

DIETARY SUPPLEMENT

Spray to preserve the health of the oral mucosa and throat

**Anginal Max Senior** is a spray formulated on the basis of extracts of echinacea root, sage leaves and talus of Iceland moss, intended to preserve the health of the oral mucosa and throat.

It is recommended to use Anginal Max Senior spray to help with:

- Dry and irritating cough
- Hoarseness and scratching in the throat
- Inflamed oral mucosa and throat
- Bad breath

Supplemental Facts:

Active Ingredient	1 dose (2 sprays, 0,26 g)	RDI*
Aqueous-ethanolic extract of Echinacea root (Echinacea purpurea) 8:1	0,026 g	/
Aqueous-ethanolic extract of sage leaf (Salvia officinalis) 5:1	0,012 g	/
Aqueous-ethanol extract of Iceland moss (Cetratia islandica) 8:1	0,01 g	/

\*RDI - Reference Daily Intake

\*RDI not established

Suggested Use:

Adults and children older than 12 years:  
4 applications per day, directly on the mucous membrane of the oral cavity.

One pack: 30 ml

# MAXOMUCIL 600

DIETARY SUPPLEMENT

Dilutes secretion and enables easier expectoration

MaxoMucil 600 is formulated on the basis of N-acetylcysteine (NAC), propolis, echinacea and vitamin C. N-acetylcysteine is a strong mucolytic, which dilutes the thick, viscous secretion and allows it to escape more easily, thus establishing normal air flow through the airways and facilitating breathing. N-acetylcysteine has antioxidant activity. Propolis contributes to the normal function of the immune system and acts as a natural antifungal that protects the mucous membranes of the pathways from the development of bacterial, viral and fungal infections. Echinacea and vitamin C contribute to the normal function of the immune system.

Supplemental Facts:

Active Ingredient	1 sachet	RDI*
N-acetylcysteine	600 mg	/
Dry propolis extract standardized to a minimum of 10% flavonoids	30 mg	/
Vitamin C (in the form of L-ascorbic acid)	120 mg	150%
Dry echinacea root extract (Echinacea purpurea) 6:1	80 mg	/

\*RDI - Reference Daily Intake

**Suggested Use:**  
 Children from 6 to 12 years: 1-2 times a day, dissolve the contents of 1 sachet in half a glass of water, stir with a spoon and drink immediately.  
 Adults and children older than 12 years: 2-3 times a day, dissolve the contents of 1 bag in half a glass of water, stir with a spoon and drink immediately.  
 One Pack: 20 sachets

# GS FLEX

## DIETARY SUPPLEMENT

GS Flex is formulated based on glucosamine sulfate, chondroitin sulfate, serapeptase, and vitamins C and D. It is intended for preserving the structure and normal functioning of the joints. The most efficient known chondroprotectors are glucosamine sulfate and chondroitin sulfate. By working together, they reduce the symptoms of arthritis, improve joint mobility and contribute to preserving joint and bone health.

### Supplemental Facts:

Active Ingredient	2 capsules	RDI*
Glucosamine-sulfate	1500 mg	
Chondroitin-sulfate	500 mg	/
Serapeptase	60000 IU	/
Vitamin D3 (cholecalciferol)	10µg/400 IU	200%
Vitamin C (L-ascorbic acid)	40 mg	50%

\*RDI - Reference Daily Intake

GS Flex capsules are recommended for:

- Osteoarthritis
- Rheumatoid arthritis
- Osteoporosis
- Sprains, sprains, twisting
- Bone fractures
- Sports injuries

Suggested Use:

Recommended daily dose is  
2 capsules per day.

One Pack: 60 capsules

# KOLAGENEZIN

DIETARY SUPPLEMENT

Helps with collagen formation necessary for the normal function of bones, cartilage and skin.

Kolagenezin capsules contain fish collagen, boswellia resin extract (lat Boswellia serrata), methylsulphonylmethane (MSM) and vitamin C.

Thanks to its composition, Kolagenezin capsules contribute to:

- Formation of collagen necessary for the normal function of the bones, cartilage, blood vessels, gums, skin and teeth
- Protect cells against oxidative stress
- Reducing fatigue and exhaustion
- The proper function of the immune system during and after intense physical exercise

## Supplemental Facts:

Active Ingredient	2 capsules	RDI*
Fish Collagen	1000 mg	/
Methylsulfonylmethane (MSM)	200 mg	/
Dried boswellia resin extract (lat Boswellia serrata) standardized to 30% boswellic acid	100 mg	/
Vitamin C	100 mg	125%

\*RDI - Reference Daily Intake

Suggested Use:  
Adults: 2 times a day,  
1 capsule before meals.  
One Pack: 60 capsules

# EDEMAX

## DIETARY SUPPLEMENT

EdeMax contains serrapeptase, a proteolytic enzyme with an activity of 120,000 SPU in one gastro-resistant capsule. Serrapeptases are extracellular enzymes that induce fibrinolytic, anti-inflammatory and antiedematous (prevent fluid retention) activity in a number of tissues. They are used for pain and inflammation, chronic inflammatory diseases, postoperative swelling and pain, fibrocystic breast diseases, sinusitis, etc. Serrapeptases work by reducing the viscosity of exudates and inhibiting the release of inflammatory mediators, which is a natural way for the body to fight inflammation without harmful effects. In order to increase bioavailability and achieve pharmacological effects at the site of action, serrapeptase with enteric-coated capsule protects against hydrolysis (gastric inactivation and proteolysis by intestinal proteases).

### Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Serrapeptasa	120.000 SPU	/

\*RDI - Reference Daily Intake

### Indications:

- Inflammatory processes accompanied by swelling and pain
- Rheumatoid arthritis and osteoarthritis
- Sprains, sprains, strains,
- Injuries, tendinitis, fractures
- Hematomas
- Sports injuries and traumas
- Carpal tunnel syndrome
- Antibiotic therapy

**Suggested Use:**  
1 capsule daily.  
One Pack: 10 capsules

The product is also available in a dose of 250.000 SPU.

