

MT900 KYBUN NEW WORK

Walking on the Walkolution MT900 Kybun treadmill feels like walking on soft moss. Equipped exclusively with the soft-elastic surface from Kybun Switzerland. The manual treadmill is compact, extra quiet, and gives you a little foot massage with every step.

The optional standing aid is ideal for the little break in between. Depending on the intended use, you can also order the treadmill with or without the front bar.

WITH / WITHOUT STANDING AID
WITH / WITHOUT FRON BAR

PRODUCT AWARDS

Modular Setup

Treadmill can be combined with an existing height adjustable desk and is available with and without the standing aid and the front bar.

Unparalleled silence

First and only silent treadmill on the world market. Can be used in quite working environments.

Functions without electricity

Patented motorless design. Gravity driven self-propelled operation enables intuitive use.

Advantages

Suitable for home offices, business and other work areas. Intuitively understood in minutes by any age group. Easy to reposition.

Handmade in Germany

Handmade in Walkolution's own high-tech factory in southern Germany. Exclusive usage of solid sustainable materials.

Maintenance free

Industrial grade steel components enable intense daily usage without maintenance. Scratch resistant coating.
