OUR STORY

Cocoabeans was born thirteen years ago because Betsy and her 3 children were diagnosed with Celiac Disease. We found gluten-free options to be tasteless, dry, gritty and just plain terrible.

During the past 13 years, Cocoabeans has refined the ingredients we use and the methods for mixing and baking. The results have been outstanding. Our bars are flavourful and go exceptionally well with a cup of coffee. You don't have to be celiac to enjoy our products. As always - our ingredients are always carefully sourced

Our retail store-front provides great feedback as our customers are just as eager to have exceptional tasting products as we are.