# GS FLEX GEL

## GENERAL USE PRODUCT

Active Ingredients: Serapeptase, Comfrey root extract (30%), Methyl salicylate, Magnesium, Menthol, Camphor.

**Serapeptase** has anti-inflammatory, anti-edematous and analgesic effects. **Comfrey**, thanks to its active principles, contributes to the regeneration of cells and tissues by stimulating cell proliferation (allantoin) and has antioxidant and anti-inflammatory effects (ellagic acid and rosemary acid). **Methyl salicylate** leads to hyperemia, binds to receptors on sensory neurons in the skin, which further transmit a nerve signal that is registered in the brain as a burning sensation, which leads to increased secretion of endorphins that have an analgesic effect. **Magnesium** relaxes muscles, prevents their spasm, improves nerve conduction. **Menthol** provides a rapid cooling effect, accompanied by improved microcirculation (Ice phase in the PRICE protocol for repairing injuries). **Camphor** has a mild anesthetic effect, gives a cooling effect (by affecting thermoreceptors), which is accompanied by improved microcirculation.

### Indications:

- Inflammation, swelling and pain in the joints
- Impaired joint mobility
- Sprains, dislocations
- Sports injuries, trauma, contusions
- Stretching, inflammation and muscle spasm
- Tendinitis
- Fractures

### Suggested Use:

Apply the gel in a thin layer 2-3 times a day on the desired place and gently massage until the skin absorbs it. It can be combined with electrophoresis (when this method is indicated) or ultrasound therapy.  
One Pack: 75 ml

# OSTEO PREVENT FORTE

FOOD FOR SPECIAL  
MEDICAL PURPOSES

*Osteo Prevent Forte* is formulated on the basis of calcium citrate, vitamin D3 and vitamin K2. Calcium contributes to the proper mineralization of bones, slows down the development of osteoporosis and consequently reduces the possibility of falls and fractures, contributes to normal blood clotting and normal muscle function. Vitamin D3 contributes to the normal absorption (utilization) of calcium and phosphorus and normal levels of calcium in the blood (increases their absorption at the level of the digestive tract and reduces the loss of kidney level). Vitamin K2 helps the absorption and utilization of calcium (acts selectively, promotes bone calcification, while preventing calcification of blood vessels, kidneys and soft tissues (and thus prevents the development of atherosclerosis and other cardiovascular diseases), contributes to normal blood clotting.

## Supplemental Facts:

Active Ingredient	2 capsules	RDI*
Calcium (calcium citrate)	400 mg	50%
Vitamin D3	2000 IU/ 50 µg	1000%
Vitamin K2	90 µg	120%

\*RDI - Reference Daily Intake

## Indications:

- Osteoporosis
- Osteopenia
- In menopausal and postmenopausal women
- Bone fractures
- In people on long-term systemic corticosteroid therapy

## Suggested Use:

2 capsules daily.  
One Pack: 60 capsules

# JOYFLEX XL

## MEDICAL DEVICE

Active Ingredients: Sodium hyaluronate 1.6% (MW 1.8 million) (48 mg/3ml), methylsulfonylmethane 5% (150 mg/3 ml)

Indications: Osteoarthritis

Effects after the use of JOYFLEX XL intra-articular injection in osteoarthritis:

- Pain reduction
- Reduction of swelling
- Improving mobility
- Slowing down/stopping the progression of the disease

Purpose of Application:

- Reduce pain and improve joint mobility, consequently improving the patient's quality of life
- Protect the body from the harmful effects of NSAIDs (especially due to their chronic use)
- Postpone arthroplasty

Suggested Use: According to the doctor's recommendation, depending on the degree of degenerative changes.  
The minimum interval between 2 doses is one week.  
One Pack: 1 intra-articular injection of 3 ml

# ENZYNORM

## DIETARY SUPPLEMENT

Digestive enzymes obtained from plants or microbiological organisms, necessary for food digestion.

**Enzynorm** contains a mixture of digestive enzymes from plant and microbiological source that participate in digestion of proteins, fats and carbohydrates. Digestive enzymes are essential for decomposition of food ingredients, which begins in the mouth and generally end in the proximal part of the small intestine. Disorders of food digestion or intolerance to certain food ingredients, are manifested by symptoms such as bloating, feeling of weight, frequent gases, cramps, etc.

Enzynorm is recommended to people with problems in food digestion such as:

- Flatulence
- Stomach problems
- Constipation

Supplemental Facts:

Active Ingredient	1 capsule	2 capsules	RDI*
DigeZyme®			
α-Amylase 29035 DU/g			
Protease 7 110 PC/g	100 mg	200 mg	/
Lipase 245 FIP/g			
Cellulase 1 135 CU/g			
Lactase 7 110 PC/g			
Dry papaya fruit extract (Carica papaya) 4:1	100 mg	200 mg	/
Bromelain 2400 GDU/g	100 mg	200 mg	/

**Suggested Use:**  
2 times a day for 1 gastro-resistant capsule, during meal. Capsules should be swallowed without chewing.  
One Pack: 20 gastro-resistant capsules

\*RDI - Reference Daily Intake

# MAXOGAST

DIETARY SUPPLEMENT

Helps with stomach problems and difficult digestion.

