

## KING Jack™ with Mount and Signal Finder

Premium Models  
Include built-in signal  
finder for simplified  
antenna pointing

### Directional HDTV Antenna with Signal Finder

Introducing the NEW and Improved KING Jack! Better signal, updated sleek design, easy to use. KING Jack digital HDTV antenna with mount and built-in Signal Meter antenna provides greater performance than expected from such a compact over-the-air TV antenna. KING Jack is designed for long-range signal acquisition, ease of use, strong performance, and durability, making it the perfect choice for the demands of an RV. The built-in Signal Meter helps you pin-point the TV towers to maximize high definition TV reception.

- Long-range signal acquisition (get more channels!)
- Built-in KING SureLock signal finder for simple signal acquisition (HDTV for FREE!)
- Amplified, ultra-high gain antenna
- Upgraded technology enhances UHF signal reception while still receiving remaining VHF broadcast channels
- Broader reception coverage quickly locates strongest signal and maximizes reception
- Simple, fast antenna pointing with 360° rotation
- Compact, aerodynamic design maximizes wind resistance
- Always ready for travel –no need to crank up or down

OA8500 (White) / OA8501 (Black)

## KING Portable Antenna Mount

### Temporary Vehicle Mount for Portable Satellite TV Antenna

The KING MB500 Portable Satellite TV Antenna Temporary Vehicle Mount allows you to mount your KING satellite TV antenna\* to the roll-down window of long-haul trucks or to the side of an RV. The MB500 bracket easily attaches to the existing handle of the KING satellite antenna, then clips over the top edge of your vehicle's side window. The MB500 is formed of rugged weather-resistant materials, won't scratch the window due to included adhesive rubber pads, and will hold the KING antenna firmly in place when the vehicle is parked (not for use when in motion). Made in the USA.

- Holds KING satellite antenna securely on vehicle's roll-down window
- Mounting plates (included) allow for temporary mounting to the side of an RV when parked
- Adhesive rubber bumpers included to protect vehicle finish
- For use when parked only; not for in-motion use
- For temporary mounting purposes only

\*For models VQ4100, VQ4200, VQ4400 & VQ4500 only.
