

SafePEX PRO™

PEX, PERT, & HIGH PRESSURE TUBING

PEX is a polymer pipe constructed of cross-linked polyethylene. It is an alternative to copper plumbing pipe because of the lower cost, faster installation and more flexible properties. There are three types of PEX available through Flair-It: PEX-a (SafePEX), PEX-b (BestPEX) and radiant heat PEX, which is PEXb with an oxygen barrier. All PEX distributed by Flair-It meets the requirements of ASTM F 876 and F 877. 3/8" - 1" ID PEX is available in straight sticks from 5' to 20' and coils from 100' to 1000' in bulk and barcoded.
