Yealink

MeetingEye 600

Remarkable Intelligence for Immersive Meeting in Middle Rooms

Bi-Camera   **Distant Close-up**   **AI Framing**   **Security Protection**

Yealink Third Generation Video Conferencing Endpoint

MeetingEye 600 is an all-in-one intelligent video conference bar designed for medium-size meeting rooms.
The bi-camera combination featuring 20M pixel ultra wide angle lens and 10x hybrid zoom lens promises a perfect performance in both detail and panorama. The Ultra-HD 4K camera, multiple AI technologies (face detection, sound source locating, voice tracking etc.) and built-in automatic lens cap ensure the fluency and security of daily conferences.
With all-in-one design, MeetingEye 600 allows wireless deployment and fast sharing, which empowers every meeting in an intelligent and easy way.

Bi-Camera, Perfect in Detail and Panorama

The bi-camera integration of 20M pixel ultra wide angle and 10x hybrid zoom lens well satisfies the demand of medium-size meeting rooms, ensuring all attendees in the shot without stretch or deformation and distant participants clearly presented.

Support dual 4K UHD video calling and content sharing with a minimum of 2Mbps for 4Kp30.

Panoramic analysls lens
· 20M Pixel
·133° Ultra wide FOV

10x hybrid zoom
· 8M Pixel
· 3.5x Optical zoom + 3x Digital zoom

Bi-Camera   Distant Close-up   AI Framing   Security Protection

AI Intelligent Framing, Impactful in Conference Efficiency

Empowered with advanced AI technologies including face detection, sound source locating, voice tracking etc., the camera automatically adjusts to the best framing solutions according to the participants' quantity and location. Moreover, real-time close-up to the presenter and hands-free operations allow all attendees well focus on the meeting. The bi-camera integration of bi-camera provides faster viewing, clearer images and stronger tracking.
* Real-time face detection even when you wear a mask.

Automatically adjust & frame all participants when new participants join in.
Change to close-up while speaking.

Sound Tracking, Quality in Sound Effect

8 MEMS cardioid microphones are built into a linear microphone array to enhance noise elimination and reverberation capability. The newest upgraded Beamforming algorithm brings accurate directional voice tracking and quality conservations with full-duplex technology.

Automatic Lens Cap, Reliable in Privacy Protection

Being automatically on during video conferencing and off when not, the privacy-protecting lens cap with visible state definitely erases "camera anxiety" in daily.

MeetingEye 600 Key Specification

Model	Features		MeetingEye 600
Camera Features	Camera system		Dual camera system
	Ultra wide camera	Lens & image sensor	20MP Lens SONY 1-inch CMOS
		Maximum frame rate	60fps
		Field of view	133°
	PTZ camera	Lens	8MP lens
		Maximum frame rate	60fps
		Zoom	10x hybrid zoom (3.5x optical, 3x digital)
		Field of view	90°
	AI features		Auto faming & speaker tracking
	Conference security protection		Electric camera lens cap which automatically protects non-video meeting
Video Features	Video call quality		up to 4Kp30 or 1080p60
	Bandwidth requirement		4Kp30 from 2Mbps in H.265 1080p30 from 512Kbps in H.265 720p30 from 384Kbps in H.265
	Video packet loss recovery		30%
	Local HD recording		√ (USB flash drive, local storage and server recording)
Audio Device	Microphone		Built-in 8 MEMS microphone arrays
	Optimal voice pickup distance		20ft / 6 meters
	Expansion microphones		Supports 2 x Wireless Expansion Mic[1]
	Noise proof technology		√
	Speaker		Built-in speaker, 10W output
Controller	Remote controller		VCR20 Remote controller
	Touch controller		Supports CTP18 or CTP20 touch controller[1]
Collaboration Features	Whiteboard		√
	Annotation on content sharing		√
	Multi-screen interaction		√
	Reverse control		√[2]
Network & Security	Wi-Fi		2.4G / 5G dual band
	Bluetooth		Bluetooth 4.2
	TCP/IP		IPv4 & IPv6
	Communication protocols		H.323 / SIP
	Traversal features		ICE/TURN/STUN/NAT/H.460
	Encryption		SRTP/TLS/H.235/AES 256-bit
Physical Connections	Display		2 x HDMI output
	Video input for content		Supports WPP20/AirPlay/Miracast wireless content sharing[3] Supports VCH51 wired content sharing[1]
	Line-in		1 x 3.5mm Line-in
	Line-out		1 x 3.5mm Line-out
	USB interface		2 x USB 2.0
	Network interface		1 x 10/100/1000Mbps Ethernet
	Power adapter		DC 48V/0.7A
	Wall mounting kit		√
Video Codec	H.265, H.264 High Profile, H.264, H.263, H.263+		
Audio Codec	ARES, Opus, G.722.1C, G.722.1, G.722, G.711 (PCMU/PCMA), G.729		
Video Resolution	4K, 1080P, 720P, 540P, 360P, 4CIF, CIF		

[1] Components are based on the package selected
[2] Reverse control needs to be used with WPP20
[3] Miracast needs to work with WF50
