 H894651 Basic WC system compact for wall-hung toilets

The Lyra Plus series remains synonymous to harmonic shapes and classic lines. The wall-hung WC is a combination of up-to-date design and the latest technologies. Shortened toilet Lyra Plus Compact with a length of 490 mm requires a sufficiently load-bearing wall and cannot be connected to a vertical waste, which must be taken into account before starting construction work. However, its appearance is maximally clean and very easy to keep clean. In new buildings, where it is possible to insert the cistern into a solid wall niche, using the hanging version of the Lyra Plus Compact toilet will save space in the bathroom. For example, with panel houses, it is necessary to pay attention to the load-bearing capacity of the walls, or Use the JIKA concealed module - type PRO WC SYSTEM+PANEL SET, which is specially designed for the residential core. We provide an extended warranty of 10 years for JIKA ceramic products. Attention: For the wall-hung toilet, you need to order a seat with a lid separately.
