

ADVANCED SIMRACING

TRIPLE MONITOR STAND ASSEMBLY GUIDE

NOT A RENDER

*****WE NEED YOUR ATTENTION*****

BEFORE

AFTER

Please take note that we followed SimRacingGarages advice and changed our gussets for gusset with dents that helps the installation and stops the gusset from twisting under big pressure.

You will have to break some dents if you place the gussets upwards. In this case just brake them with a screw driver.

**We've added these (x2)
and removed 4 gussets**

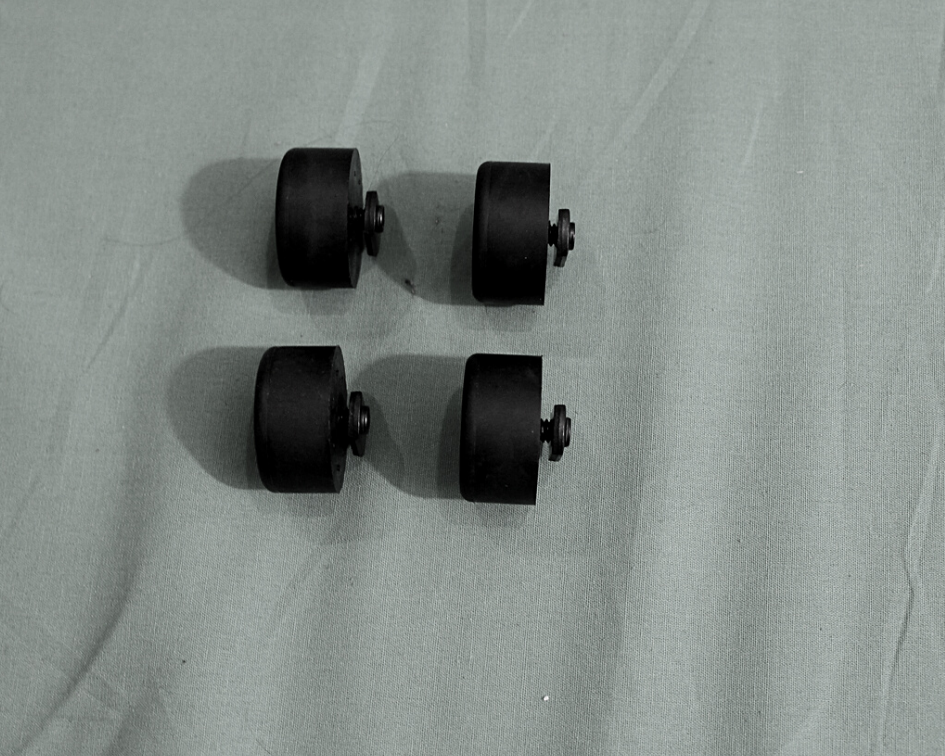

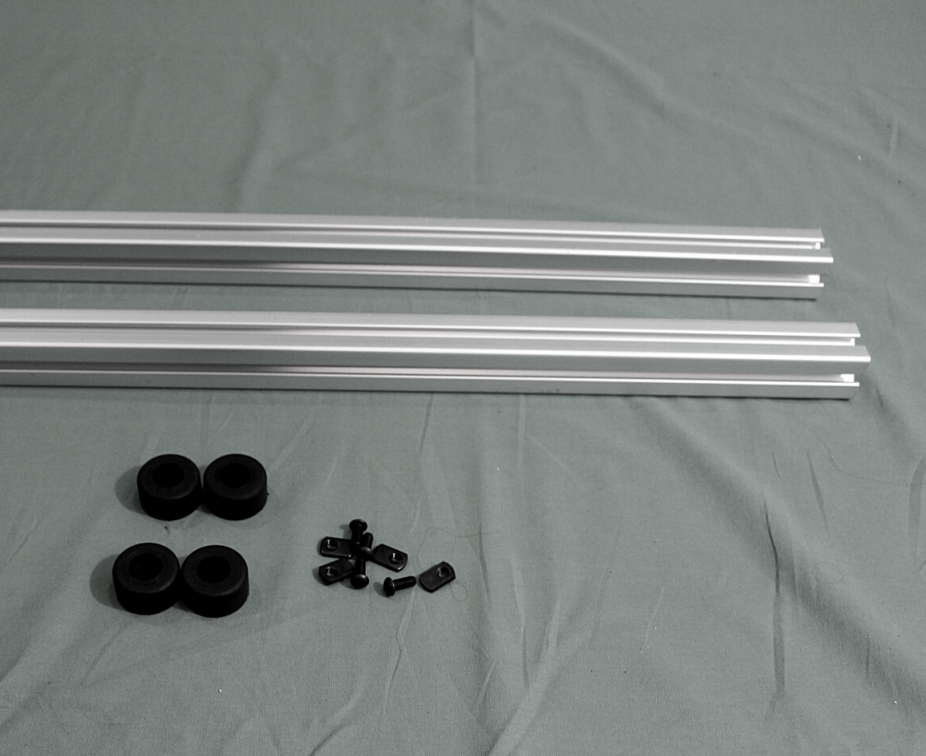

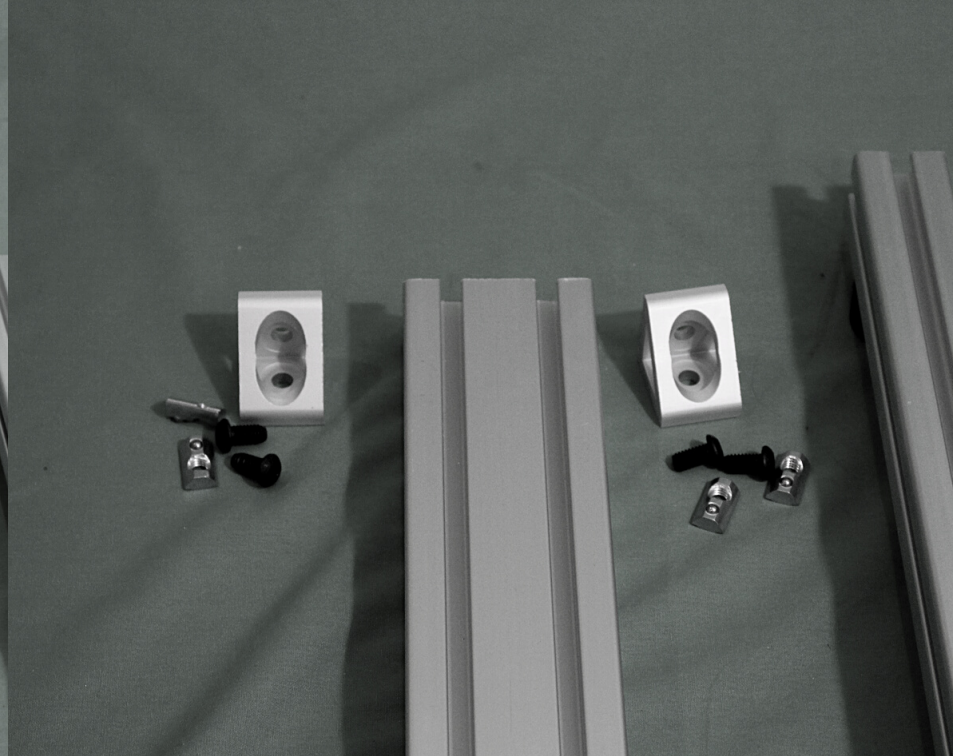

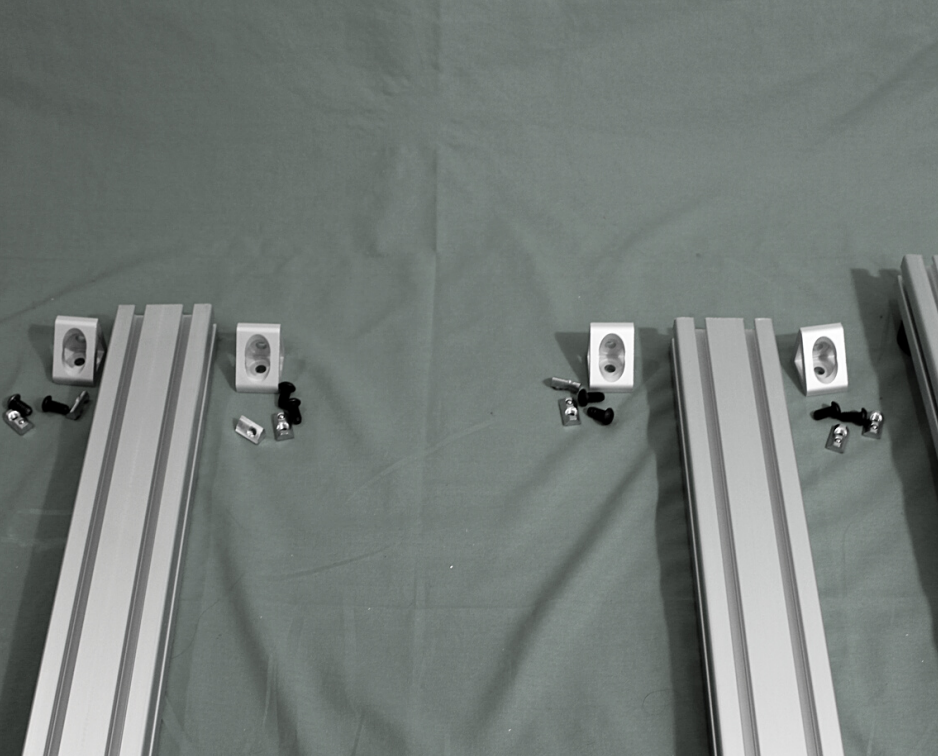