**MaxoGast** is formulated on the basis of a mixture of extracts of 9 plants that work together to help with the symptoms of indigestion (bloating, gas, stomach cramps, feelings of fullness, nausea). The synergistic effect of mixtures of extracts of chamomile, wild candytuft, greater celandine, licorice, cumin, lemon balm, angelica, milk thistle and mint can contribute to:

- Regulation of intestinal peristalsis
- Normal function of abdominal muscles
- Relaxation of the abdominal nerves
- Reducing bloating and flatulence
- Calming inflammatory processes

**Suggested Use:**

20 drops three times daily before or during meals, with little fluid.  
Shake before use.  
One Pack: 50 ml

Supplemental Facts:

Active Ingredient	20 drops	RDI*
Aqueous-ethanol extract of chamomile flower ( <i>Matricaria recucita</i> ) (1:2-4)	104 mg	/
Aqueous-ethanol extract of whole wild candytuft ( <i>Iberis amara</i> ) (1:20)	78 mg	/
Aqueous-ethanol extract of greater celandine ( <i>Chelidonium majus</i> )(1:2.5-3.5)	52 mg	/
Aqueous-ethanol extract of licorice root ( <i>Glycyrrhiza glabra</i> ) (1:2.5-3.5)	52 mg	/
Aqueous-ethanol extract of cumin fruit ( <i>Carum carvi</i> ) (1:2.5-4)	52 mg	/
Aqueous-ethanolic extract of lemon balm leaves ( <i>Melissa officinalis</i> ) (1:2.5-3.5)	52 mg	/
Water-ethanol extract of garden angelica (wild celery) root ( <i>Angelica archangelica</i> )(1:2.5-3)	52 mg	/
Aqueous-ethanol extract of milk thistle ( <i>Silybum marianum</i> ) (1:2.5-3.5)	52 mg	/
Aqueous-ethanolic extract of mint leaf ( <i>Mentha piperita</i> ) (1:2.5-3.5)	26 mg	/

\*RDI - Reference Daily Intake

# REHIDRO MAX

FOOD FOR SPECIAL  
MEDICAL PURPOSES

Rehidro Max is a glucose-electrolyte powder with added probiotic *Saccharomyces boulardii* which is intended for preparing solutions for rehydrating children and adults and regenerating the intestinal microflora. Its recommended use includes light and medium to high degrees of dehydration accompanied by diarrhea and/or vomiting. Seeing how the most common causes of dehydration of acute diarrhea are viral and bacterial infections which harm the balance of the intestinal microflora and immunity, Rehidro Max is the ideal formula to supplement liquids and electrolytes and re-establish the balance of the intestinal microflora, while strengthening the immune system.

Rehidro Max powder is recommended for the following use:

- To re-supplement liquids and electrolytes
- To re-establish the balance in the intestinal microflora
- To reinforce immunity on the intestinal level

#### Supplemental Facts:

Active Ingredient	1 sachet (5,5g)
Glucose	2882,56 mg
Chlorides	425,51 mg
Sodium	275,88 mg
Citrates	258,70 mg
Potassium	160 mg
Saccharomyces boulardii	200 mg (4 x 10 <sup>9</sup> CFU)

#### Suggested Use:

Infants (2 mo and up), children, adults: dissolve the contents of a sachet in 200 ml bottled or boiled water that has been cooled to room temperature. Administer in small portions and in time intervals of 5-10 minutes (with teaspoons or sips from a bottle/cup). Prepared solution should be used up within 24 hours. Do not add sugar and/or sweeteners to the mixture. Depending on the level of dehydration it is recommended to use 1-2 sachets of the product per day. One Pack: 10 sachets

\*RDI - Reference Daily Intake

# HEPAGARD

DIETARY SUPPLEMENT

Contributes to the normal liver function

**Hepagard** capsules contain a combination of biologically active compounds, including the milk thistle extract and artichoke leaves that contribute to the maintenance of normal liver function. Milk thistle and its active ingredient silymarin are used in the treatment of liver damage, chronic inflammatory liver disease and cirrhosis of the liver. Clinical studies have shown that artichoke-based products have a beneficial effect on digestive problems such as dyspepsia, flatulence, nausea and other digestive disorders, as well as lower lipids in the blood in hypercholesterolemia.

Supplemental Facts:

Active Ingredient	1 capsule	2 capsules	RDI*
Dry extract of milk thistle (Silybum marianum L. Gaertn.)	162,5 mg	325 mg	
- silymarin	130 mg	260 mg	/
Dry extract of artichoke leaves (Cynara scolimus L.) 4-5:1	100 mg	200mg	/
Holin	80 mg	160 mg	/
Methionine	40 mg	80mg	/
Vitamin B6	1,4 mg	2,8 mg	150%
Vitamin C	60 mg	120 mg	200%

**Suggested Use:** During the first 8 weeks, it's necessary to take 2 capsules daily and then continue with one capsule a day. The capsule should be taken with a meal and a little liquid.  
One Pack: 30 capsules

\*RDI - Reference Daily Intake

# UNISELTZER

DIETARY SUPPLEMENT

Uniseltzer is gel based on sodium-alginates, calcium-carbonates, sodium-bicarbonates and dried extract of Indian fig fruit, olive leaf, mint leaf, licorice root, kiwi fruit and green tea leaf.

Uniseltzer is recommended for:

- Regulating acidity inside the stomach
- Preventing gastric reflux
- Maintaining a healthy digestive function

Suggested Use: 1 sachet after every one of two main meals, or 1 sachet at night before bed. Shake the sachet while lightly pressing on the sides, then open the sachet and consume the contents.

