KING OmniPro™

Omnidirectional HDTV Antenna

Introducing the new KING OmniPro omnidirectional OTA antenna! Elegant, powerful and easy to use, the KING OmniPro HDTV omnidirectional antenna is simple to install on your RV or travel trailer. This new amplified antenna is multi-directional (no pointing required) and is always ready for travel. Hi-tech yet simple design, the KING OmniPro digital HDTV antenna with mount provides greater performance than expected from such a compact over-the-air TV antenna. The KING OmniPro is designed for ease of use, strong performance, and durability, making it the perfect choice for the demands of an RV. This omnidirectional antenna receives free VHF, UHF & FM signals.

- Multidirectional signal acquisition (no pointing required)
- Amplified for best signal
- Easy to install and use
- No rotation/tuning needed once installed
- Always ready for travel (no need to crank up or down)
- Less expensive than traditional directional antennas
- Receives free VHF/UHF/FM signals
