

The Problem:

Annoying squeaking of moving parts, stuck screws or even dirty spots on the motorcycle are unpleasant disturbing factors. Even rust, tar, grease or oil stains, among other things, can become unsightly and problematic to remove.

The Solution:

THE MULTI OIL

NEW

Product Advantages:

Excellent lubrication of all moving parts

- Eliminates squeaking
- Effective on hard-to-reach areas thanks to optimal creep properties
- Protects reliably against corrosion
- Displaces moisture
- Dissolves rust, grease, resin, soot, tar and oil stains
- Does not resinify
- Does not attack any materials
- Cares for rubber parts

Application Areas:

All moving parts on the motorcycle (e.g. Bowden cables, levers, joints, etc.), jammed and rusted screws, soiled areas, electrical contacts, rubber and metal parts

Application:

Shake can before use. Apply product and allow to take effect briefly. If necessary, remove excess product. For selective application and hard-to-reach areas, attach spray head with long tube. For wide spray pattern, use spray head without tube.

Please note: Do not use in bright sunshine or on heated surfaces. Do not use on brakes and tyres.

The product's liquid content must be two thirds full. Returned consignments must be correctly stamped and proof of purchase (invoice) included.