Package: 10 sachets

## Supplemental Facts:

Active Ingredient	1 sachet	RDI*
Sodium-alginate	500 mg	/
Calcium-carbonate of which Calcium amounts to	266,67 mg 106,4 mg	13,3%
Sodium-hydrogen carbonate	150 mg	/
Dried extract of Indian fig fruit ( <i>Opuntia-ficus-indica</i> ), 4:1	52 mg	/
Dried extract of olive leaf ( <i>Olea europea</i> ) standardized to 10% of oleuropein	38 mg	/
Dried licorice root extract ( <i>Glycyrrhiza glabra</i> ) standardized to 3% of glycyrrhizin acid	30 mg	/
Dried mint leaf extract ( <i>Mentha x piperita</i> ), 4:1	30 mg	/
Dried kiwi fruit extract ( <i>Actinidia chinensis</i> ), 10:1	20 mg	/
Dried green tea leaf extract ( <i>Camelia siensis</i> ) standardized to 40% of polyphenol	0,55 mg	/

\*RDI - Reference Daily Intake

# AKTIVNI UGALJ

DIETARY SUPPLEMENT

Medical activated carbon prepared from coconut shell charcoal

**Aktivni ugalj** capsules are based on medical activated carbon, obtained by carbonation of coconut shell so that each capsule contains 250 mg of this substance. It's recommended to use Aktivni ugalj capsules for digestive, flatulent or gastric problems and aerophagia (unconscious air swallowing during meals). Active charcoal contributes to the reduction of excessive bloating after meals.

## Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Active carbon	250 mg	/

\*RDI - Reference Daily Intake

\*RDI not established

## Suggested Use:

For digestive problems: take 2-3 capsules, if necessary, 3-4 times a day. If needed, the contents of the capsule can be mixed in a glass of water.  
 For post-meal overflow: take 1 g (4 capsules) 30 minutes before and 1 g (4 capsules) immediately after the meal.  
 Children under 3 years: 1 capsule a day in consultation with the doctor.  
 The contents of the capsule should be split into a glass of water.  
 One Pack: 20 capsules

# JABUKOVO SIRĆE + C

DIETARY SUPPLEMENT

For faster metabolism and blood lipids regulation

*Jabukovo sirće + c* capsules contain apple vinegar and vitamin C. Working principles originating from apple vinegar favorably influence the regulation of blood fat levels and accelerate metabolism, and the synergistic effect with vitamin C makes it easier to detoxify the organism.

It's recommended to use *Jabukovo sirće + c* capsules:

- If you are on a reduction diet
- To accelerate metabolism
- For regulation of lipid level in the blood
- For detoxification
- To reduce fatigue and exhaustion
- For normal functioning of the immune system

Supplemental Facts:

Active Ingredient	3 capsules	RDI*
Apple vinegar powder standardized to 8% malic acid	600 mg	/
Vitamin C	150mg	187,5%

\*RDI - Reference Daily Intake

\*RDI not established

Suggested Use:  
1 capsule 3 times a day,  
with a higher fluid intake.  
One Pack: 30 capsules

# HEMORRHIAL PLUS

MEDICAL DEVICE

**Active Ingredients:** Hyaluronic acid, Chlorhexidine, Dihydroquercetin, Peppermint essential oil, Menthol.

Synergistic action of active ingredients with a protective, emollient and calming effect on vulnerable anal and perianal surfaces.

**Indications:**

- Hemorrhoids
- Anal and perianal fissures
- Proctitis
- The need to facilitate and accelerate the healing of injuries or trauma resulting from the surgical treatment of hemorrhoids and anal ulcers
- Anal itching

**Suggested Use:**

Anal and perianal use: apply the gel to the anal or perianal region 2-3 times a day.  
Endorectal use: apply the gel 1-2 times a day with the help of an intrarectal cannula.  
One Pack: 30 ml

# MACROGOL MAX MACROGOL MAX JUNIOR

MEDICAL DEVICE

**Active Ingredient: Macrogol 4000**

Macrogol 4000 as an osmotic laxative increases the volume of stool, softens its consistency and facilitates emptying, without irritating the mucous membrane.

**Indications:**

- Constipation
- Primary constipation
- Constipation associated with irritable bowel syndrome
- Preparation for diagnostic procedures

**Suggested Use:** 1 micro-enema as needed or as recommended by a doctor.

**One Pack:** Macrogol Max: 4 micro-enemas of 9 g

Macrogol Max Junior: 4 micro-enemas of 6 g

# REFLU MAX

MEDICAL DEVICE

**Active Ingredient:** Sodium hyaluronate, Magnesium alginate, Simethicone  
**Sodium hyaluronate** hydrates and protects the mucous membrane of the GIT and supports the process of epithelialization and regeneration of damaged epithelium.  
**Magnesium alginate** creates an alginate raft and prevents the return of acid from the stomach to the esophagus, while coating the mucosa protecting it from gastric juices, helping to reduce their harmful effects and the feeling of tingling and irritation due to reflux episodes.

**Simethicone** has an antifatulent effect or reduces the surface tension of gases present in the stomach fluids stimulate their elimination.

#### Indications:

- Symptomatic therapy of GERD and dyspepsia, mitigation non-specific symptoms: regurgitation, belching, heartburn, discomfort, early satiety, bloating, abdominal pain, gas, burning sensation

**Suggested Use:** 1 sachet 2-3 times a day, preferably after meals, as needed.  
**One Pack:** 12 sachets of 15 ml

# COGNICOLIN

FOOD FOR SPECIAL  
MEDICAL PURPOSES

**Cognicolin** capsules are formulated on the basis of citicoline, a cranial nutrient which contributes to the preservation and improvement of the cognitive functions, especially executive functions which drop the most as aging progresses. It has a multi-targeting effect and is safe for continued use. It doesn't lead to addiction or sedation.

**Cognicolin** capsules are recommended for:

- Students, in order to improve memory, concentration and studying
- Adults who would like to improve their cognitive abilities and increase focus, attention, memory, the ability to form conclusions and make decisions
- Elderly persons with reduced cognitive functions
- Recoverants of ischemic stroke
- Conditions involving impaired cognitive functions which result in behavioral changes
- Glaucoma

Supplemental Facts:

Active Ingredient	2 capsules	RDI*
Citicoline	500 mg	/

\*RDI - Reference Daily Intake

\*RDI not established

Suggested Use:  
1 capsule, twice a day.  
One Pack: 20 capsules

# PEA MAX

DIETARY SUPPLEMENT

Pea Max is formulated on the basis of palmitoylethanolamide (PEA), alpha-lipoic acid in gastro-resistant form, superoxide dismutase, vitamins B12, B6 and B1. Palmitoylethanolamide (PEA) has anti-inflammatory and analgesic effects: Inhibits the release of proinflammatory molecules and indirectly activates the endocannabinoid system. Superoxide dismutase (SOD) and alpha-lipoic acid have antioxidant activity.

