and
Model **SSP-50X**
Rated at 120/240V

"Surgio Says"
Lifetime Warranty on
all EMS & SSP Surge
Protection Models

SurgioSays.com

SSP-30X & SSP-50X Instructions

INSTALL STEPS:

STEP 1: Plug Smart Surge Protector into AC power. **DO NOT** plug in your RV at this time. Verify GREEN surge indicator LED(s) is on.

STEP 2: Verify which LED's come on. The Correct Wiring condition occurs when both the GREEN and BLUE LED's are on (See Diagram (A)). If this does not occur you may be experiencing one of the other three (3) Wiring Conditions as noted in the diagrams.

(B) Reverse Polarity

(C) Open Neutral

(D) Open Ground

Your Smart Surge Protector will continue to work during any of the wiring conditions; however, only the Correct Wiring condition (both GREEN & BLUE LED's on) is optimal and any other wiring condition should be corrected by Campground Maintenance before use.

STEP 3: Plug in your RV power to the Smart Surge Protector. Refer to STEP 2 above for surge protection wiring conditions.

FEATURES INCLUDE:

3-Color LED Indicator Lights, Weather Resistant, Dual Line Polarity Tester (SSP-50X only), Pull Handle on Plug, Lifetime Warranty, it's portable, just plug it in and like with all our products its made in the USA!

● Green Light Off means SSP has been compromised
