

LOGITECH® USB HEADSET H540

High-performance for PC calls and music

Bring your Internet calls, music, movies and online videos to life with this precision-audio stereo headset. Simply plug the USB cord into your desktop or laptop computer to instantly immerse yourself in pure, rich digital sound.

FEATURE AT A GLANCE

Hear every detail

Laser-tuned drivers and a built-in equalizer optimize sound and minimize distortion, so you can experience the rich audio details in all of your music, movies and calls.

Plug-and-play USB connection

Simply plug in your headset to instantly start enjoying calls and music in pure, crisp digital stereo.

Easy on-ear sound controls

- Quickly adjust volume or mute the microphone with separate no-look controls at your fingertips.
- Mute indicator light—easy to see when the mic is turned off

Crystal-clear chatting, Skype-certified

- High-quality mic reduces background noise so friends and business associates hear you clearly
- Easily rotates for best voice pick up
- Flips up/hides away when you're not on a call

Lasting comfort

- Soft leatherette padding is easy on your ears, especially when you're listening to music or chatting for hours
- Padded headband conforms naturally to the contours of your head for a perfect and comfortable fit

Product description

100-word description

Logitech USB Headset H540. Plug into high-performance audio for PC calls, music, and more. Simply insert the USB and instantaneously experience crisp, digital stereo and more crystal-clear calls. With laser-tuned drivers and a built-in equalizer, this is precision sound that gets you to the heart of everything you listen to. And with the flexible, rotating, noise-reducing microphone boom, you'll enjoy crystal-clear chatting. Which means that you'll be able to hear the voices of your family and friends in their purest form—without distracting background noise. Plus, intuitive on-ear controls give you the ability to adjust the volume and easily toggle the microphone's mute button on and off.
