## 4. FIRST AID MEASURES

|     |                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-----|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.1 | First Aid:           | <b>Ingestion:</b> If ingested, do not induce vomiting. If product has been swallowed, drink plenty of water or milk IMMEDIATELY. If the patient is vomiting, continue to offer water or milk. Never give water or milk to an unconscious person. Contact the nearest Poison Control Center or local emergency number. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed.<br><b>Eyes:</b> Splashes are not likely; however, if product gets in the eyes, flush with copious amounts of lukewarm water for at least 15 minutes. Seek immediate medical attention.<br><b>Skin:</b> If irritation occurs and product is on the skin, rinse thoroughly with lukewarm water, followed by a thorough washing of the affected area with soap and water. If irritation, redness or swelling persists, contact a physician immediately.<br><b>Inhalation:</b> Remove victim to fresh air at once. |
| 4.2 | Effects of Exposure: | <b>Ingestion:</b> Unlikely. If product is swallowed, may cause nausea, vomiting and/or diarrhea.<br><b>Eyes:</b> Moderately irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and watering.<br><b>Skin:</b> May be irritating to skin in some sensitive individuals. The product can cause allergic skin reactions (e.g., rashes, welts, dermatitis) in some sensitive individuals.<br><b>Inhalation:</b> None expected.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## 5. FIREFIGHTING MEASURES

|     |                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5.1 | Fire & Explosion Hazards: | This product is not flammable.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 5.2 | Extinguishing Methods:    | Water, Foam, CO <sub>2</sub> , Dry Chemical.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 5.3 | Firefighting Procedures:  | As in any fire, wear MSHA/NIOSH approved self-contained breathing apparatus (pressure-demand) and full protective gear. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters must use full bunker gear including NIOSH-approved positive pressure self-contained breathing apparatus to protect against potential hazardous combustion or decomposition products and oxygen deficiencies. |

## 6. ACCIDENTAL RELEASE MEASURES

|     |         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-----|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6.1 | Spills: | Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment (PPE). For <u>small spills</u> (e.g., < 1 gallon (3.8 L)) or <u>large spills</u> (e.g., ≥ 1 gallon (3.8 L)), wear appropriate personal protective equipment (e.g., goggles, gloves). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse. |
|-----|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 7. HANDLING & STORAGE INFORMATION

|     |                           |                                                                                                                                                |
|-----|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| 7.1 | Work & Hygiene Practices: | Do not eat, drink, or smoke while handling this product.                                                                                       |
| 7.2 | Storage & Handling:       | Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans). Keep away from excessive heat and open flames. |
| 7.3 | Special Precautions:      | Spilled material may present a slipping hazard if left unattended. Clean all spills promptly.                                                  |

## 8. EXPOSURE CONTROLS & PERSONAL PROTECTION

| 8.1 | Exposure Limits:<br>ppm (mg/m <sup>3</sup> ) | ACGIH                                                                                                                                                                                                                                                                                                                                  |     |      | NOHSC  |         |         | OSHA |      |      | OTHER     |

|     |                                              | CITRAL                                                                                                                                                                                                                                                                                                                                 | NA  | NA   | NF     | NF      | NF      | NA   | NA   | NA   | ALLERGEN  |
| 8.2 | Ventilation & Engineering Controls:          | When working with large quantities of product, provide adequate ventilation (e.g., local exhaust ventilation, fans). Ensure that an eyewash station, sink or washbasin is available in case of exposure to eyes.                                                                                                                       |     |      |        |         |         |      |      |      |           |
| 8.3 | Respiratory Protection:                      | No special respiratory protection is required under typical circumstances of use or handling. If necessary, use only respiratory protection authorized per U.S. OSHA's requirement in 29 CFR §1910.134, or applicable U.S. state regulations, or the appropriate standards of Canada, its provinces, E.C. member states, or Australia. |     |      |        |         |         |      |      |      |           |
| 8.4 | Eye Protection:                              | Avoid direct eye contact. None required under normal conditions of use.                                                                                                                                                                                                                                                                |     |      |        |         |         |      |      |      |           |
| 8.5 | Hand Protection:                             | None required under normal conditions of use. However, may cause skin irritation in some sensitive individuals.                                                                                                                                                                                                                        |     |      |        |         |         |      |      |      |           |
| 8.6 | Body Protection:                             | No apron required when handling small quantities. When handling large quantities (e.g., ≥ 1 gallon), eye wash stations and deluge showers should be available.                                                                                                                                                                         |     |      |        |         |         |      |      |      |           |