## Supplemental Facts:

Active Ingredient	1 capsule	RDI*	2 capsules	RDI*
Palmitoylethanolamide (PEA)	400 mg	/	800 mg	/
Alpha-lipoic acid	300 mg	/	600 mg	/
Superoxide dismutase (SOD)	70 IU (3, 5 mg)	/	140 IU (7 mg)	/
Vitamin B12	300 µg	12000%	600 µg	24000%
Vitamin B6	3 mg	214%	6 mg	428%
Vitamin B1	3 mg	273%	6 mg	545%

\*RDI - Reference Daily Intake

## Indications:

- Chronic pain caused by chronic inflammation and painful condition
- Central and peripheral neuropathic pain as a consequence of:
  - Neurodegenerative diseases (Parkinson's disease, Alzheimer's disease, Multiple sclerosis, Amyotrophic Lateral Sclerosis (ALS))
  - Stroke and CNS trauma
  - Neuralgia
  - Viral infections of the nervous system (Herpes Zoster, HIV)
- Chronic tumor pain
- Phantom pain

Suggested Use:  
1-2 capsules daily.  
One Pack: 30 capsules

# OZON MAX GEL

MEDICAL DEVICE

## Active Ingredients:

Ozolipoile (ozone stabilized in oleic acid with alpha-lipoic acid and vitamin E acetate), Glutamine, Arginine, Isoleucine, Leucine, Valine, Panthenol, Glycerin.

### Ozolipoile

a patented complex of ozone stabilized in oleic acid with alpha-lipoic acid and vitamin E, has antioxidant effects (reduces the possibility of ROS, stimulates the synthesis of endogenous antioxidants, protects the structure and function of nerve cells and improves nerve conduction) and as a stable source of oxygen helps in states of hypoxia.

### Glutamine

participates in protein synthesis and is a precursor of endogenous antioxidants.

### Arginine

participates in protein synthesis and has a vasodilating effect.

### Isoleucine, leucine, valine

participate in protein synthesis (needed to build and repair muscles, organs and other body structures).

### Panthenol and glycerin

hydrate the skin, enable better absorption of active principles and help epithelialization.

## Indications:

- Symptomatic therapy of neuropathies of inflammatory, dysmetabolic and infectious origin (relieves, tingling, itching and pain in the extremities).

## Suggested Use:

Apply the gel in a thin layer 2-3 times a day on the desired place and gently massage until the skin absorbs it. It can be combined with electrophoresis (when this method is indicated) or ultrasound therapy.

One Pack: 100 g

# PRO NERV FORTE

DIETARY SUPPLEMENT

**Pro Nerv Forte** contains standardized extracts of passionflower herb, valerian root, lemon balmleaf and hawthorn fruit, with the addition of magnesium. Valerian contributes to relaxation, maintaining mental balance in case of tension and stress, maintaining calm and reducing irritability. Passionflower contributes to normal nervous system function and normal psychological function. Lemongrass contributes to normal psychological function and maintaining mental and physical balance. Hawthorn contributes to normal function of the heart and cardiovascular system, and normal function of the digestive tract. Magnesium contributes to the normal function of the nervous system and reduces fatigue and exhaustion.

## Indications:

- Tension, agitation, irritability
- Nervousness, restlessness, fear, anxiety
- Stressful situations and inability to relax and rest mentally
- Help with weaning from frequent use of anxiolytics

## Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Valerian root extract (Valeriana officinalis) standardized to 0.8% valeric acid	125 mg	/
<i>valeric acid</i>	1 mg	
Extract of herb Passionflower (Passiflora incarnata) standardized to 3% flavonoids	180 mg	/
<i>flavonoids</i>	5,4 mg	
Lemongrass extract (Melissa officinalis) standardized to 5% flavonoids	25 mg	/
<i>flavonoids</i>	1,25 mg	
Hawthorn fruit extract (Crataegus pinnatifida) standardized to 3% flavonoids	25 mg	/
<i>flavonoids</i>	0,75 mg	
Magnesium	60 mg	16%

\*RDI - Reference Daily Intake

**Suggested Use:**  
1 capsule daily (as needed).  
One Pack: 30 capsules

# PRO NERV SLEEP

DIETARY SUPPLEMENT

**Pro Nerv Sleep** contains standardized extracts of passionflower herb, valerian root, lemon balm leaf and hawthorn fruit, magnesium and melatonin. Pro Nerv Sleep contributes to normal psychological function and contributes to shortening the time required for a person to fall asleep, helps a person to rest and has a peaceful sleep.

#### Indications:

- Insomnia
- Jet lag
- Stressful situations and inability to relax and rest mentally
- In people who work at night or in shifts

#### Suggested Use:

Insomnia and intermittent / restless sleep: 2 capsules 15-30 min before bedtime.  
 Jet lag syndrome: 2 capsules just before bedtime on the first day of travel and the next few days upon arrival at the destination.  
 One Pack: 30 capsules

#### Supplemental Facts:

Active Ingredient	2 capsules	RDI*
Valerian root extract (Valeriana officinalis) standardized to 0.8% valeric acid	125 mg	/
<i>valeric acid</i>	1 mg	
Extract of herb Passionflower (Passiflora incarnata) standardized to 3% flavonoids	200 mg	/
<i>flavonoids</i>	6 mg	
Lemongrass extract (Melissa officinalis) standardized to 5% flavonoids	40 mg	/
<i>flavonoids</i>	2 mg	
Hawthorn fruit extract (Crataegus pinnatifida) standardized to 3% flavonoids	40 mg	/
<i>flavonoids</i>	1,2 mg	
Magnesium	300 mg	80%
Melatonin	1 mg	/

