

DR. WACK
Premium-Care

Product Information

The Problem:

Conventional sponges cannot optimally exhaust the performance potential of the A1 Speed Wax Plus 3.

The Solution:

NEW!

Product Advantages:

For a perfect paint finish with A1 Speed Wax Plus 3

The product's liquid content must be two thirds full. Returned consignments must be correctly stamped and proof of purchase (invoice) included.

A1 THE Wax SPONGE was selected from a large number of alternatives, and extensively tested and optimised by Dr. Wack Anwendungstechnik. Thanks to its specially developed high-performance material structure, the A1 THE Wax SPONGE is perfectly suited for applying the A1 Speed Wax Plus 3 with extreme ease.

- Developed for applying the A1 Speed Wax Plus 3 to the paint quickly and effortlessly
- The special foam material enables a

smooth, even product application and is very gentle to the surface

- Adapts to hard-to-reach places (e.g. door handle recesses)
- Ideal dimensions (150 x 80 x 35 mm) for hands
- Easy and quick application without tiring
- Easy to clean
- Extremely long-lasting

Applications:

Ideal for all types of paint (metallic, multi-colour, nano and more scratch-proof paints) and gloss films

How to apply:

Apply the A1 Speed Wax Plus 3 onto the dry sponge and apply it evenly and sparingly onto the clean, dry paint using small circular movements. Always keep the A1 THE Wax SPONGE moist and soaked with the product. Add more if necessary. When ready, wash the sponge thoroughly.

Tip: Developed for use with the A1 Speed Wax Plus 3
