CLEARLITE

BATHROOMS

TRUSTED NATIONWIDE

Established in 1946 manufacturing a various range of products, Clearlite is a trusted supplier of quality bathroomware. The majority of our products are designed and manufactured right here in New Zealand for Kiwi Families.

With over 50 years' experience in the bathroom industry, our aim at Clearlite is to provide a selection of Showers, Vanities, Mirrors, Bathroom Furniture and Baths to suit the style needs and budgets of all New Zealanders.

MADE IN NEW ZEALAND

We are a New Zealand company who believe in manufacturing quality products using trusted raw materials. This helps to ensure our products not only look good but stand the test of time. The majority of our product range is designed and manufactured here in New Zealand. We also import a selection of products; some of which we design ourselves to complement our core range. All products are subject to quality control checks before dispatch.

CLEARLITE.CO.NZ

We recommend you visit the Clearlite website to help with the planning of your new home or bathroom renovation project. Our website is packed with helpful information from printable technical drawings and installation instructions to product images which are all on hand to assist with your bathroom product selection.

WHERE TO ORDER

Clearlite bathroomware is available from leading plumbing merchants and retailers nationwide. Find your nearest supplier at clearlite.co.nz/pages/retailers

RECOMMENDED RETAIL PRICES

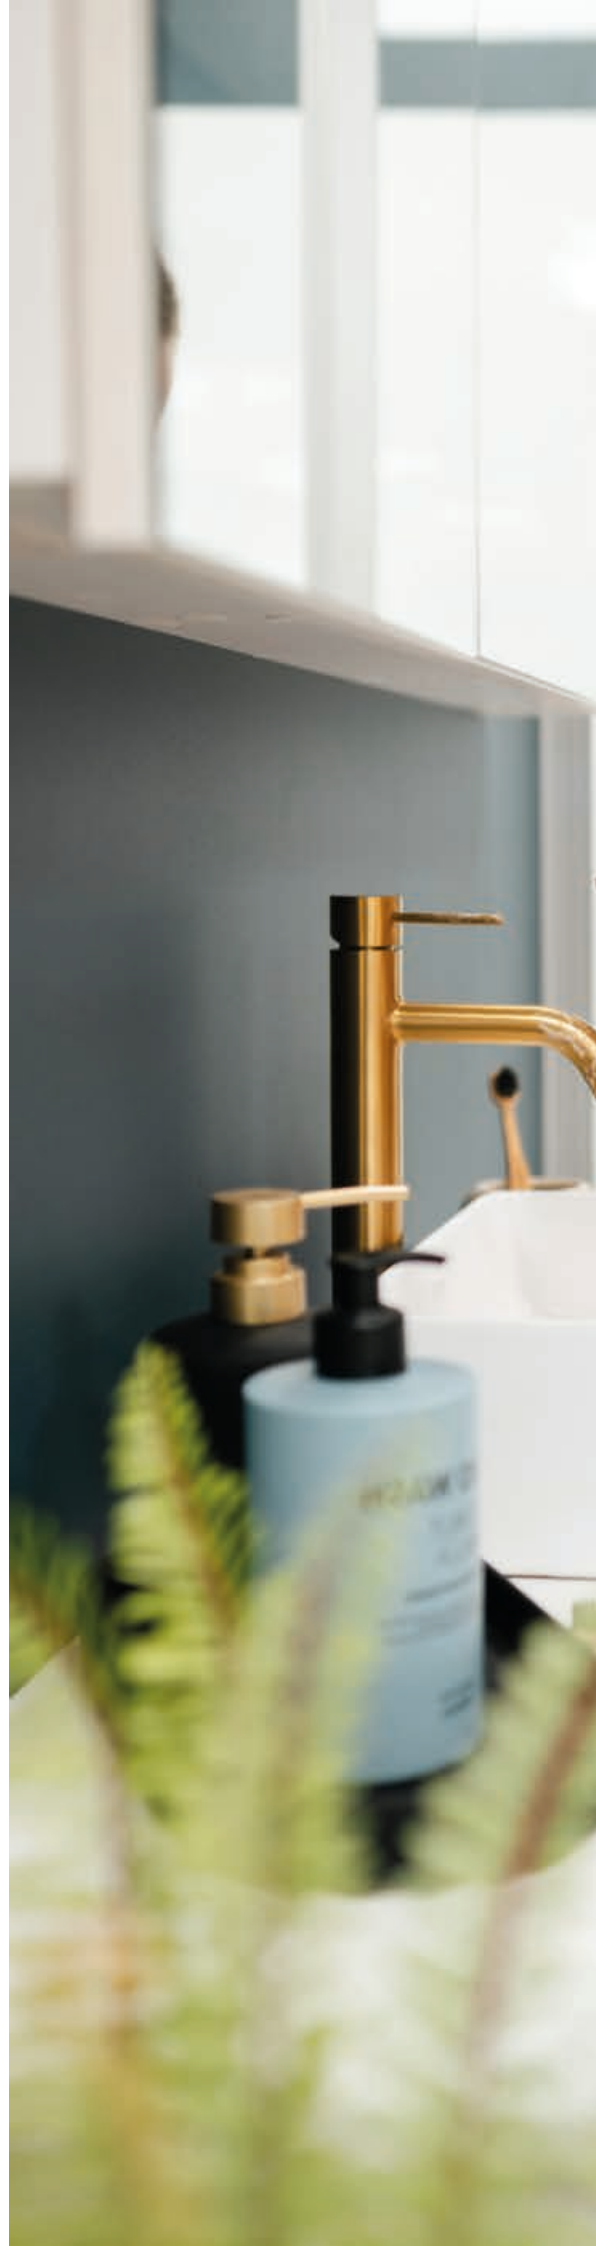

Download the latest RRP Price List for all Clearlite products online at clearlite.co.nz/pages/catalogues

AFTER SALES SUPPORT & CUSTOMER CARE

We care about the longevity of our products and ensuring you get the most from your Clearlite bathroomware. So, if you need to replace a part, request a product service or speak with a team member, contact us today. Phone 09 444 3780 Email info@clearlite.co.nz

SUPPORTING NEW ZEALAND FAMILIES

Every week, families arrive at hospitals away from their homes with a child in need of urgent medical treatment. Ronald McDonald Houses Auckland provide a 'home-away-from-home', offering families a safe haven to retreat to, after a long day on the ward. Clearlite Bathrooms are proud to give back to our community by supporting these New Zealand families. Learn more at rmhc.org.nz