\*RDI - Reference Daily Intake

# MIGRALIN

FOOD FOR SPECIAL  
MEDICAL PURPOSES

**Migralin** is formulated on the basis of standardized extracts of plant feverfew (*Tanacetum parthenium*-Feverfew) and black pepper (*Piper nigrum*), magnesium, coenzyme Q10 and vitamin B2. Feverfew - thanks to the content of parthenolide has an anti-inflammatory effect and affects the metabolism of serotonin. Magnesium contributes to the normal function of the nervous system and reduces fatigue and exhaustion. Vitamin B2 contributes to the protection of cells from oxidative stress, normal function of the nervous system, reduction of fatigue and malaise. Coenzyme Q10 helps to maintain normal cognitive function and maintain normal blood pressure. Piperine as an active principle of black pepper has anti-inflammatory action.

## Supplemental Facts:

Active Ingredient	2 capsules	RDI*
Magnesium	350 mg	93%
Feverfew leaf extract ( <i>Tanacetum parthenium</i> ) standardized to 0.5% parthenolide	52mg	/
<i>parthenolide</i>	0,26 mg	/
Vitamin B2	100 mg	7143%
Coenzyme Q10	100 mg	/
Black pepper extract ( <i>Piper nigrum</i> ) standardized to 95% piperine 10 mg	10 mg	/
<i>piperina</i>	9,5 mg	/

\*RDI - Reference Daily Intake

## Indications:

- Prophylactic treatment of migraine headaches
- Alleviation of migraine symptoms
- Help with headaches of other etiologies

## Suggested Use:

2 capsules daily for 3 months.  
After a break of a month,  
the cycle can be repeated.  
One Pack: 60 capsules

# B12 NEURO MAX

DIETARY SUPPLEMENT

Support to the nervous system  
1000 mg of vitamin B12 (methylcobalamin)

**B12 Neuro Max** sublingual tablets contain vitamin B12, folic acid and biotin. The synergetic effect of these active ingredients improves peripheral and cerebral circulation, while vitamin B12 helps to create red blood cells participating in the transmission of the nerve impulse.

It's recommended to use **B12 Neuro Max** sublingual tablets:

- For normal function of the nervous system
- In megaloblastic (macrocytic) anemia
- For the synthesis of genetic material (DNA and RNA) and amino acids
- For healthy growth and development
- For energy production (in case of chronic fatigue and exhaustion)

Supplemental Facts:

Active Ingredient	1 tablet	RDI*
Vitamin B12	1000 µg	40000 %
Folic Acid	170 µg	85%
Biotin	100 µg	200%

\*RDI - Reference Daily Intake

Suggested Use:  
1 sublingual tablet in the morning.

One Pack: 30 sublingual tablets

# VENO MAX

DIETARY SUPPLEMENT

Veno Max contains the optimal ratio of the bioflavonoids diosmin and hesperidin, with the addition of the plant polyphenol trans-resveratrol. Diosmin has a vasoprotective and venotonic effect. Hesperidin has a vasoprotective and venotonic effect. Trans-resveratrol, plant polyphenol and biologically active form resveratrol, has antioxidant and anti-inflammatory effects.

#### Indications:

- Chronic venous insufficiency (painful, tired and heavy legs, swelling, night cramps and morning leg fatigue)
- Varicose veins
- Acute hemorrhoidal syndrome

#### Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Diosmin	450 mg	/
Hesperidin	50 mg	/
Trans-resveratrol	100 mg	/

\*RDI - Reference Daily Intake

#### Suggested Use:

Chronic venous insufficiency:  
2 x 1 capsule daily, in the morning and in the evening, during meals.  
Acute hemorrhoidal syndrome:  
2 x 3 capsules daily, for the first four days and then 2 x 2 capsules daily for the next 3 days.  
One Pack: 30 capsules

# VENO MAX CREAM

GENERAL USE  
PRODUCT

## Active Ingredients:

Hippocastani Extract (Escin 20%), Dihydroquercetin, Aloe Vera Gel, Ethanol, Menthol, Chamomile Extract.

**Escin** has anti-inflammatory and vasoprotective effects.

**Dihydroquercetin** has antioxidant, anti-inflammatory and vasoprotective effects.

**Aloe vera Gel** contributes to hydration and epithelialization of the skin, and enables better absorption of active product principles.

**Chamomile** has an anti-inflammatory effect

## Indications:

- Chronic venous insufficiency
- Varicose veins
- Swelling, pain, cramps, paraesthesia
- Feeling of heavy and tired legs
- Telangiectasias

## Suggested Use:

2-3 times a day, apply a thin layer of cream in the desired place and gently massage (from the fingertips upwards).  
One Pack: 100 ml

# GINKO MAX

DIETARY SUPPLEMENT

For better circulation, memory and concentration

**Ginkgo Max** capsules contain ginkgo leaf extract that contributes to mental and cognitive activity and stimulates peripheral circulation.

It's recommended to use **Ginkgo Max** capsules as a help with:

- Reduced concentration
- Poor memory
- Dizziness and buzzing in the ears
- Poor circulation and leg pain
- Dementia
- Cerebral insufficiency

Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Dry ginkgo leaf extract (Ginkgo biloba) standardized to 24% of flavon and 6% of lactone	80 mg	/

\*RDI - Reference Daily Intake

Suggested Use:  
1 capsule a day,  
during meals and  
with plenty of fluids.  
One Pack: 30 capsules

# PREGNA MAX

## DIETARY SUPPLEMENT

**Pregna Max** contains gastro-resistant alpha-lipoic acid, magnesium, docosahexaenoic acid (DHA), zinc, copper and vitamin B6. Alpha-lipoic acid has antioxidant and anti-inflammatory effects, reduces contractions and prevents premature cervical relaxation, premature birth and miscarriage. Magnesium relaxes muscles, reduces cramps and the possibility of premature contractions, contributes to the normal function of the mother's nervous system and protects the baby's nervous system.

