

NANO PROTECH

NANO PROTECH ELECTRICAL

PRODUCT INFORMATION:

- SUPER Hydrophobic (100 % Moisture Displacement within 10 seconds)
- Powerful electronic insulation against moisture damage
- Long term protection (6 - 12 months depending on friction of area applied to)
- Ac and Dc adaptive
- High Voltage tolerance up to 256000Volts /cm
- Extreme temperature tolerance (+250 / -80 Celsius)
- Extends equipment lifespan up to 6 times
- Enhances energy efficiencies to 100% under any Harsh Conditions

Can be used on:

- Electrical Cables
- Electrical Plug Points
- Electrical Contacts &
- Electronic Circuit Boards
- Fuses
- Cell Phones, Laptops, TV monitors
- Electrical Equipment of all kinds
- Outdoor Lighting devices
- Electrical Plugs
- Cameras, Speakers
- Electrical Adaptors
- Measuring devices & sensors
- Electrical connectors & Circuit Breakers
- Telecommunication aerials
- All Power Station Components

Method of application:

- Dip
- Spray,
- brush or roll on

Certifications:

ISO993 salt spray tested (Internationally Certified)

Sizes:

- 120ml Aerosol
- 1L Liquid
- 5L Liquid
- 25L Drum
