

Detox, Restore & Replenish

Hair, no matter what type, endures the daily stresses of the environment, especially after a summer in the sun at the beach and pool. This, on top of styling practices, can leave hair lifeless and starved for moisture. When hair lacks proper moisture, it becomes dull, loses elasticity and is prone to breakage. Through a unique blend of proteins, nutrients, oils and plant extracts, Eufora Nourish products keep hair and scalp in optimum condition.