### Indications:

- Prevention of miscarriage and premature birth
- Prevention of uterine contractions and premature dilatation
- Feeling of cramps and hard stomach
- Pregnancies achieved after the age of 35
- Pregnancy achieved by in vitro fertilization of the cervix
- Pregnancy maintenance after tocolysis
- Present experience with miscarriage or premature birth earlier in life
- Established twin pregnancies
- Preservation of physiological pregnancy

### Supplemental Facts:

Active Ingredient	1 capsule	RDI*	2 capsules	RDI*
Alpha-lipoic acid	300 mg	/	600 mg	/
Magnesium	175 mg	47%	350 mg	93%
DHA	100 mg	/	200 mg	/
Zinc	3,25 mg	32,5%	6,5 mg	65%
Vitamin B6	1,3 mg	93%	2,6 mg	186%
Copper	0,325 mg	32,5%	0,65 mg	65%

\*RDI - Reference Daily Intake

**Suggested Use:**  
1 capsule a day,  
during meals and  
with plenty of fluids.  
One Pack: 30 capsules

# FEMMINEX

## DIETARY SUPPLEMENT

Femminex contains dry extract of curcuma rhizome, quercetin, DHA, N-acetylcysteine, vitamin E and selenium. Quercetin and turmeric contribute to the reduction of growth and expansion of endometrial tissue, have anti-inflammatory and antioxidant effects, relieving pain that occurs due to endometriosis or painful menstrual cycles. N-acetylcysteine has antiproliferative and antioxidant effects, reducing the size of growths and cysts. DHA inhibits prostaglandin synthesis and thus relieves pain.

### Indications:

- Adjuvant therapy for endometriosis
- Preventive in remission
- In order to alleviate the symptoms of dysmenorrhea

### Supplemental Facts:

Active Ingredient	1 capsule	RDI*	2 capsules	RDI*
Turmeric root extract (Curcuma longa) standardized to 95% curcumin	105 mg	/	210 mg	/
<i>curcumin</i>	99,75 mg	/	199,5 mg	/
Quercetin (Sophora japonica)	100 mg	/	200 mg	/
DHA	100 mg	/	200 mg	/
N-acetylcysteine	75 mg	/	150 mg	/
Vitamin E	4,02 mg αTE	33,5%	8,04 mg αTE	67%
Selenium	50 µg	91%	100 µg	182%

\*RDI - Reference Daily Intake

### Suggested Use:

Adjuvant therapy for endometriosis:  
2 capsules daily, with a meal, in cycles of 3 months (with a base of one month between cycles) in remission and in dysmenorrhea 1 capsule daily in cycles of 3 months (with a break of one month between cycles).  
One Pack: 60 capsules

# FERTIL MAX GEL

MEDICAL DEVICE

**Active Ingredients:** Sodium hyaluronate, Lactic acid, Inositol, Zinc gluconate, Magnesium citrate, Calcium pyruvate, Carnitine, Creatine, Sodium chloride.

Through synergistic action, the active ingredients enable:

- o Creation of an optimal environment for spermatozoa
- o Maintaining a pH value suitable for natural conception
- o Achieving an osmolarity that is compatible with the seminal fluid

**Indications:**

- Unexplained infertility
- Changes in cervical mucus (reduced production and/or changed pH value)
- Low survival rate of spermatozoa

**Suggested Use:**

Use the product in the ovulation phase, during the most fertile days of the cycle (13th, 14th, 15th day). Apply the gel 5 minutes before sexual intercourse.

One Pack: 6 single-dose applicators of 5 ml each

# PROBIOVAG

MEDICAL DEVICE

**Active Ingredients:** Lactobacillus acidophilus, Lactobacillus reuteri, Lactobacillus casei

A combination of inanimate, tyndalized Lactobacillus layers contributes to:

- o Stimulation of the natural immune response
- o Preventing adhesion of pathogens
- o Establishing and preserving the balance of the vaginal microflora (when its balance is disturbed due to infections, inflammation, pregnancy, childbirth, use of antibiotics, contraception, frequent use of tampons, improper intimate hygiene, lifestyle)

**Indications:**

- Violated balance of vaginal microflora
- Vaginitis
- Preventive with antibiotic or hormone therapy
- In order to preserve the health of the vaginal microflora (preventive or prophylactic)

**Suggested Use:**

Use Vagitories for 7-10 days continuously, starting from the last day of the menstrual cycle or according to the doctor's advice.

One Pack: 10 vagitories

# MENO FLAVON

DIETARY SUPPLEMENT

Alleviates the symptoms of menopause

Meno Flavon capsules contain extract of red clover (*Trifolium pratense*) standardized to 40% isoflavones, calcium, vitamin D3, vitamin K2, magnesium, standardized extract of valerian root (*Valeriana officinalis*) and St. John's wort flower extract (*Hypericum perforatum*). Red clover is a very rich source of isoflavones, which have physiological activity similar to estrogen and act protectively, alleviating all symptoms of menopause.

It's recommended to use Meno Flavon capsules in menopause, in order to alleviate the symptoms like:

- Hot flashes
- Fatigue and exhaustion
- Mood change
- Sleep disorders and poor sleep

as well as reducing the risk of:

- Osteoporosis
- Cardiovascular diseases

## Suggested Use:

1 capsule for the day in the morning and 1 capsule for the night in the evening.