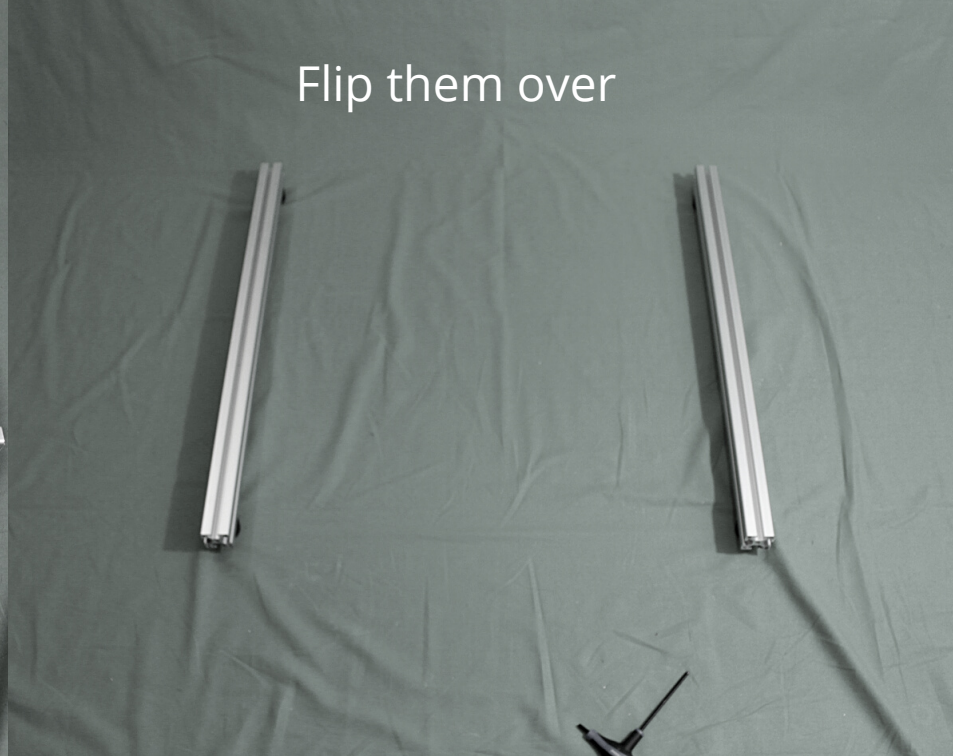

Tools

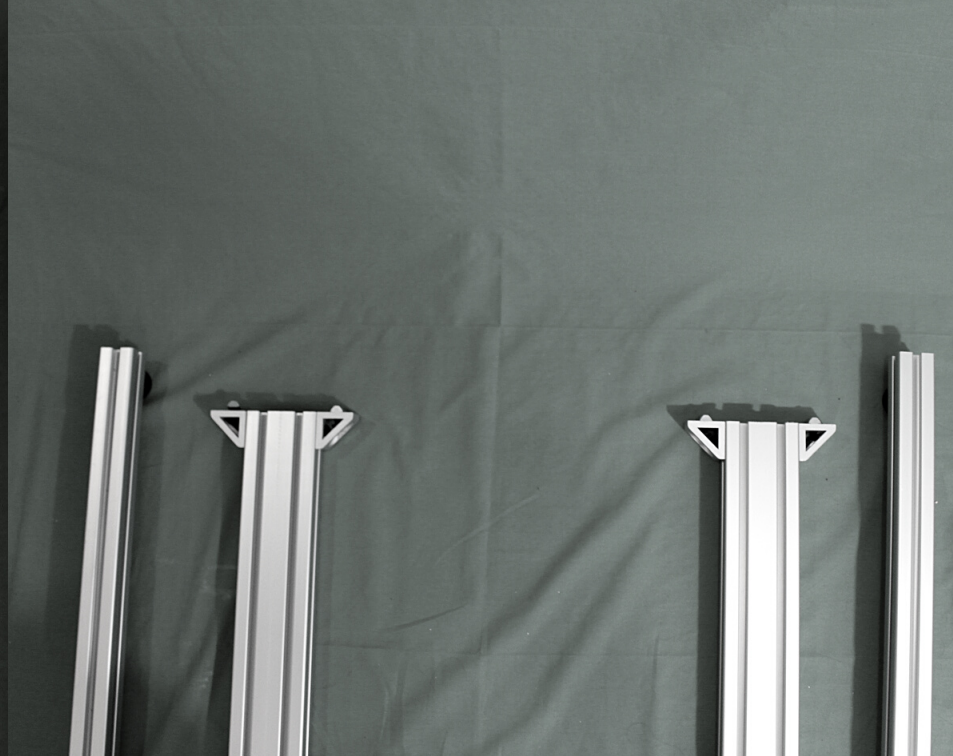

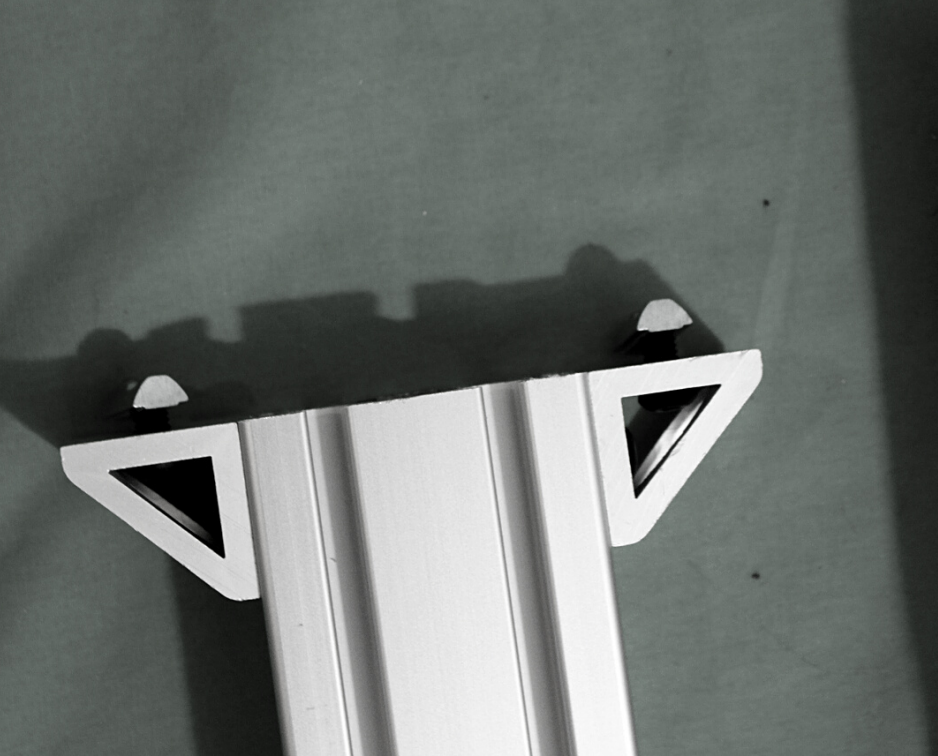

- measuring tape
- allen key 3/16

All the pieces

Approx. 38" appart
