

## Cordsets

All ParkPower® cordsets are made of the highest quality, construction with features you won't find on other power cords.

- Watertight molded plug and connector for safety and durability
- Heavy duty, super flexible marine-grade cable (30 amp 10 gauge, 50 amp 6 gauge)
- All models include a standard threaded ring for hook-up to ordinary threaded inlets
- Durable, bend resistant contacts
- **Power Indicator Light:** RV side connector features a molded-in LED light. When it glows red, you know you have power to the RV.
- **Contour Grip with Thumbprint Locator:** Both plug and connector ends are molded to fit the contour of your hand. When the thumbprint is in the 11 o'clock position, the blades line up for easy connection.
- **Swivel Head Handle:** Large Grip Swivel handle allows box cover to close. Keeps hand away from dangerous high voltage contacts. Easier to insert and remove electrical plug. Meets and exceeds rigorous UL testing standards.
- **ParkPower's Easy Lock™ system:** quickly locks the cord set to the inlet in just 1/8 of a turn. The tabs on the locking ring lock into the inlet for a positive watertight hookup. The exclusive locking tabs engage slots built into all ParkPower inlets. (sold separately)