## 10. STABILITY & REACTIVITY

|      |                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|------|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 10.1 | Stability:                        | This product is stable.                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 10.2 | Hazardous Decomposition Products: | Oxides of carbon (CO, CO <sub>2</sub> ) and sulfur (SO <sub>2</sub> ). Liberation of gas may result in dangerous pressure.                                                                                                                                                                                                                                                                                                                              |
| 10.3 | Hazardous Polymerization:         | Will not occur.                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 10.4 | Conditions to Avoid:              | Open flames, sparks and high heat, direct sunlight.                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10.5 | Incompatible Substances:          | Store away from flammable liquids, flammable solids, aerosols and other incompatible materials (e.g., reducing materials, combustible materials, metal contamination like iron, copper and their alloys). Avoid contamination. Do not store any tint, lightener lotion or bleach powder after it has been mixed with developer; the container may rupture. Never return unused material to original container. Avoid extreme heat and ignition sources. |

## 11. TOXICOLOGICAL INFORMATION

|      |                              |                                                                                                                                                                                 |                 |               |
|------|------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|---------------|
| 11.1 | Routes of Entry:             | Inhalation: YES                                                                                                                                                                 | Absorption: YES | Ingestion: NO |
| 11.2 | Toxicity Data:               | This product has NOT been tested on animals to obtain toxicology data. Toxicology data, found in scientific literature, is available for some of the components of the product. |                 |               |
| 11.3 | Acute Toxicity:              | See section 4.4                                                                                                                                                                 |                 |               |
| 11.4 | Chronic Toxicity:            | See section 4.5                                                                                                                                                                 |                 |               |
| 11.5 | Suspected Carcinogen:        | No.                                                                                                                                                                             |                 |               |
| 11.6 | Reproductive Toxicity:       | This product is not reported to produce reproductive toxicity in humans.                                                                                                        |                 |               |
|      | Mutagenicity:                | This product is not reported to produce mutagenic effects in humans.                                                                                                            |                 |               |
|      | Embryotoxicity:              | This product is not reported to produce embryotoxic effects in humans.                                                                                                          |                 |               |
|      | Teratogenicity:              | This product is not reported to cause teratogenic effects in humans.                                                                                                            |                 |               |
|      | Reproductive Toxicity:       | This product is not reported to cause reproductive effects in humans.                                                                                                           |                 |               |
| 11.7 | Irritancy of Product:        | See Section 4.3.                                                                                                                                                                |                 |               |
| 11.8 | Biological Exposure Indices: | NE                                                                                                                                                                              |                 |               |
| 11.9 | Physician Recommendations:   | Treat symptomatically.                                                                                                                                                          |                 |               |

## 12. ECOLOGICAL INFORMATION

|      |                              |                                                       |
|------|------------------------------|-------------------------------------------------------|
| 12.1 | Environmental Stability:     | There is no specific data available for this product. |
| 12.2 | Effects on Plants & Animals: | There is no specific data available for this product. |
| 12.3 | Effects on Aquatic Life:     | There is no specific data available for this product. |

## 13. DISPOSAL CONSIDERATIONS

|      |                         |                                                                                              |
|------|-------------------------|----------------------------------------------------------------------------------------------|
| 13.1 | Waste Disposal:         | Waste disposal must be in accordance with appropriate Federal, state, and local regulations. |
| 13.2 | Special Considerations: | U.S. EPA Waste Number: D001 (characteristic - ignitable).                                    |

## 14. TRANSPORTATION INFORMATION

The basic description (ID Number, proper shipping name, hazard class & division, packing group) is shown for each mode of transportation. Additional descriptive information may be required by 49 CFR, IATA/ICAO, IMDG and the CTDGR.

|      |                      |               |  |
|------|----------------------|---------------|--|
| 14.1 | 49 CFR (GND):        | NOT REGULATED |  |
| 14.2 | IATA (AIR):          | NOT REGULATED |  |
| 14.3 | IMDG (OCN):          | NOT REGULATED |  |
| 14.4 | TDGR (Canadian GND): | NOT REGULATED |  |
| 14.5 | ADR/RID (EU):        | NOT REGULATED |  |
| 14.6 | SCT (MEXICO):        | NOT REGULATED |  |
| 14.7 | ADGR (AUS):          | NOT REGULATED |  |

