DEEP BY JIKA H826617  
FLOORSTANDING WC

Simple clean lines and softly rounded edges of the combi-toilet are typical design features of the Deep by JIKA series. It will please not only with its modern shape, but also with the tightening of all elements in detail. The vertical combination toilet has a noisy flush. In addition, it saves water thanks to the Dual flush system with the option of rinsing only 3 or 4.5 liters of water. Comes with installation kit. Assembly instructions for the installation of JIKA combi toilets can be found in the download documents. We provide an extended 10-year warranty for JIKA ceramic products!

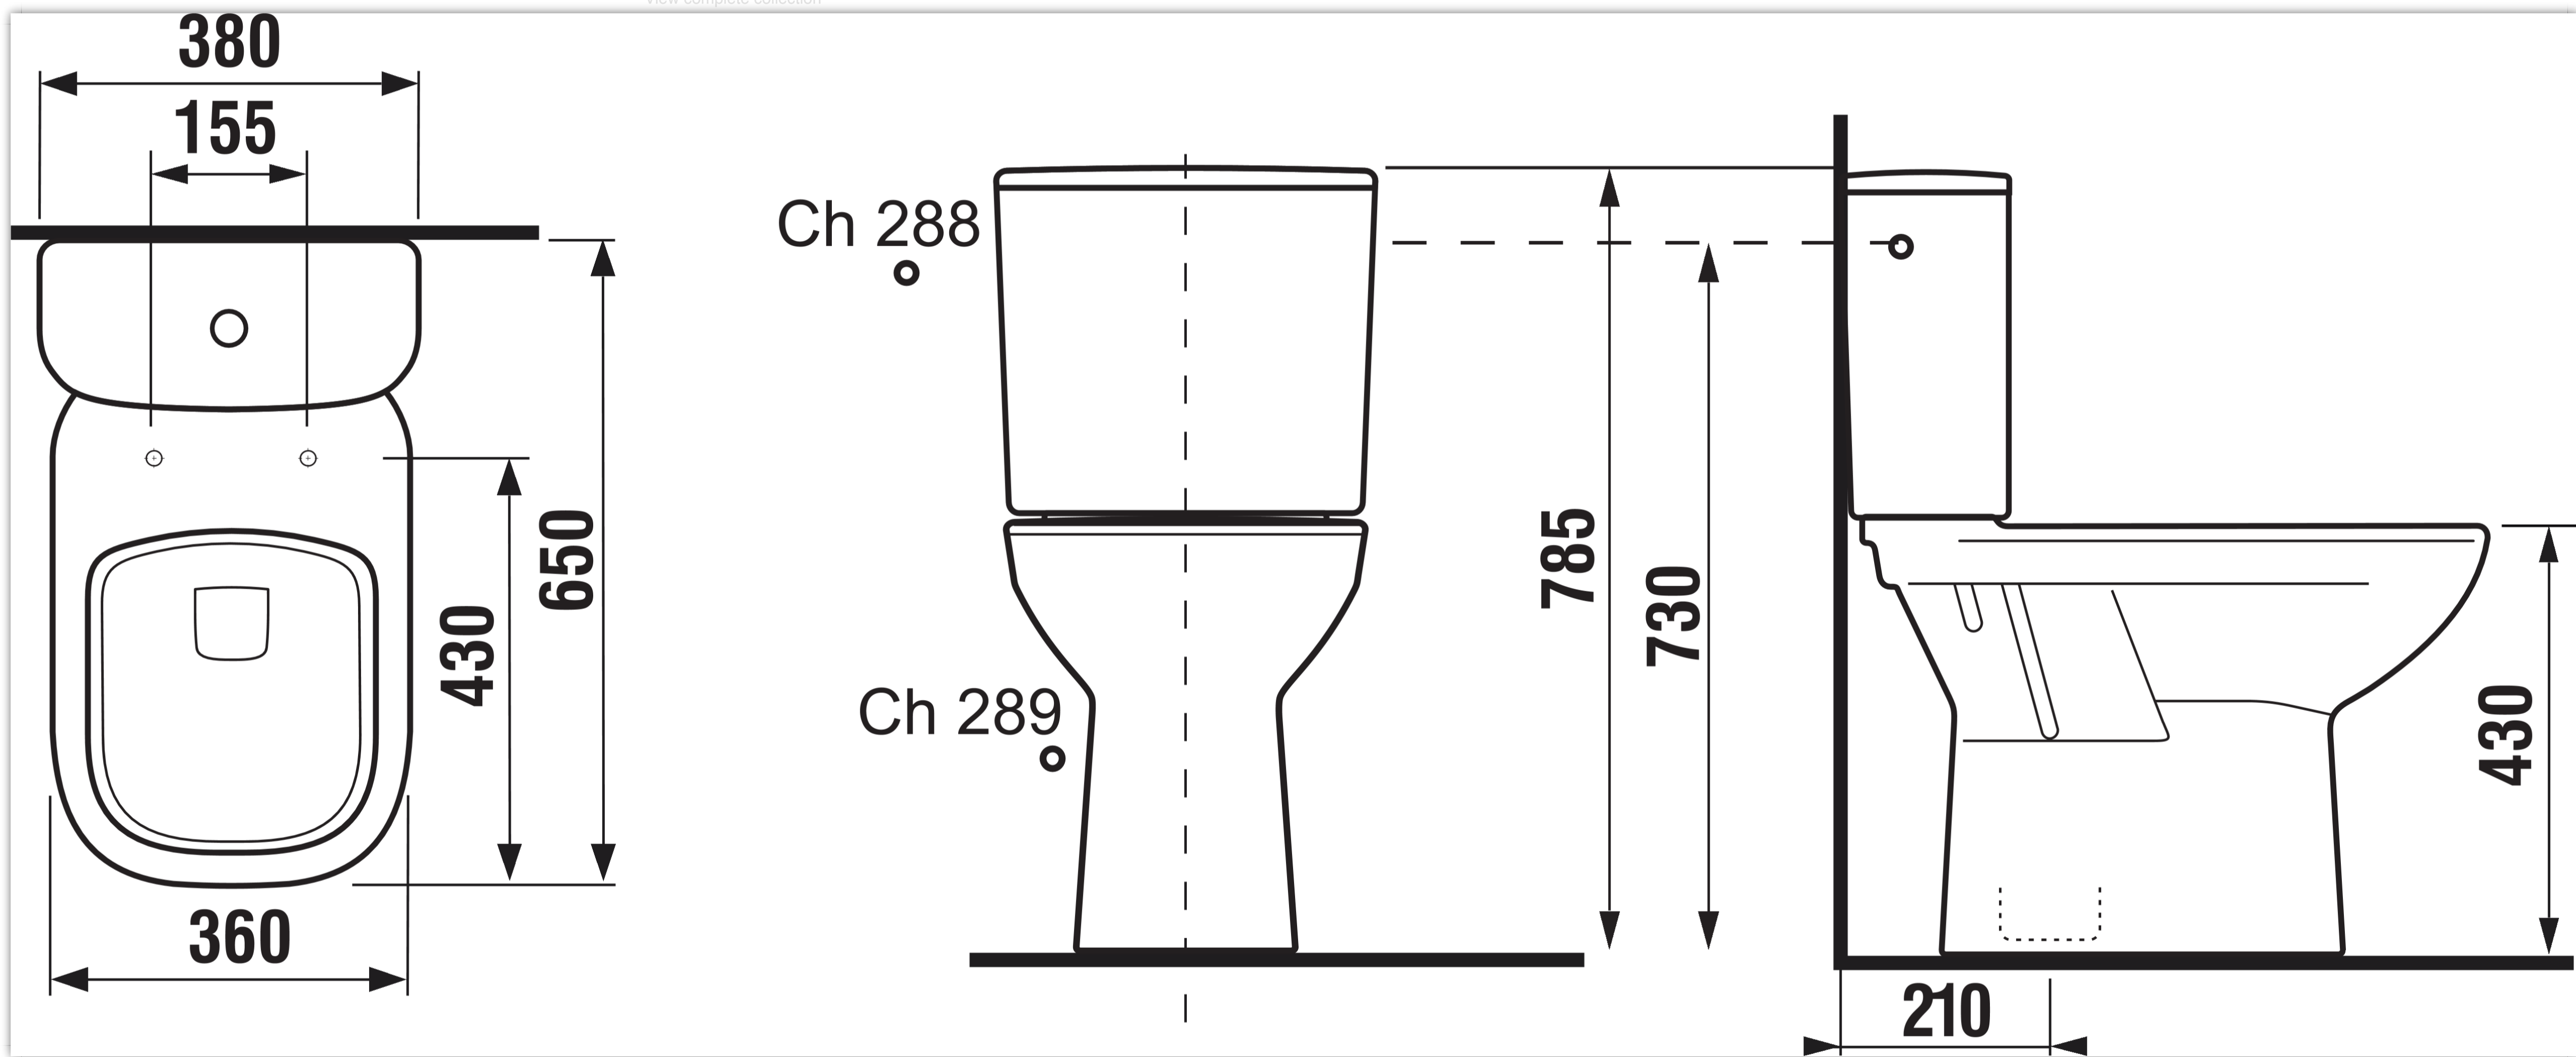

Dimensions:

Length: 650 mm

Width: 360 mm

Height: 430 mm
