

## KING Quick Release Roof Mount

### Quick Release Roof Mount for Portable Satellite TV Antennas

This revolutionary, first of its kind, mounting fixture allows you to turn your KING antenna\* into a roof-mounted system and then into a portable antenna in seconds! Trees blocking your signal? No problem! Just dismount your KING antenna from the quick release mount (that is permanently mounted on your RV roof), reposition your KING satellite antenna anywhere to get a better view of the southern sky and you'll be watching your favorite television program in minutes. Want to go tailgating for the weekend? How about fishing or hunting? No problem! Just disengage your KING antenna from this roof mount fixture and take your KING portable antenna tailgating, hunting, fishing or wherever your busy life takes you. You'll never miss another big game. Made in the USA.

- Easily converts your roof-mounted satellite antenna into a portable antenna
- Antenna snaps into place so you can mount and dismount in seconds
- Integrated anti-theft security feature for peace of mind

## KING Jack™ Replacement Head

(Poles not included)

### KING Jack Replacement Head HDTV Antenna

Introducing the NEW and Improved KING Jack! Better signal, updated sleek design, easy to use. KING, the leader in the OTA industry, now expands its OTA product line. Hi-tech yet simple design. KING Jack digital HDTV antenna provides greater performance than expected from such a compact over-the-air TV antenna. KING JACK is designed for exceptional performance for the demands of either RV or residential use (indoor or outdoor), with long-range signal acquisition.

KING Jack's wider reception area makes it easier to lock onto available TV signals. KING Jack provides more channels with less need to rotate the antenna. HDTV for FREE!

- Long-range signal acquisition (get more channels!)
- Simple, five-minute retrofit upgrades batwing antenna to digital HD
- Amplified, ultra-high gain antenna
- Upgraded technology enhances UHF signal reception while still receiving remaining VHF broadcast channels
- Broader reception coverage quickly locates strongest signal and maximizes reception
- Universal mounting brackets for RV and home use
- AC to DC power supply included for home use