## 15. REGULATORY INFORMATION

|      |                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

SDS Revision: 1.0

SDS Revision Date: 4/20/2022

## DEFINITION OF TERMS

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following:

### GENERAL INFORMATION:

|                   |                                                                      |
|-------------------|----------------------------------------------------------------------|
| <b>CAS No.</b>    | Chemical Abstract Service Number                                     |
| <b>RTECS No.</b>  | Registry of Toxic Effects of Chemical Substances Number              |
| <b>EINECS No.</b> | European Inventory of Existing Commercial Chemical Substances Number |

### EXPOSURE LIMITS IN AIR:

|              |                                                                |
|--------------|----------------------------------------------------------------|
| <b>ACGIH</b> | American Conference on Governmental Industrial Hygienists      |
| <b>IDLH</b>  | Immediately Dangerous to Life and Health                       |
| <b>NOHSC</b> | National Occupational Health and Safety Commission (Australia) |
| <b>OSHA</b>  | U.S. Occupational Safety and Health Administration             |
| <b>PEL</b>   | Permissible Exposure Limit                                     |
| <b>STEL</b>  | Short Term Exposure Limit                                      |
| <b>TLV</b>   | Threshold Limit Value                                          |
| <b>TWA</b>   | Time Weighted Average                                          |

### FIRST AID MEASURES:

|            |                                                                                                                                                                                      |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CPR</b> | Cardiopulmonary resuscitation - method in which a person whose heart has stopped receives manual chest compressions and breathing to circulate blood and provide oxygen to the body. |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### HAZARDOUS MATERIALS IDENTIFICATION SYSTEM: HMIS

### HEALTH, FLAMMABILITY & REACTIVITY RATINGS:

|          |                 |
|----------|-----------------|
| <b>0</b> | Minimal Hazard  |
| <b>1</b> | Slight Hazard   |
| <b>2</b> | Moderate Hazard |
| <b>3</b> | Severe Hazard   |
| <b>4</b> | Extreme Hazard  |

|                            |
|----------------------------|
| <b>HEALTH</b>              |
| <b>FLAMMABILITY</b>        |
| <b>PHYSICAL HAZARDS</b>    |
| <b>PERSONAL PROTECTION</b> |

### PERSONAL PROTECTION RATINGS:

|          |  |          |                                                                  |
|----------|--|----------|------------------------------------------------------------------|
| <b>A</b> |  | <b>G</b> |                                                                  |
| <b>B</b> |  | <b>H</b> |                                                                  |
| <b>C</b> |  | <b>I</b> |                                                                  |
| <b>D</b> |  | <b>J</b> |                                                                  |
| <b>E</b> |  | <b>K</b> |                                                                  |
| <b>F</b> |  | <b>X</b> | Consult your supervisor or SOPs for special handling directions. |

|                      |                                   |                                  |                           |
|----------------------|-----------------------------------|----------------------------------|---------------------------|
|                      |                                   |                                  |                           |
| Safety Glasses       | Splash Goggles                    | Face Shield & Protective Eyewear | Gloves                    |
|                      |                                   |                                  |                           |
| Boots                | Protective Apron                  | Protective Clothing & Full Suit  | Dust Respirator           |
|                      |                                   |                                  |                           |
| Full Face Respirator | Dust & Vapor Half-Mask Respirator | Full Face Respirator             | Airline Hood/Mask or SCBA |

### OTHER STANDARD ABBREVIATIONS:

|                |                                                  |
|----------------|--------------------------------------------------|
| <b>Carc</b>    | Carcinogenic                                     |
| <b>Irrit</b>   | Irritant                                         |
| <b>NA</b>      | Not Available                                    |
| <b>NR</b>      | No Results                                       |
| <b>ND</b>      | Not Determined                                   |
| <b>NE</b>      | Not Established                                  |
| <b>NF</b>      | Not Found                                        |
| <b>SCBA</b>    | Self-Contained Breathing Apparatus               |
| <b>Sens</b>    | Sensitization                                    |
| <b>STOT RE</b> | Specific Target Organ Toxicity – Repeat Exposure |
| <b>STOT SE</b> | Specific Target Organ Toxicity – Single Exposure |