SHOWERS

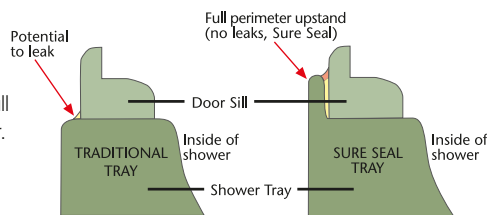

Clearlite showers are available in a selection of styles, sizes and configurations to suit any New Zealand bathroom. Our showers are constructed from the highest quality materials and are designed to enhance product longevity.

Clearlite acrylic shower trays, wall liners and door sets* are proudly manufactured in New Zealand. *excluding our imported Cezanne sliding door set

SURE SEAL™ TRAY

The unique design of the Sure Seal™ Tray offers a full 20mm upstand around the perimeter of the shower. Both door and liner are installed within the tray so water flows back into tray whilst in use.

EASY CLEAN WASTE

All Clearlite shower trays include a chrome or white lid Easy Clean Waste kit. When correctly installed this system allows you to simply lift the waste cover and inner cup for cleaning.

SENOSAN ACRYLIC LINERS

Clearlite showers use Senosan from Senoplast that brings you an unbeatable advantage of:

- Brilliant surface of sanitary acrylic
- Warm surface
- Long life in use
- Excellent design possibilities

SAFETY GLASS

Bathroom projects may need to obtain a code of compliance. All Clearlite Showers are manufactured with this in mind and use toughened safety glass complying with AS/NZS2208.

CLEANING & MAINTENANCE

- Wipe down the shower or use a squeegee to remove excess water from the glass after use
- Use a trusted glass cleaner on shower glass and bath screens to remove soap deposits
- Consider Diamond Fusion to make glass cleaning easier. See page 10
- Clean the shower tray and liner surfaces using the Vibrance Surface Cleaner
- Waste lid and cup should be removed and cleaned regularly
- Remove and clean drip seals on a regular basis

Sierra 900x900 Angle Corner Flat Wall Black
Nikau 1000 Double Drawer Floor Ultra Gloss White and Triple Duck Egg

10 Year Warranty on door set, acrylic wall liner, SureSeal™ tray and EasyClean Waste body

12 month warranty on drip strips and vertical seals

Made in New Zealand

JOINERY OPTIONS

The black anodized finish is achieved through an electrochemical process that transforms the metal surface, providing durability and a decorative finish. Next, a sealing process is applied to all black joinery surfaces, offering high corrosion resistance, resistance to fingerprints, and easy cleaning, enhancing overall performance.

