

## The Problem:

Value-retaining regular and careful cleaning of motorbikes requires significant time and effort. Properly wiping with a chamois is time-consuming, hard work. The result of a survey with bikers shows, that in addition to perfect cleaning and material compability, self-drying without water stains is one of the most important criteria for buying motorcycle cleaners. This attribute is currently not available on the market.

## The Solution:

## Product Advantages:

### The classical one with a new formula!

- Self-drying: dries without the need of a chamois and without leaving water stains  
→ Now with even better cleaning performance and even more gentle even on extremely sensitive surfaces
- Strong proven S100 cleaning power: Effortless and residue-free removal of dirt, insect residue, grease, and oil stains
- Highest yield and cleaning effect due to the gel formula
- Acid-free

## Application Areas:

### For complete motorcycle and all motorized bikes, also matte varnish

## Application:

Spray the entire motorcycle with S100 Moto Wash. Allow the gel formula to act for 5 to 30 minutes, depending on the degree of soiling. If necessary, use a sponge. Then, thoroughly hose down the motorcycle with a strong jet of water and allow to dry naturally or wipe with a chamois. The motorcycle dries by itself without having to use a chamois and without leaving water stains. Dry horizontal areas where the water cannot drain off.

**Note: Do NOT use on unlacquered aluminium or black chromated components (e.g. metal radiator hose). Do not use in hot sun or on heated surfaces.**

## Tip:

For best results, spray the cleaner on a dry, cool motorcycle. Also ideal for matte paint and foils (glossy and matte). To protect the bike against weathering, finish off by using the S100 Gloss-Wax Spray or the S100 Matt-Wax Spray on the paint after cleaning.

Available pack sizes	Art. number	Sales unit	Languages
750 ml plastic bottle with sprayer	2015	6	DE, FR, NL, GB
100 ml plastic bottle	2003	12	DE, FR
2 l plastic container	2031	1	DE, FR, NL
5 l plastic container	2030	1	DE, FR, NL
