	Pace Edwards Jack Rabbit	Jeep Gladiator	

GENERAL NOTES:

Some covers not listed may still work with trimming of the cover brand rails. Added weatherstripping may be needed from the local hardware store.

Installing with the in bed rail system in any truck model requires a different installation process and modifications may be needed. A tonneau cover is not needed to mount our bed rack system.

IMPORTANT MESSAGE:

If your tonneau cover is not listed, please contact

customerservice@tuwapro.com and one of our expirienced adventurers will assist you!
