

## RV EEL Cordsets

One Hand. A simple twist. Full Power.

The RV EEL (Easily Engaged Lock) Detachable Cordset has a patented, industry first, jaw-clamp design that provides one-handed operation and a secure waterproof seal, eliminating the need for a locking ring. Built for the harshest environments, the RV EEL connection is UL listed. Best of all, it works with your current inlet. The plug end of the cord features a large grip handle that provides a safe connection and is movable so the electrical box can be closed. In addition to cordsets with RV EEL technology, ParkPower® also offers a full range of pigtail adapters featuring the new RV EEL technology.

### RV Connection End

- EEL Jaw clamp technology—Eliminates locking ring
- LED power indicator
- Secondary lock for added security
- Cord light
- Water-tight seal
- Works with your current inlet

### Power Connection End

- Large Grip Swivel handle allows box cover to close
- Keeps hand away from dangerous high voltage contacts
- Easier to insert and remove electrical plug
- Meets and exceeds rigorous UL testing standards
- 30 Amp and 50 Amp cordset models in 25' lengths
- RV EEL product line includes connectors, pigtail and straight adapters

Length	Color	Part #
<b>30 Amp 125V Cordsets</b>		
25'	yellow	CS30-25RV