DIAMOND FUSION GLASS DEFENDER

HOW DOES IT WORK?

Glass is not as smooth as you might think – it is actually quite a porous surface which makes an ideal setting for soap residue, dirt and mineral build ups to reside which, over time can result in a cloudy or noticeably dull appearance. Diamond Fusion Glass Defender works in two stages to protect your glass from these impurities. The first stage “Fills in” the rough, porous surface of the glass and the second stage “Caps” the previous layer with an optically clear material which makes the surface significantly easier to clean and resistant to weathering.

LIFETIME WARRANTY

Diamond Fusion Glass Defender offers an instant 1 year warranty. Via a simple on-line registration customers can extend this to a LIFETIME WARRANTY, which is backed by a NZ wide agent network.

For more information contact
 Diamond Fusion on 0800 667278
 or visit diamondfusion.co.nz

* Factory treatment is available for Sierra, Millennium and Trombone shower doors and returns. If you would like your Cezanne shower treated please contact Diamond Fusion for post installation treatment.

Cezanne Round 1000x1000 2 Sided Moulded Wall White

PLATINUM

SHOWER SCREEN

Platinum 960mm Shower Screen
Pinnacle Pro 1500mm Vanity Baroque

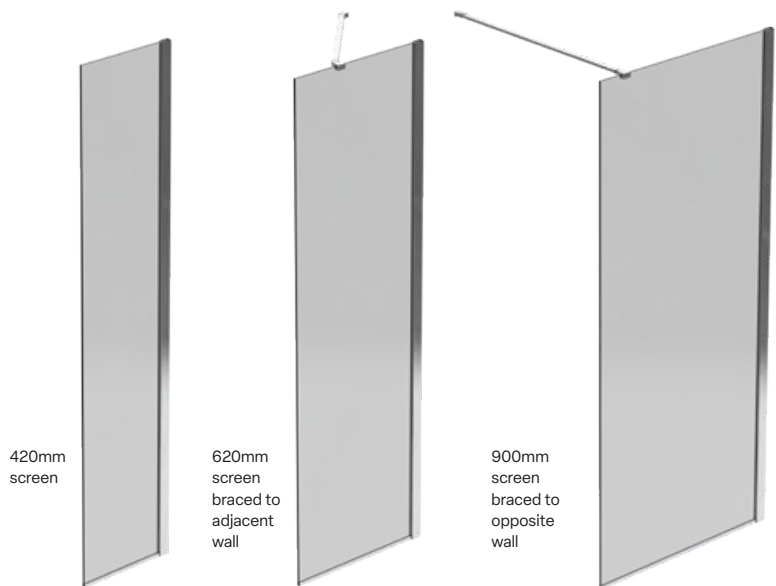

WALK-IN SHOWER SCREENS

Clearlite Platinum Walk in Shower Screens offer easy access when space is a premium, as there is no need for doors to be opened or closed. They also create a seamless and uninterrupted view through the bathroom.

The glass-to-wall brace is adjusted during installation to support the shower screen. Pivot to fit at an angle to an adjacent wall or across to the opposite wall. At 1200mm long, the brace can be cut to a desired length to suit the space as required.

INCLUDED

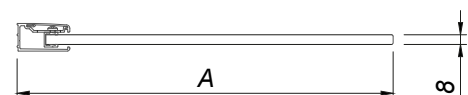

- 8mm toughened safety glass panel
- Satin wall receiver
- Satin floor sill
- Wall Brace 1200mm – can be cut to length (Install optional)
- Installation kit: screws, glazing wedges, silicone, glass adjustment packer set

TROMBONE

ADJUSTABLE DOOR

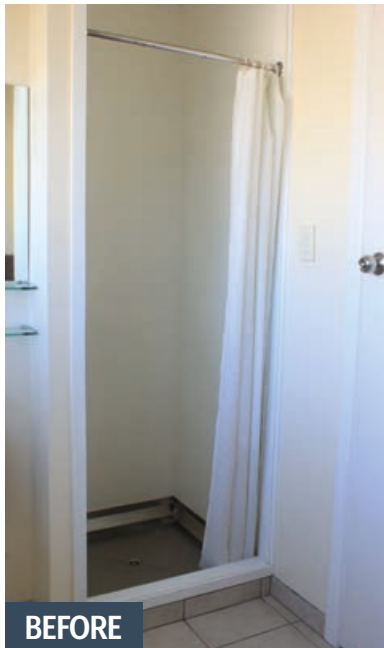

THE ULTIMATE FOR RENOVATIONS!

The Trombone is a fully adjustable door that can be easily customised to fit the size of the door opening required. Trombone doors are a great way to update your bathroom in a rental, bach or home. There are five door sizes to choose from between 640mm to 1000mm.

The Trombone features a full length aluminium handle with integrated magnetic closure. Trombone doors are made from 6mm toughened safety glass and finished with white joinery.

10 Year Warranty on door set

12 month warranty on drip strips and vertical seals

BEFORE

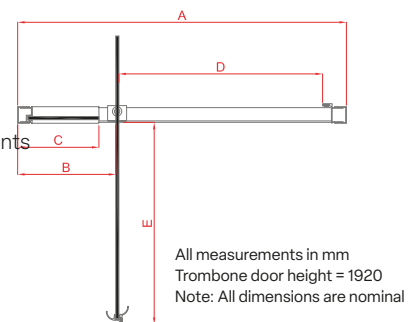

AFTER

Trombone 1000 Alcove Flat Wall White with Glass Shelves

CHOOSING THE CORRECT SIZE TROMBONE DOOR

- Trombone doors are available in five sizes so it is important that you select the correct one
- Each door is adjustable to ensure ease of installation and to allow for walls which are not plumb
- You will need to measure the opening width at the top and at the bottom of the opening
- Each door has adjustability which varies between 60mm and 100mm (refer to chart below)
- When measuring make sure the tape measure remains level at all times to ensure correct measurements are obtained as this will impact on the door size required
- If you have different measurements at the top and the bottom and these measurements cross over between two door sizes then order the larger door so as to avoid over extending the frame as it can compromise the stability of the door once installed.

CODE	A (Minimum / Maximum)	B (Minimum / Maximum)	C	D	E
100800640	640 / 700	188 / 248	140	399	396
100800700	700 / 760	218 / 278	184	429	426
100800760	760 / 840	218 / 298	184	489	486
100800840	840 / 940	268 / 368	220	519	516
100800940	940 / 1000	328 / 388	290	559	556

INCLUDED

- 6mm toughened safety glass panels
- White joinery door set
- Installation kit: screws, drip seal, silicone

VANITIES, MIRRORS & STORAGE

A well placed mirror or considered storage solution can make a huge difference to your bathroom space. We offer an array of solutions to help transform your bathroom area into a functional yet stylish space. Our cabinets are manufactured in New Zealand from locally sourced board and assembled by an expert team to ensure a long lasting product built with the quality you expect from Clearlite Bathrooms.

VANITY TOPS

Acrylic vanity tops offer a glossy smooth finish with straight edges. A hardwearing product that is manufactured using thermoformed Lucite® acrylic reinforced with polyester resin.

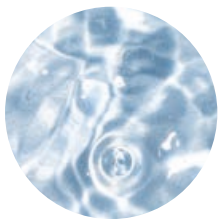

Composite tops and basins have a gloss surface that achieves a clean smooth look almost free from surface imperfections. Tops are resistant to impact damage and offer good dimensional stability. Composite tops are created using a mixture of resin and mineral fillers with a hardwearing gel coat top surface.

Vitreous China (or VC) has a classic appearance with its solid glassy finish. VC products offer excellent heat, scratch, stain and wear resistance. Made from a natural material it is a cast ceramic (clay) glazed with enamel (glass). Due to the nature of its production, visible imperfections and variations in sizes are part of the overall look of VC meaning no two tops are produced the same.

MATERIAL AND CONSTRUCTION

The foundation of great design is top class materials and construction. At Clearlite Bathrooms we are proud to know that our customers enjoy world class materials in the construction of all cabinets, which are manufactured right here in New Zealand. If you visit the leading interior fashion fairs in Milan or Cologne, you will see New Zealand can manufacture to a standard that is the equal of anywhere in the world, if not better. The key materials in our vanity cabinets utilise the best in worldwide proven market-leading technology.

BOARD + BOND = THE MOISTURE RESISTANT TEAM

Bathrooms by their nature are exposed to moisture from splashes and steam. For all melamine and colour finishes we use New Zealand supplied Moisture Resistant Board. It is the combination of this Moisture Resistant board with PUR bonding technology that delivers the most moisture, and heat resistant cabinet possible.

PUR bonding technology was originally developed in Europe to withstand the harsh shipping conditions to the fast-growing, demanding luxury markets of the Middle East. PUR bonding is acknowledged worldwide as delivering the most heat resistant, moisture resistant, and near-seamless bond possible. Technically it chemically sets against the moisture carried via air and therefore it literally resists moisture. For this reason, it is the perfect pairing with the Moisture Resistant board.

NEW ZEALAND GROWN - NEW ZEALAND MANUFACTURED - ENVIRONMENTALLY SUSTAINABLE BOARD.

New Zealand's board is highly regarded around the world for its environmental sustainability and low emission characteristics. Sourced only from New Zealand's sustainable FSC certified Radiata Pine Plantations, New Zealand board producers pioneered the drive to low-formaldehyde emissions. This quality standard is required in key export markets of Japan and USA and is delivered to our customers. This low emission board is infused with a treatment that provides the extra resistance to splashes and steam when compared to standard board.

CABINET HANDLES

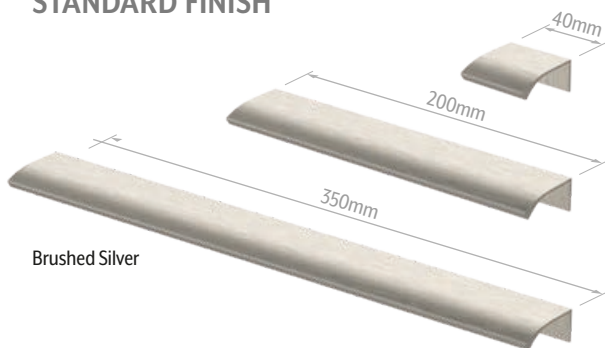

All Clearlite vanities and storage towers are fitted with Standard Finish handles* specifically designed to enhance the overall visual appeal of the unit. For our Nikau range that means a Brushed Silver edge design, for the Compass a Satin Silver curved handle as standard, while all other Clearlite models are fitted with a Brushed Nickel square handle.

Customise your vanity cabinet by adding different colour handles that compliment your bathroom tapware and accessories. Upgrade finishes are available to order (per handle) in addition to the standard finish (fitted handle). See Clearlite.co.nz for more information.

*Excludes our handleless Pinnacle and Veva ranges.

STANDARD FINISH

CABINET FINISHES

Clearlite cabinet finishes are extremely durable and are now available in a wide range of solid and woodgrain finishes. The melamine surface is made to resist bumps and knocks to ensure it maintain an 'as new' finish over time. A coloured layer is heat bonded to the surface of locally and sustainably sourced board then finished with colour matched PVC capped edging. The result is a hard wearing cabinet that when looked after, is designed to last for years to come.

Standard Colour Finishes A solid or woodgrain melamine cabinet is the perfect way to bring personality and texture to any bathroom.

Ultra Gloss White Achieved by utilising world leading acrylic laminate technology to produce an exceptional gloss with a deep lustre for an elegant finish.

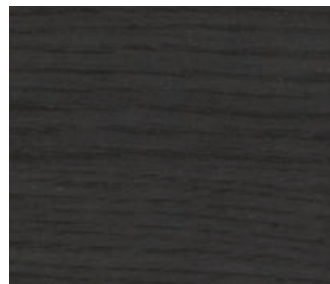

White Melamine Clearlite white melamine cabinets offer an affordable option without comprising on quality or design. Available in all Clearlite ranges excluding Nikau.

BATHS & ACCESSORIES

Clearlite baths are available in a range of styles and sizes to suit any New Zealand bathroom. Our baths are constructed from the highest quality materials to be both functional and timeless in design.

Clearlite acrylic baths, wall liners and door sets* are proudly manufactured in New Zealand. *excluding our imported Varo Back to Wall Bath

Aluminium upstand

CUSTOM UPSTANDS

Aluminium upstands are recommended in shower over bath situations. The upstands are custom fitted in our factory and enable a water tight seal between the bath and wall lining (or tiles). This allows the installer to apply sealant above the baths surface, preventing a visible seal that can discolour or mould.

TIMBER BATH FRAMES

Drop in baths have the option of being supplied with a timber frame which we custom fit to support the bath floor. Timber bath frames are made from machined gauge pine which is straight and true to allow easy fixing of lining materials. This is a cost effective solution which saves time onsite by eliminating the need to frame up once the bath has been delivered. Note: frames are factory fitted or supplied separately.

ACRYLIC BATH SKIRTS

Offering a simple solution to finishing off the surround of a drop in, acrylic bath skirts are available in one and two or three sided configurations to suit your design.

SENOSAN ACRYLIC WALLS & LINERS

Clearlite wall liners use Senosan from Senoplast that brings you an unbeatable advantage of:

- Brilliant surface of sanitary acrylic
- Warm surface
- Long life in use
- Excellent design possibilities

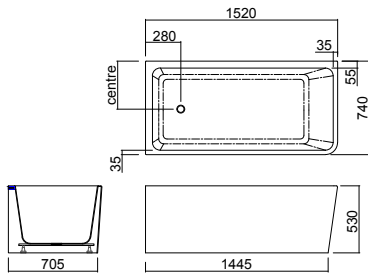

SAFETY GLASS

Bathroom projects may need to obtain a code of compliance. All Clearlite Shower over Bath door sets and swing panels are manufactured with this in mind, using toughened safety glass complying with AS/NZS2208.

WARRANTIES & MAINTENANCE

PRODUCT WARRANTY

We stand behind our products and offer warranties on all our bathroomware so that you have peace of mind that what you have purchased for your home is of the highest quality and fits the purpose for which it was designed.

WARRANTY PERIODS

Baths - 5 Years

Vanities and Basins - 5 Years

Storage Towers - 5 Years

Mirrors and Demister Pads - 2 Years

Showers - 10 Years

Door set, acrylic wall liner, Sure Seal™ tray and EasyClean Waste body

Showers - 1 Year

Drip strips, vertical seals and waste lid

EXCLUSIONS

- The product must be installed according to the instructions supplied.
- The supply water temperature at the tap must not exceed 50°C
- Commercial applications - 12 month warranty on all products

PRODUCT MAINTENANCE

As the bathroom can be a high use zone in the house, it is important to understand how to maintain products. Below are our suggestions on how to clean and care for them.

SHOWER CARE

- Wipe down the shower or use a plastic squeegee to remove excess water from the glass after use
- Use a trusted glass cleaner on shower glass. If your glass has been treated with Diamond Fusion, please go to <https://www.diamondfusion.co.nz/product-instructions/> for cleaning instructions
- Use Vibrance Surface Cleaner to clean the tray and wall liner
- Waste lid and cup should be removed and cleaned regularly
- Drips seals can be removed for cleaning and can simply be replaced when they no longer look their best

VANITY / BASIN / STORAGE TOWER / MIRROR CARE

- Wipe any spilled liquids from the vanity as soon as possible. Cabinets are water resistant not waterproof
- **Ultra Gloss Cabinet Finishes:** only use a damp cloth to clean
- **Woodgrain and Standard Melamine Cabinet Finishes:** for best results use Vibrance Surface Cleaner or a gentle streak free glass cleaner using a soft cloth
- **Stone Bench Tops;** only use a damp cloth to clean
- **Acrylic, Composite, Vitreous China and Solid Surface Vanity Tops and Basins:** use Vibrance Surface Cleaner. Light scratches can be removed from an Acrylic or Composite vanity top by using 'Brasso' or 1200 grit 'wet & dry' sandpaper, followed by polishing with a fine car cutting compound. For deep scratches, we recommend an experienced Acrylic Repairer is contacted
- **Glass and Mirrors:** for best results we recommend the use of a trusted glass cleaner

BATH CARE

- Clean regularly with warm, soapy water using a non abrasive cleaner.
- Light scratches can be removed from an Acrylic bath by using 'Brasso' or 1200 grit 'wet & dry' sandpaper, followed by polishing with a fine car cutting compound. For deep scratches, we recommend an experienced Acrylic Repairer is contacted.

VIBRANCE SURFACE POLISH AND CLEANER

Suitable for use on Acrylic, Vitreous China, Porcelain, Tiled and Solid Surfaces

Step 1: Use ShowerMaster Vibrance Surface Cleaner for daily cleaning

Step 2: Use ShowerMaster Vibrance Surface Polish to restore lustre, remove light scuff marks and leave a protective film

Developed and manufactured in New Zealand specifically for Clearlite and Athena bathroomware.

Note: Before using on other products it should be tested on an inconspicuous area.

We are here to help. If you would like further information on your Clearlite product or additional cleaning instructions, please contact our After Sales team; P; 09 444 3780 | E: aftersales@clearlite.co.nz
