

DR. WACK
Premium Care

Product Information

The Problem:

Stains like grease and oil, color fading etc. harms the high-quality appearance of any leather interior. Dirt penetrates the natural fibre structure of the leather and clogs its pores. This accelerates the aging of the leather.

The Solution:

LEATHER CLEANER

Product Advantages:

Mildly removes dirt and stains at pore level - Ideal for light leather

Contamination from grease/oils, paint abrasion or similar damages the appearance of any leather interior. Dirt penetrates the natural fiber structure of the leather and clogs its pores. This accelerates the ageing of the leather.

- With the A1 Leather-Cleaner you can gently and thoroughly lift ingrained dirt from leather pores without adversely affecting the original color of the leather
- The A1 Leather Cleaner ideally prepares the leather for subsequent treatment with the A1 Leather-Care product
- The cleaning action of the A1 Leather-Care product reaches into the pores, allowing deep penetration of jojoba components into the leather. This maintains the natural suppleness of the leather and helps protect it from aging

Heft 12/2013

Application Areas:

All smooth leather grades as well as adequate for artificial leather. Not suitable for suede.

Application:

Soak a sponge or a clean, soft, lint-free cloth with A1 Leather-Cleaner and clean all leather surfaces. Afterwards, wipe all treated surfaces with a damp cloth or sponge until all residue has been removed. Before treatment, test the A1 Leather-Cleaner to ensure compatibility/color fastness.

Note: Do not use in direct sunlight or on heated surfaces. Store properly closed in a frost-protected place.

The product's liquid content must be two thirds full. Returned consignments must be correctly stamped and proof of purchase (invoice) included.
