

# YAKKAY

## Find your Smart Two helmet size

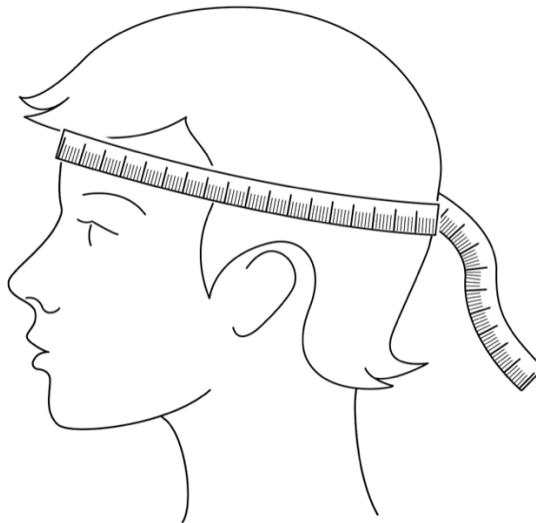

In order to find the correct helmet size, you loosely measure your head circumference with a measuring tape as shown in the drawing below.

Please note, that your Smart Two helmet size may depend on your head form, meaning that you may need a larger helmet than stated below, if you have a particularly broad or long skull.

Size Medium: 51-56 cm.

Size Large: 55-59 cm.

Size X-Large: 58-61 cm.
