

Simple, clean lines and softly rounded edges are typical design features of the Deep by JIKA series. The wall-hung toilet Deep by JIKA Rimless with a washdown flushing system will please you not only with its modern shape, but also with the perfect coordination of all details. The contrast of the full body of the toilet and the ultra-thin seat and cover is a beautiful detail of this product (the seat and cover must be ordered separately). The correct setting for the valve in the concealed module is a flushing volume of 4,5/ or 4/2 liters. The innovative design of the toilet enables efficient and even flushing of the entire bowl. We provide an extended warranty of 10 years for JIKA ceramic products.

Wall-hung WC, Rimless, horizontal outlet

Back to wall
 Flushing system: Washdown
 Installation type: Wall-hung