### NATIONAL FIRE PROTECTION ASSOCIATION: NFPA

| FLAMMABILITY LIMITS IN AIR:     |                                                                                                                                       |
|---------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| <b>Autoignition Temperature</b> | Minimum temperature required to initiate combustion in air with no other source of ignition                                           |
| <b>LEL</b>                      | Lower Explosive Limit - lowest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source  |
| <b>UEL</b>                      | Upper Explosive Limit - highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source |

### HAZARD RATINGS:

|                |                 |
|----------------|-----------------|
| <b>0</b>       | Minimal Hazard  |
| <b>1</b>       | Slight Hazard   |
| <b>2</b>       | Moderate Hazard |
| <b>3</b>       | Severe Hazard   |
| <b>4</b>       | Extreme Hazard  |
| <b>ACD</b>     | Acidic          |
| <b>ALK</b>     | Alkaline        |
| <b>COR</b>     | Corrosive       |
| <b>W</b>       | Use No Water    |
| <b>OX</b>      | Oxidizer        |
| <b>TREFOIL</b> | Radioactive     |

### TOXICOLOGICAL INFORMATION:

|                                                                                                                            |                                                                       |
|----------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------|
| <b>LD<sub>50</sub></b>                                                                                                     | Lethal Dose (solids & liquids) which kills 50% of the exposed animals |
| <b>LC<sub>50</sub></b>                                                                                                     | Lethal concentration (gases) which kills 50% of the exposed animal    |
| <b>ppm</b>                                                                                                                 | Concentration expressed in parts of material per million parts        |
| <b>TD<sub>10</sub></b>                                                                                                     | Lowest dose to cause a symptom                                        |
| <b>TCLO</b>                                                                                                                | Lowest concentration to cause a symptom                               |
| <b>TD<sub>10</sub>, LD<sub>10</sub>, &amp; LD<sub>0</sub> or TC, TC<sub>0</sub>, LC<sub>10</sub>, &amp; LC<sub>0</sub></b> | Lowest dose (or concentration) to cause lethal or toxic effects       |
| <b>IARC</b>                                                                                                                | International Agency for Research on Cancer                           |
| <b>NTP</b>                                                                                                                 | National Toxicology Program                                           |
| <b>RTECS</b>                                                                                                               | Registry of Toxic Effects of Chemical Substances                      |
| <b>BCF</b>                                                                                                                 | Bioconcentration Factor                                               |
| <b>TL<sub>m</sub></b>                                                                                                      | Median threshold limit                                                |
| <b>log K<sub>ow</sub> or log K<sub>oc</sub></b>                                                                            | Coefficient of Oil/Water Distribution                                 |

### REGULATORY INFORMATION:

|              |                                                          |
|--------------|----------------------------------------------------------|
| <b>WHMIS</b> | Canadian Workplace Hazardous Material Information System |
| <b>DOT</b>   | U.S. Department of Transportation                        |
| <b>TC</b>    | Transport Canada                                         |
| <b>EPA</b>   | U.S. Environmental Protection Agency                     |
| <b>DSL</b>   | Canadian Domestic Substance List                         |
| <b>NDSL</b>  | Canadian Non-Domestic Substance List                     |
| <b>PSL</b>   | Canadian Priority Substances List                        |
| <b>TSCA</b>  | U.S. Toxic Substance Control Act                         |
| <b>EU</b>    | European Union (European Union Directive 67/548/EEC)     |
| <b>WGK</b>   | Wassergefährdungsklassen (German Water Hazard Class)     |

### WORKPLACE HAZARDOUS MATERIALS IDENTIFICATION (WHMIS) SYSTEM:

|            |           |           |          |            |            |           |          |
|------------|-----------|-----------|----------|------------|------------|-----------|----------|
|            |           |           |          |            |            |           |          |
| Class A    | Class B   | Class C   | Class D1 | Class D2   | Class D3   | Class E   | Class F  |
| Compressed | Flammable | Oxidizing | Toxic    | Irritation | Infectious | Corrosive | Reactive |

### CLP/GHS (1272/2008/EC) PICTOGRAMS:
