A bite of Spain in Canada

*Wholesale catalog last update 2024.Apr.24*

Our products tell a story deeply rooted in **Spanish history and tradition**. From our olive oils, cold-pressed from one of Andalusia's 230 varieties of olives, to the Bellota and Iberico hams of Western Spain; from the carefully cured cheeses of Castilla and our gourmet seafood, canned by hand in Galicia, all our products are selected for their **excellent quality and flavour**.

In the culinary world, Spain's reputation as a producer of **fine cured meats** rivals the best the world has to offer. From the delicate *jamón* to the rustic *lomo* and, of course, our famous *chorizo*.

In the world of Spanish charcuterie, the most premium pig is **acorn-fed Iberian**. Unlike white pig breeds like Serrano, black-skinned Iberian pigs are descendants of the Mediterranean wild boar and are colloquially called **pata negra** ("black leg") for the color of their hooves. They are athletic animals, runners and rooters, and thanks to the structure of their intramuscular fat, **their meat is more flavorful, juicy, and distinctive**.

EVOO

## Why this Olive Oil is so unique?

This olive oil is the first oil obtained in October (month nº 10) when the olives are still green (1<sup>st</sup> harvest). Approximately 10 kg of fresh harvested olives are necessary to obtain 1 Lt. of this premium quality (1L/10kg = 1/10) We bring to our customers homes a fresh unfiltered olive oil just a few months after it's squeezed in our mill, a seasonal product which can't be found in other times in the year.

**Proposed use:** use it only cold for dressing or to dip with bread to enjoy all its properties.
