

Will DulcieDot clothes shrink or fade when I wash them?

You may have shrinkage up to 5%

Why?

We use GOTS Organic cotton that isn't coated with the nasty resins and toxins that conventional cotton uses to prevent shrinking. We have allowed for this in our designs.

We also use non-toxic dyes to further reduce our chemical footprint, due to the nature of these dyes over time colours may not appear as bright as toxic dyed and synthetic fabrics.
