NARDI

**CONTRACT
2023**

regeneration

Our commitment to making environmentally sustainable products with high added value led us to launch the Regeneration industrial programme, in 2019, for the production of outdoor furniture in recycled plastic.

REGENERATION

Regeneration is much more than a simple line of recycled plastic products. It allows us to experiment with solutions that can be applied on a large scale to the entire production cycle and involves all steps, from the concept creation of individual furniture items to their packaging.

For the Regeneration line, all protective packaging and related internal supports are made of FSC-certified recycled cardboard and fully recyclable low-density polyethylene, both designed to minimise their use.

We make our products at a production plant designed with cutting-edge plant engineering technology. It is equipped with energy-saving hybrid injection presses, with an air-based cooling system without using water and consuming very little electricity. Most of the electricity used is produced by a photovoltaic panel system.

FOLIO ROCKING bianco/cushion lino - antracite/cushion rosa quarzo

FOLIO is an innovative relaxing armchair, adjusting to two positions, designed for outdoor use. It is available with a fixed base and a footrest, or in a romantic rocking version.

The large structure of the armchair is made from a single perforated sheet. It has an expertly curved design that allows movement between the seat and back, exploiting the flexibility of the material without requiring any linking or rotating elements.