One Pack:  
60 capsules (30 capsules for the day and 30 capsules for the night)

## Supplemental Facts:

Active Ingredient (capsule for day)	1 capsule	RDI*
Extract of red clover ( <i>Trifolium pratense</i> ) standardized to 40% isoflavones	100 mg	/
- isoflavones	40 mg	/
Calcium	200 mg	25%

# TETRAFOL

DIETARY SUPPLEMENT

For proper development and growth of the fetus

**Tetrafol** contains 600 Qg of 5-methyltetrahydrofolate in one tablet. 5-methyltetrahydrofolate is the active form of folic acid, that directly participates in genetic material (DNA and RNA) and amino acids synthesis. It's important for proper growth and development of the fetus, as well as for the formation of healthy red blood cells and cell division.

**Tetrafol** is recommended for:

- Women who plan pregnancy
- Pregnant woman
- Every woman in the reproductive period
- Anemia caused by folate deficiency

Supplemental Facts:

Active Ingredient	1 tablet	RDI*
5-methyltetrahydrofolate	600 µg	/

\*RDI - Reference Daily Intake

Suggested Use:  
1 tablet a day, in the morning.  
One Pack: 60 tablets

# PROSTASIN

DIETARY SUPPLEMENT

For a healthy prostate

**Prostasin** capsules contain hoary willow herb extracts and pumpkin seeds, plants that have proven efficacy in the treatment of benign prostatic hyperplasia and problems with urinary incontinence, with the addition of zinc and vitamin C, which are natural antioxidants and immunoprotectors.

Prostasin capsules are recommended:

- For the normal function and maintenance of prostate health
- In the treatment of benign prostatic hyperplasia
- In irritable bladder
- In order to contribute to normal fertility and reproduction
- To maintain a normal level of testosterone in the blood

Supplemental Facts:

Active Ingredient	1 capsule	RDI*
Pumpkin seed extract (Cucurbita moschata) 10:1	80 mg	/
Dry hoary willowherb extract (Epilobium parviflorum Schreber) 10:1	80 mg	/
Vitamin C	60 mg	75%
Zinc	7 mg	70%

Suggested Use:  
1 capsule a day before meals.  
One Pack: 30 capsules

\*RDI - Reference Daily Intake

# FERTIL MAX

DIETARY SUPPLEMENT

L-carnitine, N-acetylcysteine, zinc, selenium, copper, folic acid, vitamins C, B6 B12, coenzyme Q10, beta-carotene and lycopene synergistically contribute to spermatogenesis, increase concentration and improve motility and morphology of sperm, protect them from the harmful effects of free radical. Tribulus increases libido and potency, stimulates spermatogenesis and endogenous testosterone synthesis.

Active Ingredient	4 capsules	RDI*
L-carnitine	1,000 mg	/
N-acetylcysteine	600 mg	/
Vitamin B6	10 mg	714%
Vitamin B12	10µg	400%
Vitamin C	160 mg	200%
Folic acid	400µg	200%
Selenium	100µg	182%
Zinc	10 mg	100%
Coenzyme Q10	90 mg	/
β-carotene	7 mg	/
Lycopene	6 mg	/
Puncture vine extract (Tribulus terrestris)	400 mg	/
Copper	2 mg	200%

\*RDI - Reference Daily Intake

#### Indications:

- Infertility
- Poor spermiogram parameters
- Impotence and decreased libido

#### Suggested Use:

2x2 capsules daily, 3-6 months or until pregnancy occurs.  
One Pack: 120 capsules

# GOOD-BYE KILOGRAMI

DIETARY SUPPLEMENT

**Good-Bye Kilogrami** contains L-carnitine, bromelain, garcinia fruit extracts and green tea leaves, and chromium. A carefully selected combination of biologically active compounds with proper nutrition and regular physical activity can contribute to weight control in a healthy and natural way, without feelings of exhaustion, fatigue and exhaustion, and without the yo-yo effect.

## Supplemental Facts:

Active Ingredient	1 sachet	RDI*

Dry extract of the garcinia fruit (Garcinia cambogia) standardized on 60% hydroxylamine acid (HCA)	15 mg	75%
Of which hydroxylamine acid	90 mg	70%
Dry extract of green tea standardized on 40% polyphenols	100 mg	/
Of which polyphenols	40 mg	/
Chromium (chromium (III) -picolinate)	100 mg	250%

## Suggested Use:

Dissolve one sachet a day in 100-200 ml of water, chilled tea, or the juice of squeezed fruit and drink. It is recommended to apply the product 30 minutes before the main meal. For persons who play sports recreationally or professionally it is recommended to take the product 30 minutes before training. One Pack: 30 sachets

\*RDI - Reference Daily Intake

# GOOD-BYE CELLULIT GEL

GENERAL USE  
PRODUCT

## Active Ingredients:

Urea, Hedera Helix Extract, Green Coffee Bean Extract, Amygdalis Communis Oil, Argania Spinosa Oil, Menthol, Caffeine BP/USP anhydrous, Coenzyme Q10

**Good-bye cellulit gel** is formulated on the basis of caffeine, urea, argan and almond oil, ivy and coenzyme Q10. It is intended for the care of skin that has lost tone, elasticity, moisture and youthful appearance.

After applying Good-bye cellulit gel, the skin is smooth, elastic, hydrated and beautiful to the touch. The gel spreads easily, and thanks to the presence of menthol, it leaves a pleasant feeling of cooling. It does not contain perfumes or artificial colors. The color of the gel comes from the vegetable oils contained in the gel.

## Suggested Use:

1-2 times a day, apply the gel in a circular motion on the target parts of the skin.  
One Pack: 200 ml

# X-LAB

DIETARY SUPPLEMENT

Multivitamin complex for hair care. Vitamins, minerals and natural extracts complex contained in X-LAB capsules contributes to better blood thinning, feeds the hair follicles, making it stronger.

It's recommended to use X-LAB capsules:

- For faster hair growth
- In the prevention of hair loss
- In case of increased hair loss
- For the care and protection of hair from the harmful effects of external factors (hair colors, hair dryer, hair press, etc.)
